Reforming Products Liability:

Reforming Products Liability W. Kip Viscusi, 1991 Drawing on liability insurance trends and litigation patterns Viscusi shows that the products liability crisis has been developing for decades He argues that the principal causes have been the expansion of the doctrine of design defect the emergence of mass toxic torts and an increase in lawsuits involving hazard warnings The Need for Product Liability Reform Legislation in New York State Product Liability Reform Coalition, 1980

Product Liability Reform United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee for Consumers, 1982 *Consumer Capitalism* Gunnar Trumbull, 2018-07-05 The unfettered marketplace in which uncertainty rules and the admonition caveat emptor let the buyer beware dictates each consumer decision has today virtually disappeared Consumers have become the focus of intensive economic policymaking designed to protect them from the risks and disappointments of the market Today arguably no other economic actor in the advanced industrial countries not the investor not the worker not the welfare recipient enjoys a more thorough set of legal and institutional protections than the modern consumer when he or she enters the corner store from the Introduction Gunnar Trumbull investigates the origins of national systems of consumer protection in France and Germany where in the early 1970s consumer groups and producers organized to advance their own ideas about the identity and interests of the affluent consumer Through a comparison of eight areas of policy product liability law product safety standards and recall misleading advertising comparative product tests product labeling quality standards consumer contracts and pricing Trumbull shows that different conceptions of the consumer interest emerged in the two countries The result was the development of distinctive national consumption regimes which have in turn influenced the market strategies of domestic producers Trumbull's findings help to clarify distinctive national approaches to recent product crises including cases of BSE and genetically modified foods His research suggests that in the age of consumer capitalism national competitiveness may hinge not only on endowments of labor and capital but also on the institutional forms of national consumption **Tort Reform by Contract** Paul H. Rubin, 1993 The author argues that there is a current crisis in tort law and advocates that a return to a more widespread use of contracts in three areas product liability medical malpractice and some aspects of automobile accidents Such contracts he suggests should be allowed by the courts **Judicial Reform in Latin America and the Caribbean** Malcom Rowat, 1995-01-01 Proceedings of a World Bank conference T p Exploring the Domain of Accident Law Donald N. Dewees, David Duff, M. J. Trebilcock, 1996 This work reviews empirical evidence relating to five major categories of accidents automobile accidents medical malpractice product related accidents environmental injuries and workplace injuries The authors also offer recommendations for revisions in the tort system Tort Law and Economics Michael Faure, 2009-01-01 The central goal of this book is to provide a state of the art overview of the literature with respect to the economic analysis of tort law It sure meets the challenge offering with great expertise a comprehensive presentation of tort law in both economic and comparative perspectives The

clarity of the text unusual in the law and economics literature makes the book accessible to a broad readership of economists with a limited legal background and lawyers with limited economic skills Olivier Moreteau Louisiana State University US Tort Law and Economics ed Michael Faure provides a highly useful economic overview of the most important topics of tort law The authors clearly show the main developments of the discussion examining the results of recent studies and stating their own opinions Detailed bibliographies are included The volume has to be warmly recommended to friends and foes of economic analysis who are provided with a comprehensive update in this field while also indicating areas which critics have to focus on Helmut Koziol European Centre of Tort and Insurance Law Austria This volume provides a state of the art overview of the literature on the economic analysis of tort law In sixteen chapters the specialist authors guide the reader through the often vast literature in each domain providing a balanced and comprehensive summary Particular attention is paid to the evolution of the field further refinements to economic models and relevant conclusions and lessons for the policymaker Tort Law and Economics is part of the Encyclopedia of Law and Economics and enables readers some not familiar with law and economics to obtain an insight in the relevant economic literature concerning tort law and economics This book will be of interest to lawyers and economists practitioners and academics interested in accident law tort law insurance and regulation It will also appeal to students in economic analysis of law and policymakers working on prevention of accidents tort law or compensation of accident victims

Civil Juries and the Politics of Reform Stephen Daniels, Joanne Martin, 1995 Stephen Daniels and Joanne Martin have analyzed patterns in jury verdicts in a number of substantive legal areas including medical malpractice products liability and punitive damages against the background of the larger political and academic debate over tort reform Civil Juries and the Politics of Reform brings together and summarizes the authors extensive empirical research on civil jury verdicts in the context of that debate Some commentators are arguing that there is a substantial gap between the image of juries and civil justice that is driving tort reform and what is known of the reality of the civil justice system The authors use their discussion of juries not simply to help inform the policy debate but to analyze tort reform as a public policy issue for what it tells about the policy process itself

A History of Civil Litigation Frank J. Vandall, 2011-01-17 A History of Civil Litigation Political and Economic Perspectives by Frank J Vandall studies the expansion of civil liability from 1466 to 1980 and the cessation of that growth in 1980 It evaluates the creation of tort causes of action

during the period of 1400 1980 Re evaluation and limitation of those developments from 1980 to the present are specifically considered The unique focus of the book is first to argue that civil justice no longer rests on historic foundations such as precedent fairness and impartiality but has shifted to power and influence Reform in the law legislative judicial and regulatory is today driven by financial interests not precedent not a neutral desire for fairness and not to make it better It uses products cases and policies for much of its argument These policies can be summarized as a shift from a balanced playing field negligence to one that favors injured consumers The strict liability foreshadowed by Judge Traynor in *Escola v Coca Cola* 1944 was not adopted until 1962 when Traynor wrote the majority opinion in *Greenman v Yuba Power Products* for the California Supreme Court Second the book examines the role of persuasive non governmental agencies such as the American Law Institute in reforming and shaping civil justice Never has it been less true that we live under the rule of law Congress agencies and the courts make the law but they are driven by those who have a large financial stake in the outcome Today those with power shape the character of products liability law at every turn
