Reformed Faith And Economics:

Reformed Faith and Economics Robert L. Stivers, 1989 Churches in the Reformed tradition have historically sought to bring the gospel of Jesus Christ into dialogue with social institutions on ethical issues These papers on economic justice seek to bring this dialogue into the late 20th century by relating the Bible and Reformed theology to contemporary problems These thirteen essays share a distinctly Reformed Presbyterian perspective and stress the contributions of John Calvin and a long line of Reformed witnesses on contemporary issues Sections include Introduction Reformed Faith and Economic Justice Part I Biblical Perspectives Part II The Reformed Tradition on Economic Justice Part III Contemporary Policy Issues Part IV Church Responses Co published with the Presbyterian Church USA Economic Shalom John Bolt, 2013-11-01 This Reformed Christian primer on work and faith champions the glory of God in all of life's endeavors by tracing four key themes of economics in Christian confession and commitment and examining markers for human flourishing in the real world of economics commerce and markets With scholarly passion and pastoral wisdom tempered by the insight of economists John Bolt presents a winsome case for how God uses the market economy to meet human needs Written to raise questions and invite further discussion Bolt offers a robust Reformed perspective on stewardship property capital and morality From this he explores a variety of issues including the human need for liberty the challenge of consumerism concerns about fairness and justice and evangelicalism's mixed history in applying Christian compassion in politics and economics What stands in the way of the human quest for improvement How does the reality of sin affect the degree to which we can achieve economic shalom today And despite every good intention how do we avoid the horrific track record of failed utopias that have spilled oceans of blood and created mountains of misery Read learn and respond as Bolt leads a rousing Reformed discussion of faith work and economics Anabaptist/Mennonite Faith and Economics Calvin Wall Redekop, Victor A. Krahn, Samuel J. Steiner, 1994 The continuing conflict between the Anabaptist Mennonite community and the expanding industrial culture of the modern world has not been investigated This book addresses the issues which fuel that conflict focusing on the implications of subordinating an economic system to the theological framework of a Christian society Contributors Gregory Baum Lawrence J Burkholder Leo Driedger Kevin Enns Rempel Norm Ewert Jim Halteman Leland Harder Al Hecht Jim Lichti Jacob A Leowen John Peters Cal Redekop Walter Regehr T D Regehr Jean Seguy Robert Siemens Arnold Snyder Willis Sommer Mary Sprunger and Laura Weaver Co published with the Institute of Anabaptist and Mennonite Studies **The Oxford Handbook of Christianity and Economics** Paul Oslington, 2014-01-31 Many important contemporary debates cross economics and religion in turn raising questions about the relationship between the two fields This book edited by a leader in the new interdisciplinary field of economics and religion and with contributions by experts on different aspects of the relationship between economics and Christianity maps the current state of scholarship and points to new directions for the field It covers the history of the relationship between economics and Christianity economic thinking in the main Christian

traditions and the role of religion in economic development as well as new work on the economics of religious behavior and religious markets and topics of debate between economists and theologians It is essential reading for economists concerned with the foundations of their discipline historians moral philosophers theologians seeking to engage with economics and public policy researchers and practitioners *Economics, Ethics and Religion* R. Wilson, 1997-02-24 There is a revival of interest by economists in ethical issues and beliefs and by moral philosophers and theologians in economics This book is intended to make a contribution to this cross fertilisation of ideas Rodney Wilson has undertaken an extensive survey of Jewish Christian and Muslim views on economics and reviewed the rapidly expanding business ethics literature from a religious perspective The juxtaposition of the work of theologians and moral philosophers with that of economists results in some interesting comparisons Religion and Economics: Normative Social Theory J.M. Dean, A. M. C.

Waterman, 2012-12-06 Normative Social Theory James M Dean and A M C Waterman University of Manitoba 1 Economics and Religion Once Again This book is a sequel to Economics and Religion Are They Distinct Brennan and Waterman 1994 That volume was motivated by a frustration born of many disappointing encounters between economists and theologians in the 1980s Can bishops synods and other voices of organized religion bring any interesting and disinterested contribution to the public policy debate If so what is the relation of their contribution to that of the purely secular knowledge economists believe they can supply Can economists bring any interesting and disinterested contribution to the public policy debate If so what is the relation of their contribution to the fundamental values that inform social ethics and that are still guarded to a large extent by religious tradition All too often the two sides talked at cross purposes Well intentioned economists coexisted for a few hours or days with well intentioned theologians whose manner of conceiving social reality was radically incompatible with their own There seemed to be no common ground The first requisite of any genuine conversation is an agreed conceptual framework that is able to accommodate the peculiar social vision both of the economist and of theologian and to display the logical relation between the two **The Market Economy and Christian Ethics** Peter H.

Sedgwick, 1999-10-07 Peter Sedgwick explores the relation of a theology of justice to that of human identity in the context of the market economy and engages with critics of capitalism and the market He examines three aspects of the market economy first how does it shape personal identity through consumption and the experience of paid employment in relation to the work ethic Second what impact does the global economy have on local cultures Finally as manufacturing changes out of all recognition through the impact of technology and global competition what is the effect in terms of poverty Drawing on the response of the Catholic Church both in the United States and in papal encyclicals to the market economy from 1985 1991 Sedgwick argues that its involvement deserves to be better known Moreover he recommends that the Churches remain part of the debate in reforming and humanizing the market economy Religious Ethics in the Market Economy Karl G.

Jechoutek, 2018-04-03 This book aims to go beyond merely confrontational or complementary treatments of the relationship

between market participation and business ethics Reviewing the attitudes towards the market embedded in religious ethics and scholars it explores the symbiotic relationship between the economy ethics and morals Moving the discussion beyond a static and traditional economy envisaged by scripture it explores the impact of an evolving and globalised economy based on the value systems of moral philosophy and religious ethics The Author aims to expand the conventional view of business ethics encouraging readers to interpret markets and morality as intertwined concepts and use them to inform further research

Economics and Empire in the Ancient Near East Matthew J. M. Coomber, 2023-02-28 Over the past few decades biblical economics has developed into an important subfield of biblical studies Through examining the economic realities that lay behind Hebrew biblical texts and archaeological findings biblical economics has led to greater understandings of the cultures and experiences of ancient Hebrew communities the legal and religious texts they produced and of how those texts may or may not relate to the experiences of communities who continue to receive them today Economics and Empire in the Ancient Near East has brought together ten scholars of biblical economics and one economic anthropologist to create a repository of what is understood about the economic realities of Southwest Asia in the late second and first millennia BCE In addition to furthering the research and teaching interests of biblical scholars this volume has also been created for the benefit of economic historians anthropologists and sociologists

Christianity and Ecological Theology E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa

Biblical Economic Ethics Albino Barrera, 2013-08-31 Written in non technical language accessible to non specialist readers this book is a theological synthesis of the findings of scripture scholars and ethicists on what the Bible teaches about economic life It proposes a biblical theology of economic life that addresses three questions namely What do the individual books of Sacred Scripture say about proper economic conduct How do these teachings fit within the larger theology and ethics of the books in which they are found Are there recurring themes underlying patterns or issues running across these different sections of the Bible when read together as a single canon The economic norms of the Old and New Testament exhibit both continuity and change Despite their diverse social settings and theological visions the books of the Bible nonetheless share recurring themes care for the poor generosity wariness over the idolatry of wealth the inseparability of genuine worship and upright moral conduct and the acknowledgment of an underlying divine order in economic life Contrary to most people's first impression that the Bible offers merely random economic teachings without rhyme or reason there is in fact a specific vision undergirding these scriptural norms Moreover far from being burdensome impositions of do's and don'ts this book finds that the Bible's economic norms are in fact an invitation to participate in God's providence To this end we have been granted a

threefold benefaction the gift of divine friendship the gift of one another and the gift of the earth Thus biblical economic ethics is best characterized as a chronicle of how God provides for humanity through people's mutual solicitude and hard work The economic ordinances aphorisms and admonitions of the Old and New Testament turn out to be an unmerited divine invitation to participate in God's governance of the world Our economic conduct provides us with a unique opportunity to shine forth in our creation in the image and likeness of God Often extremely demanding hard and even fraught with temptations and distractions economic life nevertheless is at its core an occasion for humans to grow in holiness charity and perfection

Economics of Faith Esther Chung-Kim, 2021-04-02 Economics of Faith examines the role of religious leaders in the development of poor relief institutions in early modern Europe As preachers policy makers advocates and community leaders these reformers offered a new interpretation of salvation and good works that provided the religious foundation for poor relief reform Although poverty was once associated with the religious image of piety reformers no longer saw it as a spiritual virtue Rather they considered social welfare reform to be an integral part of religious reform and worked to modify existing poor relief institutions or to set up new ones Population growth economic crises and migration in early modern Europe caused poverty and begging to be an ever increasing concern and religious leaders encouraged the development and expansion of poor relief institutions This new cadre of reformers served as catalysts organizers stabilizers and consolidators of strategies to alleviate poverty the most glaring social problem of early modern society Although different roles emerged from varying relationships and negotiations with local political authorities and city councils reform minded ministers and lay leaders shaped a variety of institutions to address the problem of poverty and to promote social and communal responsibility As religious options multiplied within Christianity one's understanding of community determined the boundaries albeit contested and sometimes fluid of responsible poor relief This goal of communal care would be especially relevant for religious refugees who as foreigners and strangers became responsible for caring for their own group

Crossroad Discourses between Christianity and Culture, 2010-01-01 Christianity exists in relation to and interacts with its cultural environment in a number of ways In this volume authors from a wide variety of backgrounds explore various facets of the relationship and interaction of Christianity with its cultural environment politics society esthetics religion and spirituality and with itself Divided into three main sections Crossroad Discourses between Christianity and Culture looks at the interaction of Christianity with culture in the first section with other religions and spiritualities in the second and finally with itself in the third The contributions engage in a critical examination of not only the culture in which Christianity finds itself but also in a critical examination of Christianity itself and its interaction with that culture The editors hope that teachers students and readers in general will profit greatly from the critical articles contained in this book

Essays in Public Theology Dirkie Smit, 2007-04-01 What is the role of the church in society What role did the church play in South Africa during apartheid in the struggle against apartheid and during the period of transformation The essays collected and published in this volume deal with questions such as these They are all occasional pieces They were written over two decades and reflect the times in which they originated always intended for specific audiences always addressing issues of the particular moment

Stories Economists Tell John P. Tiemstra, 2012-12-19 A Christian approach to economic analysis requires that humans be thought of not as maximizing their own private economic welfare but rather as making moral choices with their resources Professor Tiemstra lays out the methodology of this approach in the first section of this book He then applies it to real economic problems including poverty and economic justice environmental sustainability and globalization

Reforming the Morality of Usury David W. Jones, 2003-12-30 In the early years of the sixteenth century the Church experienced a dramatic shift in its moral perception of the practice of usury Leaders of the continental Protestant Reformation Lutheran Calvinist and Anabaptist all grappled with the Roman Catholic Church's moral teaching on the practice of lending money at interest Although these three theological streams addressed the same moral problem at relatively the same time they each responded differently Reforming the Morality of Usury examines how the leaders of each major stream in the continental Protestant Reformation adopted a different approach to reforming moral teaching on the practice of usury

Portrayals of Economic Exchange in the Book of Kings Roger S. Nam, 2012-02-17 Drawing on the Polanyian categories of reciprocity redistribution and market trade this book examines the exchange narratives within 1 and 2 Kings in an effort to clarify the nature of the economic structures behind the biblical text

Social Movements and World-System Transformation Jackie Smith, MICHAEL GOODHART, Patrick Manning, John Markoff, 2016-10-26 At a particularly urgent world historical moment this volume brings together some of the leading researchers of social movements and global social change and other emerging scholars and practitioners to advance new thinking about social movements and global transformation Social movements around the world today are responding to crisis by defying both political and epistemological borders offering alternatives to the global capitalist order that are imperceptible through the modernist lens Informed by a world historical perspective contributors explain today's struggles as building upon the experiences of the past while also coming together globally in ways that are inspiring innovation and consolidating new thinking about what a fundamentally different more equitable just and sustainable world order might look like This collection offers new insights into contemporary movements for global justice challenging readers to appreciate how modernist thinking both colors our

own observations and complicates the work of activists seeking to resolve inequities and contradictions that are deeply embedded in Western cultural traditions and institutions Contributors consider today s movements in the longue dur e that is they ask how Occupy Wall Street the Arab Spring and other contemporary struggles for liberation reflect build upon or diverge from anti colonial and other emancipatory struggles of the past Critical to this volume is its exploration of how divisions over gender equity and diversity of national cultures and class have impacted what are increasingly intersectional global movements The contributions of feminist and indigenous movements come to the fore in this collective exploration of what the movements of yesterday and today can contribute to our ongoing effort to understand the dynamics of global transformation in order to help advance a more equitable just and ecologically sustainable world **God and Business**
