In Reforesting the Earth, Thomas K Rudel draws on historical research and case studies to examine the drivers of deforestation and proposes reforestation as an urgent natural solution to the climate crisis. The book advocates for socio-political corporatist processes and local participation to enable successful forest conservation and expansion, offering useful insights for environmentalists, policymakers and activists, writes Mohd Amin Khan.

Reforesting the Earth: The Human Drivers of Forest Conservation, Restoration, and Expansion, Thomas K Rudel, Columbia University Press, 2023.

The global climate crisis poses a serious threat to the earth's ecosystem – its biodiversity, forests, soil fertility, water quality, and atmospheric carbon concentration. The impact on nature in turn has adverse effects on the socio-economic, cultural wellbeing and health of people across the globe, with a markedly unequal distribution of these negative effects on nations and communities. In his latest book, Thomas K Rudel emphasises the need for reforestation as a natural solution to the problems of climate change.

Reforesting the Earth aims to investigate the drivers of forest destruction and the factors influencing reforestation and the expansion of forests. It seeks to comprehend the role of human activity, including socio-political corporatist processes – policies based on the inclusive decision-making and governance of an organisation relating to other stakeholders like politicians, activists, donors, farmers, foresters, indigenous groups, and landowners – in reforestation by applying an integrated, case studies-based global data analysis. The ambition is to contribute to global climate crisis alleviation through natural solutions. The book unfolds over nine chapters, four of which discuss the historical background, concepts, theories, and analysis and the other five of which cover 19 cases studies of forest gain or loss worldwide.

The author begins with historical perspectives on the current political system: the actions and events that have precipitated the climate crisis. He then considers what would be the best approach to mitigate the adverse impacts of the crisis. He grounds his argument by elucidating the ways of living of traditional societies that evinced a respectful rather than an
