Murfett,2008-11-04 Naval Warfare 1919 45 is a comprehensive history of the war at sea from the end of the Great War to the end of World War Two Showing the bewildering nature and complexity of the war facing those charged with fighting it around the world this book ranges far and wide sweeping across all naval theatres and those powers performing major as well as minor roles within them Armed with the latest material from an extensive set of sources Malcolm H Murfett has written an absorbing as well as a comprehensive reference work He demonstrates that superior equipment and the best intelligence ominous power and systematic planning vast finance and suitable training are often simply not enough in themselves to guarantee the successful outcome of a particular encounter at sea Sometimes the narrow difference between victory and defeat hinges on those infinite variables the individual s performance under acute pressure and sheer luck Naval Warfare 1919 45 is an analytical and interpretive study which is an accessible and fascinating read both for students and for interested members of the general public *Black Shoes and Blue Water* Malcolm Muir,1996 Contributions to Naval History No 6 Presents Professor Muir s account of the thirty year development of surface warfare capabilities especially within the Navy s cruiser and destroyer force Pays particular attention to the development of weapons the evolution of sensors and command and control systems and the institutional steps taken to professionalize the surface warfare community

Struggle for the Middle Sea Vincent O'Hara,2009-06-01 The Mediterranean is the maritime crossroads where Europe Asia and Africa meet More major naval actions were fought there than in the Atlantic or Pacific yet remarkably little has been written about the subject Th is fresh study of the Mediterranean s naval war analyzes the actions and performances of the five major navies British Italian French German and American during the entire five year campaign and examines the national imperatives that drove each nation s maritime strategy Struggle for the Middle Sea provides a history of the entire campaign from all perspectives and covers Germany s largely unknown and remarkably successful struggle to employ sea power in the Mediterranean after the Italian armistice Defense Foreign Affairs Strategic Policy August 2009 has called it a new and stunningly important view of World War II and a fabulously readable and important book Military Innovation in the Interwar Period Williamson R. Murray,Allan R. Millett,1998-08-13 In 1914 the armies and navies that faced each other were alike right down to the strengths of their companies and battalions and the designs of their battleships and cruisers Differences were of degree rather than essence During the interwar period however the armed forces grew increasingly asymmetrical developing different approaches to the same problems This study of major military innovations in the 1920s and 1930s explores differences in exploitation by the seven major military powers The comparative essays investigate how and why innovation occurred or did not occur and explain much of the strategic and operative performance of the Axis and Allies in World War II The essays focus on several instances of how military services developed new technology and weapons
