Reform on Campus: Changing Students, Changing Academic Programs Carnegie Commission on Higher Education, 1972  
Bound together v 3 no 1 3      **What Ever Happened to the Faculty?** Mary Burgan, 2006-11-24 In this provocative work Mary Burgan surveys the deterioration of faculty influence in higher education From campus planning curriculum and instructional technology to governance pedagogy and academic freedom she urges far greater consideration for the perspective of the faculty Burgan evokes the pervasive atmosphere of charge and counter charge on U S campuses where competition trumps reason not only in athletics but also in research faculty recruitment and fund raising Relating this winner take all mentality to the overspecialization of faculty and to overreliance on non tenure track instructors Burgan suggests that improving life on campus depends on faculty members successful engagement with their administrative colleagues as well as their students Informed by experience fueled by conviction and full of practical strategic advice for the future **What Ever Happened to the Faculty** is an excellent resource for administrators and faculty who are eager to change the tone and trajectory of contemporary higher education      **Research in Education** , 1974      *Planning For Higher Education* Allan O. Pfnister, 2019-06-10 This book focuses on some of the last decade s more significant writing about developments in higher education planning organizing the wide ranging commentaries and studies to show the administrator the faculty member and the informed layman what the current status of higher education appears to be      *Hearings, Reports and Prints of the Senate Committee on Labor and Public Welfare* United States. Congress. Senate. Committee on Labor and Public Welfare, 1975      Resources in Education , 2001-10      The Uses of the University Clark Kerr, 2013-08-01 America s university president extraordinaire adds a new chapter and preface to *The Uses of the University* probably the most important book on the modern university ever written This summa on higher education brings the research university into the new century The multiversity that Clark Kerr so presciently discovered now finds itself in an age of apprehension with few certainties Leaders of institutions of higher learning can be either hedgehogs or foxes in the new age Kerr gives five general points of advice on what kinds of attitudes universities should adopt He then gives a blueprint for action for foxes suggesting that a few hedgehogs need to be around to protect university autonomy and the public weal      *Reform and Change in Higher Education* Alberto Amaral, Orlanda Tavares, Cristina Sin, 2025-07-15 This insightful book explores the complexities and opportunities of implementing reform in higher education systems Chapters analyse the diverse factors taken into account at the system level the institutional level and the individual grass root level outlining potential causes of resistance from the academic community and highlighting innovative avenues for change      **Academia's Golden Age** Richard M. Freeland, 1992 This book examines the evolution of American universities during the years following World War II Emphasizing the importance of change at the campus level the book combines a general consideration of national trends with a close study of eight diverse universities in Massachusetts The eight are Harvard M I T Tufts Brandeis Boston University

Boston College Northeastern and the University of Massachusetts Broad analytic chapters examine major developments like expansion the rise of graduate education and research the professionalization of the faculty and the decline of general education These chapters also review criticisms of academia that arose in the late 1960s and the fate of various reform proposals during the 1970s Additional chapters focus on the eight campuses to illustrate the forces that drove different kinds of institutions research universities college centered universities urban private universities and public universities in responding to the circumstances of the postwar years *Reforms in Higher Education* Keith Watson,1996-12-05 This text addresses the reforms in the financial and administrative structure of higher education government intervention in introducing new managerial techniques and quality audits and the implications of these changes for both academics and administrators It is one of a series of four volumes which look at the educational dilemmas facing governments professional educators and practising administrators in the current climate in education The issues are addressed from international and comparative perspectives *ERIC Clearinghouse Publications* ,1981 *State and Market in Higher Education Reforms* Hans G. Schuetze,Germán Álvarez Mendiola,Diane Conrad,2012-09-05 Universities have never been static Even so it is fair to say they have experienced a most radical transformation in the past twenty years During this period the role and responsibility of the state generally have been broadly limited while allowing market forces private ownership and control more influence But even where the state is still the main provider or funder it relies increasingly on market mechanisms for example contractual relations between state and institutions competition among providers for resources and external assessment of outputs which means the results or impact of what universities do in particular teaching and research The new terminology speaks of price and competition inputs and outputs resources cost and benefits demand and supply provider and customer consumers and investors quality control and accountability Education and post secondary education especially are increasingly seen as matters for markets Formal post secondary education becomes a service commercialized and traded across national borders This volume on changing relationship between state and market contains besides an introductory analytic overview of the issues accounts from different countries regions and thematic perspectives Chapter authors describe and analyze government reforms and other developments that have directly or indirectly affected this relationship Although the geographical focus is on North America especially Mexico South East Asia and Europe the phenomenon is not limited to these regions and countries but worldwide **China Exchange News** ,1983 A review of education science and academic relations with the PRC **Transformational Change Efforts: Student Engagement in Mathematics through an Institutional Network for Active Learning** Wendy M. Smith,Matthew Voigt,April Ström,David C. Webb,W. Gary Martin,2021-05-05 The purpose of this handbook is to help launch institutional transformations in mathematics departments to improve student success We report findings from the Student Engagement in Mathematics through an Institutional Network for Active Learning SEMINAL study SEMINAL s purpose is to help change agents those looking to or currently

attempting to enact change within mathematics departments and beyond trying to reform the instruction of their lower division mathematics courses in order to promote high achievement for all students SEMINAL specifically studies the change mechanisms that allow postsecondary institutions to incorporate and sustain active learning in Precalculus to Calculus 2 learning environments Out of the approximately 2.5 million students enrolled in collegiate mathematics courses each year over 90% are enrolled in Precalculus to Calculus 2 courses Forty four percent of mathematics departments think active learning mathematics strategies are important for Precalculus to Calculus 2 courses but only 15 percent state that they are very successful at implementing them Therefore insights into the following research question will help with institutional transformations What conditions strategies interventions and actions at the departmental and classroom levels contribute to the initiation implementation and institutional sustainability of active learning in the undergraduate calculus sequence Precalculus to Calculus 2 across varied institutions **The Transformation of the Student Career** Michael

Nugent,2004-09 This study examines the transformation of the structural characteristics and ideological assumptions of university study in these three countries between the mid 1950s and the early 1990s **Encyclopedia of Mathematics Education** Louise Grinstein,Sally I. Lipsey,2001-03-15 This single volume reference is designed for readers and researchers investigating national and international aspects of mathematics education at the elementary secondary and post secondary levels It contains more than 400 entries arranged alphabetically by headings of greatest pertinence to mathematics education The scope is comprehensive encompassing all major areas of mathematics education including assessment content and instructional procedures curriculum enrichment international comparisons and psychology of learning and instruction
