Louie, 2012-03-01 Eileen Chang 1920 1995 is arguably the most perceptive writer in modern Chinese literature She was one of the most popular writers in 1940s Shanghai but her insistence on writing about individual human relationships and mundane matters rather than revolutionary and political movements meant that in mainland China she was neglected until very recently Outside the mainland her life and writings never ceased to fascinate Chinese readers There are hundreds of works about her in the Chinese language but very few in other languages This is the first work in English to explore her earliest short stories as well as novels that were published posthumously It discusses the translation of her stories for film and stage presentation as well as nonliterary aspects of her life that are essential for a more comprehensive understanding of her writings including her intense concern for privacy and enduring sensitivity to her public image The thirteen essays examine the fidelity and betrayals that dominate her alter ego's relationships with parents and lovers informed by theories and methodologies from a range of disciplines including literary historical gender and film studies These relationships are frequently dramatized in plays and filmic translations of her work *South Korean Film* Hyon Joo Yoo, 2021-01-01 *South Korean Film Critical and Primary Sources* is an essential three volume reference collection representing three distinct phases in the development of South Korean national cinema foregrounding how epochal characteristics inform the way in which the national cinema represents the penetrating thematic concern of auteur ship genre spectatorship gender and nation as well as the way in which these themes find expression in distinct visual styles and forms **Eileen Chang: The Performativity of Self-Translation** Jessica Tsui-yan Li, 2025-06-16 Eileen Chang *The Performativity of Self Translation* by Jessica Tsui-yan Li focuses on the self translation of Zhang Ailing Eileen Chang 1920 1995 one of the most important Chinese writers of the twentieth century Although self translation is overlooked in most studies of her work Chang's literary achievements are

attributed in part to her lifelong self translation of her lived experiences and family sagas as well as her bilingualism This book enriches current studies of self translation by proposing a new hypothesis of theorizing self translation as a performative act characterized by its in betweenness and the aesthetic freedom that the self translator enjoys contextualized within larger debates about translation and the specific practice of self translation in Chinese history in comparison to its Western counterpart

*Photography and Exploration* James R. Ryan, 2013-07-15 When Ferdinand Magellan set out to circumnavigate the globe in 1519, he wasn't able to bring a digital camera or a smartphone with him. Yet as the eagerly awaited images from the Mars rover prove, modern exploration is inconceivable without photography. Since its invention in 1839, photography has been integral to exploration, used by explorers, sponsors, and publishers alike, and the early twentieth-century advances in technology and photography's newfound cultural currency as a truthful witness to the world made the camera an indispensable tool. In *Photography and Exploration*, James R. Ryan uses a variety of examples from polar journeys to space missions to show how exploration photographs have been created, circulated, and consumed as objects of both scientific research and art. Examining a wide range of photographs and expeditions, Ryan considers how nations have often employed images as a means to scientific advancement or territorial conquest. He argues that because exploration has long been bound up with the construction of national and imperial identity, expeditionary photographs have often been used to promote claims to power, especially by the West. These images also challenge the way audiences perceive the world and their place within it. Featuring one hundred images, *Photography and Exploration* shines new light on how photography has shaped the image of explorers, expeditions, and the worlds they discovered.

**Digital Photography and Everyday Life** Edgar Gómez Cruz, Askö Lehmuskallio, 2016-05-20 *Digital Photography and Everyday Life: Empirical studies on material visual practices* explores the role that digital photography plays within everyday life. With contributors from ten different countries and backgrounds in a range of academic disciplines including anthropology, media studies, and visual culture, this collection takes a uniquely broad perspective on photography by situating the image-making process in wider discussions on the materiality and visuality of photographic practices and explores these through empirical case studies. By focusing on material visual practices, the book presents a comprehensive overview of some of the main challenges digital photography is bringing to everyday life. It explores how the digitization of photography has a wide-reaching impact on the use of the medium as well as on the kinds of images that can be produced and the ways in which camera technology is developed. The exploration goes beyond mere images to think about cameras, mediations, and technologies as key elements in the development of visual digital cultures. *Digital Photography and Everyday Life* will be of great interest to students and scholars of Photography, Contemporary Art, Visual Culture, and Media Studies, as well as those studying Communication, Cultural Anthropology, and Science and Technology Studies.

individuals as *deutsche Volkszugehörige* or *Deutschstämmige* despite it being a clear violation of international law. This collection explores the lives of these non-German conscripts focusing on individuals from Slovenia, Poland, Silesia, Luxembourg, Belgium, and France. Each chapter adopts an actor-centered approach, examining their daily lives, social dynamics, recruitment, military deployment, and experiences in German uniform under coercion. The authors cover cases of desertion and escapes to neutral countries, along with the repercussions for families, tracing the capture of conscripts as POWs and the complex processes of redeployment by the Allies against the Germans and the re-conscription by national governments. Through a rich collection of ego documents and personal records, this work vividly captures their complex realities, offering nuanced insights into the dynamics of occupation, coercion, and the shifting allegiances that defined wartime and post-war Europe.
