**Theology** Annette G. Aubert, 2013-10-03 This book explores the influences of German theology on Emanuel Gerhart and Charles Hodge two Reformed theologians who addressed questions concerning method and atonement theology in light of modernism and new scientific theories      **Reprobation and God's Sovereignty** Peter Sammons, 2022-01-25 God's right to judge humanity is written on the very fabric of human existence The doctrine of reprobation that is the eternal unconditional decree of God for the non elect is frequently misconstrued in both pastoral and theological literature In **Reprobation and God's Sovereignty** Peter Sammons reintroduces this oft misunderstood doctrine revealing its relationship to divine sovereignty With Romans 9 as a guiding text Sammons presents a thoroughly researched defense of reprobation as an essential part in a Reformed theology that magnifies God and encourages believers to trust in him **Reprobation and God's Sovereignty** clearly defines and demonstrates from Scripture the foundational terms and doctrines required for properly understanding reprobation such as God's justice Election Compatibilism Secondary causality Preterition Predamnation Understanding these theological ideas proves vital to answering life's all important question Who is God Sammons shows how the doctrine of reprobation leads to a greater admiration for God eliciting higher praise reverence and belief in him      **The Origins of**

**Christian Anti-Internationalism** Markku Ruotsila, 2007-12-18 The roots of conservative Christian skepticism of international politics run deep In this original work Markku Ruotsila artfully unearths the historical and theological origins of evangelical Christian thought on modern day international organizations and U S foreign policy particularly in the fierce debates over the first truly international body the League of Nations After describing the rise of the Social Gospel movement that played a vital foundational role in the movement toward a League of Nations **The Origins of Christian Anti-Internationalism** examines the arguments and tactics that the most influential confessional Christian congregations in the United States dispensational millennialists Calvinists Lutherans and to a lesser extent Methodists Episcopalians and Christian Restorationists used to undermine domestic support for the proposed international body Ruotsila recounts how these groups learned to co-opt less religious minded politicians and organizations that were likewise opposed to the very concept of international multilateralism In closely analyzing how the evangelical movement successfully harnessed political activism to

sway U S foreign policy he traces a direct path from the successful battle against the League to the fundamentalist modernist clashes of the 1920s and the present day debate over America's role in the world This exploration of why the United States ultimately rejected the League of Nations offers a lucid interpretation of the significant role that religion plays in U S policymaking both at home and abroad Ruotsila's analysis will be of interest to scholars and practitioners of theology religious studies religion and politics international relations domestic policy and U S and world history *Models for Christian Higher Education* Richard Thomas Hughes, William B. Adrian, 1997 This is a print on demand book and is therefore non returnable This timely look at the state of Christian higher education in America contains descriptive historical narratives that explore how fourteen Christian colleges and universities are successfully integrating faith and learning on their campuses despite the challenges posed by the increasingly pluralistic nature of modern culture Written by respected representatives from seven major faith traditions Roman Catholic Lutheran Reformed Mennonite Evangelical Wesleyan Holiness and Baptist Restorationist these narratives are also preceded by introductory essays that define the worldview and theological heritage of each given tradition and ask what that tradition can contribute to the task of higher education

Process and Providence Bradley J. Gundlach, 2013-11-30 Charles Hodge James McCosh B B Warfield these leading professors at Princeton College and Seminary in the nineteenth and early twentieth centuries are famous for their orthodox Protestant positions on the doctrine of evolution In this book Bradley Gundlach explores the surprisingly positive embrace of developmental views by the whole community of thinkers at old Princeton showing how they embraced the development not only of the cosmos and life forms but also of Scripture and the history of doctrine even as they defended their historic Christian creed Decrying an intellectual world gone evolution mad the old Princetonians nevertheless welcomed evolution properly limited and explained Rejecting historicism and Darwinism they affirmed developmentalism and certain non Darwinian evolutionary theories finding process over time through the agency of second causes God's providential rule in the world both enlightening and polemically useful They also took care to identify the pernicious causes and effects of antiscientific evolutionisms By the 1920s their nuanced distinctions together with their advocacy of both biblical inerrancy and modern science were overwhelmed by the brewing fundamentalist controversy From the first American review of the pre Darwinian *Vestiges of the Natural History of Creation* to the Scopes Trial and the forced reorganization of Princeton Seminary in 1929 *Process and Providence* reliably portrays the preeminent conservative Protestants in America as they defined contested and answered precisely and incisively the many facets of the evolution question B. B. Warfield's Scientifically Constructive Theological Scholarship David P. Smith, 2011-08-05 B B Warfield the Lion of Princeton is perhaps America's most prolific and preeminent biblical and theological scholar and yet he has been largely misunderstood and misrepresented In this landmark work David Smith penetrates to the defining features of Warfield's thought and helps us understand its revolutionary character Warfield's detractors have maligned his thought as static and beholden to an outdated

epistemology yet Smith debunks this myth Placed within his historical context we discover Warfield expressing the organic and dynamic nature of truth overcoming the subject object dilemma that plagues Western epistemological rationalism and mysticism and all through his explaining the doctrinal system warranted by the Bible Theological scholarship and American church historiography will have to reckon with this fresh and much needed apologetic on America's preeminent apologist

*Grounded in Heaven* Michael Allen, 2018-10-02 Eschatology and ethics are joined at the hip says Michael Allen and both need theocentric reorientation In *Grounded in Heaven* Allen retrieves the traditional concept of the beatific vision and seeks to bring Christ back into the heart of our theology and our lives on earth Responding to the earthly mindedness of much recent theology Allen places his focus on God and the heavenly future while also appreciating ways in which the Reformed tradition provides a unique angle on broadly catholic concerns Reaching back to classical ethics as well as its reformation by Calvin and other Reformed theologians *Grounded in Heaven* offers a distinctly Protestant account of the ascetical calling to be heavenly minded and to deny one's self *The Trinitarian Theology of Jonathan Edwards* Steven M. Studebaker, Robert W. Caldwell III, 2016-02-24 While Jonathan Edwards scholars have increasingly recognized the central role that the Trinity played in his thought no work brings together Edwards central texts on the Trinity and interprets and applies them to contemporary theological issues This book reveals how the doctrine of the Trinity transformed Edwards ministry and how the Trinity can inform current evangelical thought life and ministry Key primary texts interpretation and application of Edwards trinitarian theology are all presented here Part one features Edwards chief trinitarian writings and provides an in depth analysis on his doctrine Part two sets Edwards trinitarianism in historical context Part three demonstrates how Edwards employed the Trinity in his sermons in spiritual formation and in other areas of doctrine *Confessing and Commending the Faith* Alan P.F. Sell, 2006-09-01 Since Christianity is a way and not simply a theory commending the faith to others is an activity in which every Christian participates *Confessing and Commending the Faith* discusses the presuppositions which underlie the intellectual commendation of Christianity in the face of the philosophical challenges of the present day Following his earlier books *John Locke and the Eighteenth Century Divines* and *Philosophical Idealism and Christian Belief* Alan Sell proposes a way of proceeding with Christian apologetics in the twenty first century He discusses what Christians wish to proclaim asks whether these claims are reasonable and examines what is involved in the intellectual commendation of the Christian faith *Confessing and Commending the Faith* makes extensive use of the historical tradition of apologetics and brings this work to bear on contemporary questions such as the meaning use and reference of religious language and the question of transcendence in relation to history Alan Sell argues that if the intellectual commendation of Christianity's claim to truth is to be viable contemporary apologetics must draw upon reason revelation and experience to do justice to Christianity's basic confession of Christ as Saviour and Lord ***The Character of God*** Thomas E. Jenkins, 1997 Jenkins urges a reassessment of their work and a greater understanding of the relationship between theology and literature BOOK

JACKET *Free Trade and Faithful Globalization* Amy Reynolds, 2015 Through an analysis of Christian communities in the United States Canada and Costa Rica this book analyzes how religious groups talk about the politics surrounding economic life Amy Reynolds examines how these Christian organizations speak about trade and the economy as moral and value laden spaces deserving ethical reflection and requiring political action She reveals the ways in which religious communities have asked people to engage in new approaches to thinking about the market and how they have worked to create alternative networks and policies governing economic and social life

What's Wrong with Sin Derek R. Nelson, 2009-07-30 This title portrays two primary doctrines of sin posited in the last half century the structural sin type and the relational self type After an introduction to the current discussion on the doctrine of sin two nineteenth century rejections of individualistic conceptions of sin are explicated and critiqued The book concludes with recommendations drawn from the preceding analyses for further understanding of the social dimensions of sin

**The Sacred Text** Ronald F. Satta, 2007-07-15 The advances of geologic science Darwinism theological liberalism and higher textual criticism converged in the nineteenth century to present an imposing challenge to biblical authority The meteoric rise in secular knowledge exerted tremendous pressure on the Protestant theological elite of the time Their ruminations conversations quarrels and convictions offer penetrating insight into their world into their perspective on Scripture and authority and how their outlook was challenged defended and sometimes changed across time Moreover the nineteenth century imbrolios greatly illuminate a recent controversy over biblical authority Some influential modern scholars of American religion contend that the doctrine of the inerrancy of the original autographs is a recently contrived theory a theological aberration decidedly out of concert with mainline orthodoxy since the Reformation They argue that pressure from biblical critics incited late nineteenth century Princeton theologians to fabricate the notion as a way to quell criticism against Scripture American fundamentalists they insist unwittingly adopted inerrancy as orthodoxy being deceived by this innovation This story has become standard scholarly currency in many quarters However *The Sacred Text* indicates that fundamentalists and conservative Protestants more generally are the standard bearers of the ascendant theory of biblical authority commonly endorsed among many of the leading Protestant elite in nineteenth century America

Trueman, 2021-07-28 The Oxford Handbook of Calvin and Calvinism offers a comprehensive assessment of John Calvin and the tradition of Calvinism as it evolved from the sixteenth century to today Featuring contributions from scholars who present the latest research on a pluriform religious movement that became a global faith The volume focuses on key aspects of Calvin s thought and its diverse reception in Europe the transatlantic world Africa South America and Asia Calvin s theology was from the beginning open to a wide range of interpretations and was never a static body of ideas and practices Over the course of his life his thought evolved and deepened while retaining unresolved tensions and questions that created a legacy that was constantly evolving in different cultural contexts Calvinism itself is an elusive term bringing together Christian communities that claim a shared heritage but often possess radically distinct characters The Handbook reveals fascinating patterns of continuity and change to demonstrate how the movement claimed the name of the Genevan reformer but was moulded by an extraordinary range of religious intellectual and historical influences from the Enlightenment and Darwinism to indigenous African beliefs and postmodernism In its global contexts Calvinism has been continuously reimagined and reinterpreted This collection throws new light on the highly dynamic and fluid nature of a deeply influential form of Christianity The Presbyterian Controversy Bradley J. Longfield, 1993-11-25 From 1922 to 1936 the Presbyterian Church in the U S A was torn by conflict Fundamentalists led by Clarence E Macartney William Jennings Bryan and J Gresham Machen modernists guided by Henry Sloane Coffin and moderates directed by Charles R Erdman and Robert E Speer struggled over theological questions and their implications for such issues as ordination requirements the role of Princeton Theological Seminary and foreign missions The church managed to maintain its institutional unity at the height of the conflict in the mid 1920s but the struggle resulted in a loosening of the church s doctrinal standards the reorganization of Princeton Seminary the founding of Westminster Theological Seminary and the eventual birth of the Presbyterian Church of America Weaving together the history of this ecclesiastical conflict with biographies of the six leaders Longfield shows that theological concerns though primary were not the only issues in the struggle He demonstrates that social and cultural considerations profoundly contributed to the roles of the leaders and to the

outcome of the conflict Finally Longfield traces the current decline of the Presbyterian Church and other mainline denominations back to this period arguing that by embracing doctrinal pluralism they undermined the very foundations of their mission to the world He concludes that renewal can only be based on a biblical and creedal faith distinct from the values and norms of the surrounding culture
