## **Regard Sur Chopin:**

Chopin and His Work in the Context of Culture International Musicological Congress, 2003      **Accenting the Classics** Deborah Mawer, Barbara L. Kelly, Rachel Moore, Graham Sadler, 2023 Brings new insights to the music of well known European composers by telling a fascinating little known story about French music publishing specifically through the lens of Jacques Durand's edition. Classical French composers, performers and musicologists acted as editors of eighteenth and nineteenth century European classics primarily for piano. Among these editors were Fauré, Saint-Saëns, Debussy, Ravel and Dukas. The objects of their enquiries included core works by Rameau, Bach, Mozart, Beethoven, Mendelssohn, Schumann and Chopin. Presenting six composer-editor case studies, the volume shows that the French accent, both musical and cultural, upon this predominantly Austro-German music was highly varied. Editorial responses range from scholarly approaches to those directed by performance or compositional agendas and from pan-European to strongly patriotic stances. Intriguing intersections are revealed between old and new and between French and cross-European canons. Beyond editing, the book explores the edition's role in pedagogy and performance, including by pianists Robert Casadesu and Yvonne Loriod, and in the reassertion of contemporary French composition, especially regarding innovation around neoclassicism. It will interest a wide readership, including musicologists, performers and concertgoers, cultural historians and other humanities scholars.

**Music for Piano** F. E. Kirby, 2023-09-21 This historical survey focuses on music for piano solo but also includes important compositions for piano duet and two pianos. Scholarly yet readable, it covers the entire repertoire from the Renaissance to the late 20th century and incorporates a bibliography of 1,100 sources for further study.      Sonic Transformations of Literary Texts Siglind Bruhn, 2008 Among the possible relationships between art forms that express themselves in different sign systems, the pairing of words and images is the one that is most thoroughly explored. And in fact, the most securely established terminology is found in a field that has experienced a significant revival in recent years: ekphrasis. The literary topos through which a poem or any other text addresses itself to the visual arts has received much attention in recent years and been subjected to intense scrutiny. **BOOK JACKET**      **French Pianism** Charles Timbrell, 1999 Amadeus The undisputed preeminence of Paris as a center of the piano world dates from the early 19th century and the rigorous professors of the Paris Conservatoire transmitted the characteristic French piano style faithfully to each new generation for some 150 years. First published to critical acclaim in 1992, this landmark study now considerably expanded and revised surveys the historical development, performance practices and pedagogical philosophies of this vital school. **HARDCOVER**      **The Mystery of Chopin's Préludes** Anatole Leikin, 2016-03-03 Chopin's twenty-four Préludes remain as mysterious today as when they were newly published. What prompted Franz Liszt and others to consider Chopin's Préludes to be compositions in their own right rather than introductions to other works? What did set Chopin's Préludes so drastically apart from their forerunners? What exactly was the morbid, the feverish, the repellent that Schumann heard in Opus 28 in that

wild motley of strange sketches and ruins Why did Liszt and another anonymous reviewer publicly suggest that Lamartine's poem Les Préludes served as an inspiration for Chopin's Opus 28 And if that is indeed the case how did the poem affect the structure and the thematic contents of Chopin's Préludes And lastly is Opus 28 a random assortment of short pieces or a cohesive cycle In this monograph richly illustrated with musical examples Anatole Leikin combines historical perspectives hermeneutic and thematic analyses and a range of practical implications for performers to explore these questions and illuminate the music of one of the best loved collections of music for the piano
