Selby,2018-04-04 When the Thai state violently suppressed a massive prodemocracy protest in Black May 1992 it initiated an unprecedented period in Thailand The military shamed and chagrined withdrew from political life and the democracy movement had more latitude than ever before in Thailand s history gaining an institutional presence previously unseen This extraordinary moment created a unique opportunity for the human rights movement to emerge for the first time on a national scale in Thailand Don F Selby examines this era of Thai political history to determine how and why the time was ripe for such developments By placing greater emphasis on human rights as an anthropological concern he focuses on the understandings that social actors draw from human rights struggles He concludes that what gave emergent human rights in Thailand their shape force and trajectories are the ways that advocates engaged contested or reworked debates around Buddhism in its relationship to rule and social structure political struggle in relation to a narrative of Thai democracy that disavowed egalitarian movements and traditional standards of social stratification and face saving practices In this way human rights ideals in Thailand emerge less from global local translation and more as a matter of negotiation within everyday forms of sociality morality and politics **Leadership and Public Sector Reform in Asia** Evan Berman,Eko Prasoj,2018-04-06

Dynastic Democracy Yoshinori Nishizaki, 2022-09-20 The political history of Thailand since the overthrow of absolute monarchy in 1932 has conventionally been interpreted as a long series of popular struggles for representative democracy and against military authoritarian rule Yoshinori Nishizaki argues that this history can be better understood as one of struggles by elite political families for and against dynastic democracy Drawing extensively on Thai

Elections as Popular Culture in Asia Beng Huat Chua, 2007-08-07 Conventional political science depicts legitimate elections as rational affairs in which informed voters select candidates for office according to how their coherently presented aims ideologies and policies appeal to the self interest of the electorate In reality elections whether in first world democracies or in the various governmental systems present in Asia can more realistically be seen as cultural events in which candidates campaigns are shaped consciously or unconsciously to appeal to the cultural understanding and practices of the electorate The election campaign period is one in which the masses are mobilized to participate in a range of cultural activities from flying the party colours in noisy motorcycle parades to attending political rallies for or against or simply to be entertained by the performances on the political stage and to gambling on the outcome of the contest The essays in this book analyse electioneering activities in nine Asian countries in terms of popular cultural practices in each location ranging from updated traditional cultures to mimicry and caricatures of present day television dramas In presenting political election as an expression of popular culture this book portrays electoral behaviour as a meaningful cultural practice As such this book will appeal to student and scholars of political science and cultural studies alike as well as those with a more general interest in Asian studies
