Refugees And Gender:

Gender in Refugee Law Efrat Arbel, Catherine Dauvergne, Jenni Millbank, 2014-04-16 Questions of gender have strongly influenced the development of international refugee law over the last few decades This volume assesses the progress toward appropriate recognition of gender related persecution in refugee law It documents the advances made following intense advocacy around the world in the 1990s and evaluates the extent to which gender has been successfully integrated into refugee law Evaluating the research and advocacy agendas for gender in refugee law ten years beyond the 2002 UNHCR Gender Guidelines the book investigates the current status of gender in refugee law It examines gender related persecution claims of both women and men including those based on sexual orientation and gender identity and explores how the development of an anti refugee agenda in many Western states exponentially increases vulnerability for refugees making gendered claims The volume includes contributions from scholars and members of the advocacy community that allow the book to examine conceptual and doctrinal themes arising at the intersection of gender and refugee law and specific case studies across major Western refugee receiving nations The book will be of great interest and value to researchers and students of asylum and immigration law international politics and gender studies *Refugee Women* Leah

Bassel, 2012-05-31 Debates over the headscarf and niqab so called sharia tribunals Female Genital Operations and forced marriages have raged in Europe and North America in recent years raising the question does accommodating Islam violate women s rights The book takes issue with the terms of this debate It contrasts debates in France over the headscarf and in Canada over religious arbitration with the lived experience of a specific group of Muslim women Somali refugee women The challenges these women eloquently describe first hand demonstrate that the fray over accommodating culture and religion neglects other needs and engenders a democratic deficit In *Refugee Women Beyond Gender versus Culture* new theoretical perspectives recast both the story told and who tells the tale By focusing on the politics underlying how these debates are framed and the experiences of women at the heart of these controversies women are considered first and foremost as democratic agents rather than actors in the culture versus gender script Crucially the institutions and processes created to address women s needs are critically assessed from this perspective Breaking from scholarship that focuses on whether the accommodation of culture and religion harms women Bassel argues that this debate ignores the realities of the women at its heart In these debates Muslim women are constructed as silent victims Bassel pleads compellingly for a consideration of women in all their complexity as active participants in democratic life The book will appeal to students and scholars throughout the social sciences particularly of sociology political science and women s studies *Refugees and Gender* Heaven Crawley, 2001 *Refugees and Gender* Law and Process examines how those representing asylum seekers can ensure that all gender related aspects of an asylum claim are considered and appropriately reflected in the determination process The book aims to provide a comprehensive understanding of the concepts of gender related persecution as well as a

gendered framework for the interpretation of the key elements of the 1951 Refugee Convention Detailed information is provided on the implications of gender in asylum law policy and practice in the UK with comparative case law and materials from other countries including Canada US and Australia Refugees and Gender Law and Process provides a theoretical overview an outline of case law and a practical resource which is intended to improve standards of representation and decision making and to increase awareness of the gendered experiences of refugees facing persecution Gender, Violence, Refugees Susanne Buckley-Zistel, Ulrike Krause, 2017-08-01 Providing nuanced accounts of how the social identities of men and women the context of displacement and the experience or manifestation of violence interact this collection offers conceptual analyses and in depth case studies to illustrate how gender relations are affected by displacement encampment and return The essays show how these factors lead to various forms of direct indirect and structural violence This ranges from discussions of norms reflected in policy documents and practise the relationship between relief structures and living conditions in camps to forced military recruitment and forced return and covers countries in Africa Asia and Europe

Development & Diaspora Wenona Mary Giles, Penny Van Esterik, 1996 Extrait de l introduction The survival strategies and resilience of refugee women are vital to substenance and social change in their households workplaces and communities As we write this introduction Rwandese women and men and their families are becoming refugees in huge numbers just as in the past people from Vietnam Cambodia Laos Bosnia Sudan Mozambique have moved into exile News reports tell of the devastating circumstances that often await refugees makeshift camps devoid of water food health care and other basic human needs in addition to threats to security The forced displacement of millions of people across the world indicates that to remain safely in one s home community and country is no longer a fundamental human right It is difficult to step back from devastating images of refugees to see these women as individuals And it is equally difficult to distance oneself by theoretical and abstract analysis But feminist praxis must always be informed by theory and theory by praixs In this book we work toward change by examining the position of various groups of refugee women in history and theory cross culturally and across disciplines and professions **Only Rape! Human Rights and Gender Equality for Refugee Women** Eileen

Pittaway, Linda Albina Bartolomei, 2022-11-29 This book charts the roller coaster ride taken by the authors over the past 33 years in the ongoing fight to acknowledge prevent and respond to the rape and sexual abuse of women in conflict and displacement situations They have worked with an international network of academics refugee women and human rights activists in 22 countries The story moves between refugee camps and the United Nations refugee settlements in cities and national governments Theory and ethical research methods are an important part of the story At times it is very confronting sometimes amusing and often uplifting **Research Handbook on Migration, Gender, and COVID-19** Marie McAuliffe, Céline Bauloz, 2024-01-18 Drawing together the latest research on migration gender and COVID 19 this erudite Research Handbook contributes to a better understanding of the immediate and longer term implications of the pandemic on

gender dynamics and roles in international migration Providing a wealth of expert critical analysis it considers post COVID 19 realities and assesses the future scope of research in this interdisciplinary field of study *The Gender and Security Agenda* Chantal de Jonge Oudraat, Michael E. Brown, 2020-05-27 This book examines the gender dimensions of a wide array of national and international security challenges The volume examines gender dynamics in ten issue areas in both the traditional and human security sub fields armed conflict post conflict terrorism military organizations movement of people development environment humanitarian emergencies human rights governance The contributions show how gender affects security and how security problems affect gender issues Each chapter also examines a common set of key factors across the issue areas obstacles to progress drivers of progress and long term strategies for progress in the 21st century The volume develops key scholarship on the gender dimensions of security challenges and thereby provides a foundation for improved strategies and policy directions going forward The lesson to be drawn from this study is clear if scholars policymakers and citizens care about these issues then they need to think about both security and gender This will be of much interest to students of gender studies security studies human security and International Relations in general The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
