Reformation Views Of Church History:

Reformation Views of Church History Glanmor Williams, 2004 In this work Glanmor Williams presents different views of Church History propagated by English writers during the Reformation Almost as soon as Luther came to communicate his sensibilities to others he began to realise that defenders of orthodoxy would denounce them as an intolerably presumptuous threat on the part of a single misguided monk to fifteen hundred years of established authority in the Church Among those who were most glad to receive and propagate the Lutheran message was a young Englishman William Tyndale the outstanding English reformer of the first generation and a major figure among English reformers of any generation Whilst focussing on the figure of Tyndale Williams also looks at the great impact of John Bale and John Foxe Williams introduces this topic by exploring the continental background including Luther's arguments the opponents and Luther's influence on important English authors of the sixteenth century **BOOK JACKET**

Church History, Volume One: From Christ to the Pre-Reformation Everett Ferguson, 2013-11-26 Church History Volume One offers a unique contextual view of how the Christian church spread and grew from its development in the days of Jesus to the years leading up to the Reformation Looking closely at the integral link between the history of the world and that of the church Church History paints a portrait of God's people within its setting of times cultures and events that both influenced and were influenced by the church **FEATURES** Maps charts and illustrations spanning the time from the first through the thirteenth centuries Overviews of the Roman Greek and Jewish worlds and how they developed or declined Insights into the church's relationship to the Roman Empire with glimpses into pagan attitudes toward Christians Explanations of the role of art architecture literature and philosophy both sacred and secular in the Church Details on the major theological controversies of the periods Each chapter also contains callout passages from Scripture to assist in understanding the narrative of the Church even to the present day as part of the greater narrative of the Bible **AUTHOR'S PERSPECTIVE** Scholar and writer Everett Ferguson wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known It's a human story of a divinely called people who wanted to live by a divine revelation It's a story of how they succeeded and how they failed or fell short of their calling From the Apostle Paul to the apologists and martyrs of the second century to Martin Luther the historical figures detailed are people who have struggled with the meaning of the greatest event in history the coming of the Son of God and with their role in that event and in the lives of God's people **Handbook of Dutch Church History** Herman J. Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co-written by a catholic and a protestant author who have all integrated the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations

Also many source texts are integrated in the narration These texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as Handbook of the church history of the Netherlands immediately brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments
