

Reflexology is an alternative health therapy that uses knowledge of reflex points to stimulate the body's natural processes. It is based on the principle that there are correspondences between the organs of the body and parts of the feet, hands and ears. Reflexology is a non-invasive therapy that aims to improve the circulation of blood, lymph and energy in the body, thereby promoting overall health and well-being. The techniques of reflexology involve massaging these reflex points with the fingers, thumbs and palms in order to treat stress and disease and to improve the flow of energy in the body.
