Sovereigns, Quasi Sovereigns, and Africans Siba N'Zatioula Grovogui,1996 *Sovereigns Quasi Sovereigns and Africans* was first published in 1996 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions In this trenchant critique Siba N Zatioula Grovogui demonstrates the failure of international law to address adequately the issues surrounding African self determination during decolonization Challenging the view that the only requirement for decolonization is the elimination of the legal instruments that provided for direct foreign rule *Sovereigns Quasi Sovereigns and Africans* probes the universal claims of international law Grovogui begins by documenting the creation of the image of Africa in European popular culture examining its construction by conquerors and explorers scientists and social scientists and the Catholic Church Using the case of Namibia to illuminate the general context of Africa he demonstrates that the principles and rules recognized in international law today are not universal but instead reflect relations of power and the historical dominance of specific European states Grovogui argues that two important factors have undermined the universal applicability of international law its dependence on Western culture and the way that international law has been structured to preserve Western hegemony in the international order This dependence on Europeandominated models and legal apparatus has resulted in the paradox that only rights sanctioned by the former colonial powers have been accorded to the colonized regardless of the latter's needs In the case of Namibia Grovogui focuses on the discursive strategies used by the West and their southern African allies to control the legal debate as well as the tactics used by the colonized to recast the terms of the discussion Grovogui blends

critical legal theory historical research political economy and cultural studies with profound knowledge of contemporary Africa in general and Namibia in particular Sovereigns Quasi Sovereigns and Africans represents the very best of the new scholarship moving beyond narrow disciplinary boundaries to illuminate issues of decolonization in Africa Siba N Zatioula Grovogui is assistant professor of political science at Johns Hopkins University He previously practiced law in his native Guinea 1983/87 Centre on Transnational Corporations (United Nations),1988 **Southern Africa Bibliography** Reuben Musiker,Naomi Musiker,1996 On April 27 1994 a new era in the history of Southern Africa began when South Africa became a democratic country governed by Black majority rule In the aftermath of these momentous changes Scarecrow Press introduces the Southern Africa Bibliography It is a select bibliography that lists the significant books and monographs on Angola Botswana Lesotho Malawi Namibia Mozambique South Africa Swaziland Zambia and Zimbabwe published since 1945 Coverage of a broad range of subjects including art culture economy history politics religion society and important persons places events and movements The work is arranged by subject and contains detailed author title and subject indexes American Reference Books Annual Bohdan S.
