the first comprehensive study and a new theory of this fascinating phenomenon Religion of the Gods is a significant contribution to the fields of classics and comparative religion Patton shows that the god who performs religious action is not an anomaly but holds a meaningful place in the category of ritual and points to a phenomenologically universal structure within religion itself **Fairycraft** Morgan Daimler,2016-06-24 An in depth manual for practicing Fairy Witchcraft including theology fairy lore rituals holidays and magical practices This book aims to pick up where Pagan Portals Fairy Witchcraft leaves off and teach interested people the comprehensive practice of this system of honoring the Fair Folk and liminal Gods by blending the old Fairy Faith with modern paganism **Heimskringla - The Norse King Sagas** Snorre Sturlason,2011-03-24 This early work of poetry is both expensive and hard to find in its first edition Written in the early thirteenth century it contains a collection of sagas about Norwegian kings This is a fascinating work and is thoroughly recommended for anyone interested in Norse history Contents Include Dedication to King Haakon VII Editor s Introduction Translator s Preface Snorre s Preface The Ynglinga Saga Semi Mythical Historic Sagas Halfdan the Black Harald the Fairhaired Haakon the Good Eric s Sons Earl Haakon King Olaf Trygvesson King Olaf the Saint Magnus the Good Harald the Stern Olaf the Quiet Magnus Barefoot The Sons of Magnus Magnus the Blind and Harald Gille The Sons of Harald Haakon the Broad Shouldered Magnus Erlingson List of Old Sagas List of Kings of Sweden Denmark Norway Index of Names and Places *History of the Literature of the Scandinavian North from the Most Ancient Times to the Present* Fr. Otten,2024-07-01 Our understanding of lycanthropy is limited by our association of it with contemporary portrayals of werewolves in horror films and gothic fiction No rational person today believes that a human being can literally be metamorphosed into a wolf therefore in the absence of an historical context the study of werewolves can appear to be a wayward pursuit of the perversely irrational and the sensational This Reader provides the historical context Drawing on primary sources it is a comprehensive survey of all aspects of lycanthropy with a focus on the medieval and Renaissance periods Lycanthropes were on trial in the courtrooms of Europe and on examination in medical offices and mental hospitals they were the objects of communal fear and pity and the subjects of sermons and philosophical treatises In the Introduction to the Reader Charlotte Otten shows that the study of lycanthropy uncovers basic issues in human life the significance of violence and criminality the role of the demonic in aberrant behavior and ultimately the nature of good and evil The implications for modern life are immediately apparent The Reader is divided into six sections I Medical Cases Diagnoses Descriptions 2 Trial Records Historical Accounts Sightings 3 Philosophical and Theological Approaches to Metamorphosis 4 Critical Essays on Lycanthropy Anthropology History and Medicine 5 Myths and Legends and 6 Allegory Each section has an introduction that summarizes and interprets the materials **100 Year Cover-Up Revealed** James Edward Gilmer,2011-09-15 100 Year

Cover up Revealed We Lived With Dinosaurs makes our past coexistence with dinosaurs effortlessly apparent with a wide variety of proof ranging from artistic to documentary to scientific Although it automatically invalidates evolution by proving coexistence this book takes the extra step of examining and destroying with logic and science every major assumption and claim made by evolutionists including the absurd notion that dinosaurs and humans missed each other by 65 million years The sub topic that runs throughout the entire book is that for the past century evolutionists have been brainwashing us with bogus claims while actively and passively covering up evidence showing that humans coexisted with dinosaurs and that evolution is basically a hoax 100 Year Cover up Revealed We Lived With Dinosaurs not only proves the reality of coexistence and the fallacy of evolution but also shows how the suppression of these facts has polluted our laboratories classrooms and media Finally this book highlights the scientific and educational implications of its conclusions and offers an intelligent alternative to evolution

The Viking Age Vol.2 (of 2) (Illustrations) Paul B. Du Chaillu, While studying the progress made in the colonisation of different parts of the world by European nations I have often asked myself the following questions How is it that over every region of the globe the spread of the English speaking people and of their language far exceeds that of all the other European nations combined Why is it that wherever the English speaking people have settled or are at this day found even in small numbers they are far more energetic daring adventurous and prosperous and understand the art of self government and of ruling alien peoples far better than other colonising nations Whence do the English speaking communities derive the remarkable energy they possess for the people of Britain when invaded by the Romans did not show any such quality What are the causes which have made the English such a pre eminently seafaring people for without such a characteristic they could not have been the founders of so many states and colonies speaking the English tongue In studying the history of the world we find that all the nations which have risen to high power and widespread dominion have been founded by men endowed with great I may say terrible energy extreme bravery and the love of conquest being the most prominent traits of their character The mighty sword with all its evils has thus far always proved a great engine of civilisation To get a satisfactory answer to the above questions we must go far back and study the history of the race who settled in Britain during and after the Roman occupation We shall thus find why their descendants are to day so brave successful energetic and prosperous in the lands which they have colonised and why they are so pre eminently skilled in the art of self government We find that a long stretch of coast is not sufficient though necessary to make the population of a country a seafaring nation When the Romans invaded Britain the Brits had no fleet to oppose them We do not until a later period meet with that love of the sea which is so characteristically English not before the gradual absorption of the earlier inhabitants by a blue eyed and yellow haired seafaring people who succeeded in planting themselves and their language in the country To the numerous warlike and ocean loving tribes of the North the ancestors of the English speaking people we must look for the transformation that took place in Britain In their descendants we recognise to this day many of the very same traits of

character which these old Northmen possessed as will be seen on the perusal of this work Britain after a continuous immigration which lasted several hundred years became the most powerful colony of the Northern tribes several of the chiefs of the latter claiming to own a great part of England in the seventh and eighth centuries At last the time came when the land of the emigrants waxed more powerful more populous than the mother country and asserted her independence and to day the people of England as they look over the broad Atlantic may discern a similar process which is taking place in the New World The impartial mind which rises above the prejudice of nationality must acknowledge that no country will leave a more glorious impress upon the history of the world than England Her work cannot be undone should she to day sink beneath the seas which bathe her shores her record will for ever stand brilliantly illuminated on the page of history The great states which she has founded which have inherited her tongue and which are destined to play a most important part in the future of civilisation will be witnesses of the mighty work she has accomplished They will look back with pride to the progenitors of their race who lived in the glorious and never to be forgotten countries of the North the birthplace of a new epoch in the history of mankind To be continue in this ebook **The Germanic Heroic Tradition in Video Games** Enrique

Torres-Hergueta,2025-10-03 This monograph examines the appropriation and ludification of the Germanic heroic tradition in video games as a digital medium a process that unfolds on the margins of official discourse about the early Middle Ages The project analyzes the adaptation of medieval material to the video game format through the use of Germanic epic motifs such as the configuration of the hero his conflict with the antagonist and the pursuit of fame and wealth derived from the medieval written sources that inspire them Using narratology the author evaluates the remediation of these narratives in video games as a playful digital and immersive experience **Pantheon - The Norse** Morgan Daimler,2022-04-29 Pantheon The Norse
