Reflections On Political Identity

Volkmar Gessner, David Nelken

Reflections On Political Identity:

Reflections on Political Identity Anne Norton, 1988 Norton powerfully defends the inevitability and value of those particular concrete traits and actions whereby men differentiate themselves from one another Ethics Political Identity and the Metaphysics of Politics Gabriele De Anna, Manuele Dozzi, 2023-05-05 The chapters in this volume clarify the notion of political identity by focusing on the metaphysics of politics By analysing the notion of political identity they provide the conceptual resources for a deeper understanding of the theoretical and practical debates on populism the crisis of sovereignty the feasibility of a world government and ethical religious and cultural pluralism What is a political community Any answer to this question lies at the intersection between three fields metaphysics philosophy of action and political philosophy The question concerns how and why a plurality of individuals becomes a political unity what principles or forces keep that unity together and what threats that unity can encounter In this volume the contributors investigate how different metanormative views affect the possible answers to this metaphysical question They explore the role that the individual identities of agents play in grounding common practices that underpin political life They investigate the individual identities of agents as the result of the interplay between natural and cultural factors Finally they observe the ways in which a political community as a collection of individuals who hang together in an attempt to reach common purposes demonstrate a certain metaphysical solidity Political Identity and the Metaphysics of Politics will appeal to researchers and advanced students working in metaphysics political philosophy political theory and philosophy of action *Identity, Difference* William E. Connolly, 2002 Liberalism, Nationalism, Citizenship Ronald Beiner, 2003 Liberals believe that the purpose of politics is to guarantee that individuals do not face unfair impediments in pursuing the lives they choose for themselves Nationalists believe that the purpose of politics is to ensure that a people's sense of authentic nationhood wins full expression in powers of collective sovereignty or self rule Both of these forms of political commitment yield world transforming political philosophies but do either of these visions do adequate justice to a philosophically robust ideal of shared citizenship and civic membership In Liberalism Nationalism Citizenship Ronald Beiner engages critically with a wide range of important political thinkers and current debates in light of the Aristotelean idea that shared citizenship is an essential human calling Virtually every aspect of contemporary political experience globalization international migration secessionist movements the politics of multiculturalism pose urgent challenges to modern citizenship Beiner's work on the philosophy of citizenship is essential reading not just for students of politics and political philosophy but for all those who rightly sense that these kinds of recent challenges **Political Mourning** Heather Pool, 2021-05-21 Political Mourning examines four case studies the Triangle Fire Emmett Till's murder the attacks of September 11th and the Black Lives Matter movement to shed light on moments when everyday people died when their deaths were the basis of calls for political change and when such a change actually occurred

European Ways of Law Volkmar Gessner, David Nelken, 2007-10-30 Can there be such a thing as a European sociology of law The uncertainties which arise when attempting to answer that straightforward question are the subject of this book which also overlaps into comparative law legal history and legal philosophy The richness of approaches reflected in the essays including comparisons with the US makes this volume a courageous attempt to show the present state of socio legal studies in Europe and map directions for its future development Certainly we already know something about the existence of differences in the use and meaning of law within and between the nation states and groups that make up the European Union They concern the role of judges and lawyers the use of courts patterns of delay contrasts in penal sensibilities or the meanings of underlying legal and social concepts Still similarities in legal culture are at least as remarkable in societies at roughly similar levels of political and economic development The volume should serve as a needed stimulus to a research agenda aimed at uncovering commonalities and divergences in European ways of approaching the law *Political Identity and Democratic Citizenship in Turbulent Times* Kristensen, Niels Noergaard, 2020-06-19 Turbulent times challenge democratic politics and governance in Western countries Party systems in many instances have failed to produce solutions to vital policy problems like immigration state borders welfare or environmental issues While subjective perceptions of macroeconomic outcomes are consistently related to political trust at the micro level few studies have explored how individuals develop political engagement and identity New insights are needed from studies focusing on how people become politically active and how political identities develop *Political Identity and Democratic Citizenship in Turbulent Times* is a critical scholarly research publication that investigates discusses deconstructs analyzes and tests the concept of political identity and its evolving role in modern democracy Moreover it explores the contours of politics and brings together studies that examine the democratic potential of a diversity of participatory spheres institutions and arenas Highlighting topics such as political culture consumerism and welfare states this book is ideal for politicians policymakers government officials sociologists historians academicians professionals researchers and students Identity in Community Paul Kwong, 2011 The term ContactZone was coined in postcolonial discourse to signify the place where cultures and religions meet It implies that first contact cultural religious exchange and conflict have always been determined by power relations Through making use of communication theories hermeneutics and aesthetics intercultural theology generates new terminologies and theoretical tools to explore these interactions Its scope ranges from issues such as dialogue and syncretism to fundamentalism and ethnicity Perspectives of culture religion race class and gender alike are involved in the necessary multi axial approach ContactZone is going to create a space where a choir of multiple voices is responding to the challenges of the cultural

religious pluralism of the 21st century Archbishop Paul Kwong 1950 develops the idea of identity in community as central to the mission and theological agenda of Christians in Hong Kong In a wide ranging multidisciplinary study he analyzes diverse perspectives on the territory's recent history and compares the methodological approaches of local theologians with contextual theologies from other parts of the world He argues that the overlapping cultural and religious identities of Christians in the Hong Kong Special Administrative Region SAR of China can empower Hong Kong people to embrace rather than to exclude differences and otherness so that they can accept and live out their identities in community without having to make a choice for one among the many

Terms of Exclusion Zein Murib, 2023 LGBT political movements in the United States have been successful in expediting the growing acceptance of sexual and gender minorities and increasing public support for LGBT rights However not all segments of what has come to be called the LGBT community have benefited from these gains even marginalized identity groups have internal hierarchies that determine whose political claims are heard or ignored In *Terms of Exclusion* Zein Murib looks at the LGBT community in the US as it formed into an identity based social and political group Drawing on an extensive archive of movement documents and publications Murib argues that the strategic use of rightful citizenship claims or the assertion that lesbians gay men bisexuals and transgender people are owed rights as citizens created opportunities for the recognition of white gender normative monogamously partnered gay men and lesbians at the expense of other community members The rights wins made as a result of these opportunities are celebrated as evidence of progress even while they simultaneously foreclose representation and political gains for those members whose cross cutting identities challenge or elude the boundaries of normative citizenship By focusing on the effects of mobilization tactics seeking assimilation Murib shows that within group marginalization is not an accident of political expediency or due to relatively fewer resources but rather a discursive strategy employed by political actors to make a group palatable to lawmakers and the general public *Terms of Exclusion* thus constitutes a significant revision to existing scholarship on LGBT politics in political science and joins a growing body of interdisciplinary work that focuses on how a seemingly benign

strategy of political movements foregrounding citizenship claims entails silence and erasure for the most precarious members of the group
