Reflection In A Mirror:

Mirrors of Madness: How Asylums Used Reflections to Control and Cure Mark E. Jemy, 2025-10-13 Mirrors of Madness is a historical investigation into the strange and unsettling use of mirrors within the asylums of the 19th and early 20th centuries The book argues that mirrors in these institutions were not for vanity but were integral parts of a grand terrifying experiment It explores how asylum architects and doctors used reflections as tools for control cure and a strange form of psychological warfare from using them for surveillance The Unblinking Eye to applying them in therapeutic theories like the Narcissus Cure The narrative delves into the patient s experience treating the asylum as a theater of the mind where one s own reflection could become a prison or a path to a fragile cure

Photonic MEMS Devices Ai-Qun Liu, 2018-10-08 Photonic MEMS devices represent the next major breakthrough in the silicon revolution While many quality resources exist on the optic and photonic aspect of device physics today s researchers are in need of a reference that goes beyond to include all aspects of engineering innovation An extension on traditional design and analysis Photonic MEMS Devices Design Fabrication and Control describes a broad range of optical and photonic devices from MEMS optical switches and bandgap crystal switches to optical variable attenuators VOA and injection locked tunable lasers It deals rigorously with all these technologies at a fundamental level systematically introducing critical nomenclature Each chapter also provides analysis techniques equations and experimental results The book focuses not only on traditional design analysis but also provides extensive background on realistic simulation and fabrication processes With a clear attention to experimental relevance this book provides the fundamental knowledge needed to take the next step in integrating photonic MEMS devices into commercial products and technology
