It provides an illuminating genealogy of artistic research revealing the intimate connections between art and science over the centuries and identifying some of the founding figures of practice based artistic research Bell explores the research that artists undertake through a number of case studies talking to a range of contemporary artists and media makers about their work and the role research plays in this He also traces the dialogues between art practice and a range of other humanity disciplines such as history anthropology and critical theory His analysis reveals how contemporary art practice is now so locked into a set of interlocutions about process and purpose that it increasingly resembles a research practice in and of itself Research in the Creative and Media Arts is a comprehensive overview of the relationship between research and practice that is ideal for undergraduate and postgraduate students as well as researchers in the fields of art and design art history and visual culture Inter-Medial Observations on the 'Reflected' Or 'Deconstructed' Illusion Bjoern

Schubert, 2011-07 Essay from the year 2009 in the subject American Studies Comparative Literature grade 1.0 Humboldt University of Berlin Amerikanistik und Anglistik course Postmodern Cinema language English abstract In this self study journal I aim to collect some comparative and inter medial ideas on how illusion here defined as different perspectives on reality in the arts is reflected within the media of film painting and literature The perception of reality especially in the medium of film remains up to the present moment a controversial and still largely unexplored topic in the fields of philosophy neuroscience and film theory therefore the intent of this self study journal is to focus on a small selection of examples of modern and postmodern film literature and the visual arts photography and painting As well I will explore a few selected quotations from manifestos in the tradition of early 20th century avant garde and also will make brief reference to earlier periods When we accept the reality that is shown to us in the movies we are giving ourselves over to the illusion of cinema that is being created by talented cast and crew in the production and carefully honed in post production by skillful editing The power of the illusion in cinema is to take us for the time being into another world and ideally we forget for the moment that we are still sitting in a dark room with a large screen In the medium of literature our imagination takes control of the world presented by the author's words and is translated into a uniquely imagined reality that is created by the reader's own imagination and recollection of memories Like in the cinema if a book grabs us we tend to forget our presence in the real world for the time reading the book *A history of the theory of elasticity and of the strength of materials, ed. and completed by K.
