Regards Sur La Crise Du Syndicalisme:

REGARDS SUR LA CRISE DU SYNDICALISME Dominique Labbe,Stéphane Courtois,2001-01-01 Le déclin du syndicalisme européen est particulièrement sensible en France où moins d'un actif sur dix est syndiqué aujourd'hui. En même temps que cette crise du syndicalisme entraîne une moindre protection des salariés elle prive un grand nombre d'entreprises d'un intermédiaire précieux. Outre les défis traditionnels qui se présentent depuis toujours aux syndicats la concrétisation de l'Europe est source pour eux de nouvelles difficultés mais sans doute aussi de pistes intéressantes à explorer **French**

Industrial Relations in the New World Economy Nick Parsons,2007-05-07 Examining the traditionally predominant role of the state in shaping employment patterns and social policy in France **French Industrial Relations in the New World Economy** analyzes the impact of globalization on French industrial relations. Looking at the changing economic context of industrial relations this important text places particular emphasis on the notion of a shift from a national Fordist form of employment regulation to an international post Fordist form examining in detail the impact of this shift on the role of the French state and on the balance of power between employer and trade union organizations. Including chapters on employer organizations collective bargaining the role of the state and workplace representation **French Industrial Relations in the New World Economy** explores this fascinating topic in detail and provides a detailed resource for postgraduates studying trade unions industrial and employee relations and industrial studies in general **European Trade Unions in the 21st**

Century Barry Colfer,2022-03-28 Trade unions in Europe face a range of cross cutting challenges. This includes the near universal contraction in union membership the related decline of traditionally highly unionised blue collar industries and the rise of automation microprocessing and digitalisation which can make it cheaper for employers to invest in machines than to pay humans to work. The breakdown of the standard contract of employment and increasing rates of precarious work have further transformed the world of work. Taken together this makes any collectivist vision of society and the notion of solidarity upon which trade unionism is built difficult to sustain. All this raises tough questions for trade unionists policy makers and researchers alike regarding the future of trade unions the oldest and largest civil society movement in Europe. The contributions in this volume explore the prospects for union revival across a range of cases including by focusing on the pursuit of legal remedies and on the opportunities associated with the network society to defend the interests of workers. This interdisciplinary volume includes contributions that consider the Czech Republic Denmark France Finland Germany Spain Sweden Poland the United Kingdom and the EU level by researchers coming from a range of disciplines and backgrounds. The volume should especially appeal to researchers and practitioners working in the fields of political science sociology law and business studies **Renewal in the French Trade Union Movement** Heather Connolly,2010 Drawing on

ethnographic research in the breakaway trade union movement **Fédération des Syndicats Solidaires Unitaires et Démocratiques SUD** this book explores broad questions of trade union renewal in France. The SUD movement emerged in 1988

with the avowed intention to revitalise French trade unionism Since its emergence the movement has increasingly been cited as a prime instigator of social unrest in France In a wider context of union decline in Europe this research considers to what extent and in what ways SUD has been able to develop and sustain collective organisation identity and mobilisation Research was conducted in a local level union of SUD Rail a union which emerged in the French public railway sector in 1996 from an ideological split within one of France's largest trade union confederations the Confédération Française Démocratique du Travail CFDT From an ethnographic perspective the book contributes a thick description of trade unionism at the local level and drawing on social movement theory analyses activists attempts to confront and renew practices and structures in trade unionism The book evaluates the success of the SUD movement and the prospects for a more sustained renewal of French trade unionism

La crise du syndicalisme Louis Meyer, 1909

The Invisible Chain J. Durand, 2007-05-31 Companies and work have undergone significant change and a new productive model has emerged This book shows how the model works showing its high degree of coherence in terms of the integration of functions within companies This book creates a new and challenging theory of services rooted in the concrete experience of workshops and offices

L'envers du travail Rolande Pinard, 2018-10-04T00:00:00-04:00 Dans l'histoire du travail les femmes ont joué un rôle moins connu voire ignoré par la plupart des historiens et sociologues Quelques historiennes au cours des dernières décennies se sont employées à pallier ce manque Se nourrissant de leurs travaux Rolande Pinard propose ici une analyse sociohistorique de l'activisme des travailleuses ayant contribué dans le mouvement ouvrier à laborer le sens social politique du travail Richement documentée cette recherche soutient que de leur solidarité initiale avec les travailleurs les travailleuses ont progressivement été marginalisées dans les formes de syndicalisme qui ont suivi En bout de ligne l'émancipation par le travail a quasi exclusivement été le lot des hommes qui ont bénéficié des institutions comme le syndicalisme construites par les luttes ouvrières sociales et politiques des salariées Soulignant l'aspect pluridimensionnel de la formation de la classe ouvrière Rolande Pinard rappelle que comprendre le travail d'un point de vue critique implique de tenir compte de ses différents agents travers les périodes historiques de transformation du capitalisme

L'argent noir des syndicats Roger Lenglet, Christophe Mongermont, Jean-Luc Touly, 2008-05-14 Les grandes sociétés ne lésinent pas sur les moyens pour s'acheter la complaisance de nombreux syndicalistes versements cachés cadeaux personnels emplois fictifs paiements en liquide primes exubérantes avancements et avantages inductions de délits arrangés Ce livre est une enquête détaillée sur la corruption et les dérives financières du monde syndical Grâce de nombreux témoignages et documents les auteurs deux syndicalistes qui ont plusieurs fois fait la preuve de leur incorruptibilité et un journaliste d'investigation nous dévoilent l'ampleur des pratiques destinées à neutraliser les syndicats en France
