Cold War Submarines Norman Polmar, Kenneth J. Moore, 2004 Submarines had a vital if often unheralded role in the superpower navies during the Cold War Their crews carried out intelligence collection operations sought out and stood ready to destroy opposing submarines and from the early 1960s threatened missile attacks on their adversary s homeland providing in many respects the most survivable nuclear deterrent of the Cold War For both East and West the modern submarine originated in German U boat designs obtained at the end of World War II Although enjoying a similar technology base by the 1990s the superpowers had created submarine fleets of radically different designs and capabilities Written in collaboration with the former Soviet submarine design bureaus Norman Polmar and K J Moore authoritatively demonstrate in this landmark study how differing submarine missions antisubmarine priorities levels of technical competence and approaches to submarine design organizations and management caused the divergence

The War for the Seas Evan Mawdsley, 2019-09-24 A bold and authoritative maritime history of World War II which takes a fully international perspective and challenges our existing understanding Command of the oceans was crucial to winning World War II By the start of 1942 Nazi Germany had conquered mainland Europe and Imperial Japan had overrun Southeast Asia and much of the Pacific How could Britain and distant America prevail in what had become a war of continents In this definitive account Evan Mawdsley traces events at sea from the first U boat operations in 1939 to the surrender of Japan He argues that the Allied counterattack involved not just decisive sea battles but a long struggle to control shipping arteries and move armies across the sea Covering all the

major actions in the Atlantic and Pacific oceans as well as those in the narrow seas this book interweaves for the first time the endeavors of the maritime forces of the British Empire the United States Germany and Japan as well as those of France Italy and Russia

Rickover: The Struggle for Excellence Francis Duncan, 2021-06-17 Admiral Hyman G Rickover 1900-1986 the Father of the Nuclear Navy was born Chaim Godalia Rickover in eastern Poland to Jewish parents Fleeing Russian antisemitic pogroms in 1906 with his mother and sister he joined his father who had traveled to America since 1897 in New York City The family soon moved to Chicago where Rickover's father worked as a tailor Congressman Adolph Sabath a Czech Jewish immigrant nominated Rickover for appointment to the US Naval Academy Rickover passed the entrance exams and entered the Academy in 1918 After sea duty on several ships and submarines he served as head of the Electrical Section in the Bureau of Ships and in 1946 was sent to Oak Ridge to start working on nuclear naval propulsion reactors a program he would lead for the rest of his career He became a four star admiral in 1973 Rickover's work on nuclear propulsion had a profound effect on the post World War II world and on the development of civilian nuclear reactors for electricity generation His demand for excellence and accountability was felt far beyond the naval community yet few other flag officers in the US Navy have been so controversial Drawing on the admiral's private papers and the personal insights of friends and family members this biography examines Rickover's extraordinary naval career and his private life Francis Duncan in his long awaited full biography of Hyman Rickover achieves that difficult dual goal of close personal insight and honesty of distance Duncan details Rickover's many controversies his towering rages and his contempt for tradition bureaucracy and stupidity a very readable cruise through the life of a notorious curmudgeon who after all served his country well and had a major impact on the ships of the U S Navy on the engineering profession and on the development of nuclear power in the United States Rodney Carlisle *The Journal of American History* This fine treatment of a remarkable man is highly recommended Malcolm Muir Jr *Technology and Culture* Francis Duncan is uniquely qualified to write the biography of Admiral Hyman G Rickover He is the only person to whom Admiral Rickover ever made himself available for interviews and allowed use of his personal papers including the letters between himself and his first wife Ruth This is an enjoyable book especially for the thousands who served or serve now in the nuclear programs civilian or military It is also an important addition to the history of a man who was one of the giants of the twentieth century United States Robert Loewenthal *The Journal of Military History* Victorious in his struggle for excellence Rickover's personal baton of highly disciplined professionalism was passed without a hitch to those he had selected educated and trained to run nuclear power plants safely and efficiently We still feel his presence his legacy endures This book does him long awaited justice Admiral James D Watkins USN Ret Chief of Naval Operations 1982-86 Impressively researched insightful and readable Duncan captures the Rickover behind the myths and sea stories This account of his remarkable life an only in America story will appeal to a wide audience midshipman to CEO Admiral Bruce DeMars USN Ret Director Navy Nuclear Propulsion 1988-96 This excellent book offers insights not available

to previous authors who did not enjoy Francis Duncan's close association with Rickover and his family. Particularly useful are early chapters that define the character of the man Admiral Kinnard R. McKee, USN, Ret., Director, Navy Nuclear Propulsion, 1982-88. This is the authentic biography of Hyman Rickover, one of the most influential persons in naval history and in the creation of an international civilian nuclear power industry. Duncan has given us a national treasure that is both authoritative and enjoyably readable. There's something in it for everyone. Dr. Theodore Rockwell, former technical director of Rickover's naval reactors program, *Rickover: The Struggle for Excellence* is an original and absolutely fundamental contribution both to naval history and to a general understanding of nuclear power development. It is very objective and accessible. There is no comparable book. Dr. Gary Weir, Naval Historical Center. I believe *Rickover: The Struggle for Excellence* by Francis Duncan is the best biography of Admiral Rickover. Robert Rickover, son of Admiral Rickover. ***Beneath the Waves*** Edward Finch, 2010-04-15. Capt. Edward Ned Latimer Beach, Jr., USN, is known primarily for his bestselling novel *Run Silent, Run Deep*, which was made into a film in 1958 with Clark Gable and Burt Lancaster and his record-setting voyage as commanding officer of USS Triton SSN-586 that was the first submarine to circumnavigate the globe while submerged. A highly decorated United States Navy submarine officer during World War II, he participated in the Battle of Midway as well as other 12 combat patrols, earning 10 decorations for gallantry, including the Navy Cross. His career also offers insights into the inner workings of power from inside the Pentagon in the years right after World War II to inside of the Eisenhower White House to the politics of the Republican Party in the United States Senate in the 1970s. In addition to serving as an officer aboard U.S. submarines in the Pacific during World War II, he was a prolific author, publishing two novels in addition to *Run Silent, Run Deep*, as well as numerous works on naval history. Ned Beach's biography weaves together the personal, professional, and writing life of a man who for many was the public face of the submarine community in the years after the Second World War. With a father who was a naval officer and the author of thirteen published novels in the 1910s-20s as the eldest son, Ned Beach was greatly influenced to follow in his father's footsteps and to become both an officer and a writer. From his youth in Palo Alto, California, during the Great Depression to his service in the Pacific in the war against Japan to the epic submerged circumnavigation of the globe in early 1960, commanding one of the early nuclear-powered submarines, Ned Beach's career encompasses a revolutionary period in American naval history. Not only did he experience it, he wrote about it. This book tells the story of his remarkable life, career, and writing. *The Silent Service's First Hero* Ryan C. Walker, 2024-11-30. A comprehensive microhistorical exploration of Henry Breault's life, celebrating his legacy as the first submariner to receive the Congressional Medal of Honor. Celebrating 100 years since the first submariner received the Congressional Medal of Honor, this book dives into pre-World War II submarine history through the first comprehensive analytical investigation into the life and times of Henry Breault. From 1900-41, Breault's life is reconstructed as lived through his Official Military Personnel File, census records, newspaper clippings, and connecting previous research. Breault's childhood, his enlistments in the Royal Navy,

Canadian Volunteer Reserve and the United States Navy are carefully reconstructed From there the conditions aboard the submarines he served on his relationship with friends and family his relationship to the women in his life and his concept of masculinity and material identity allow us to better understand his life in the context he likely understood them This book provides a new template for microhistorical observations into subjects whose primary sources are official military documentation to help better understand enlisted submariners

Dive! World War II Stories of Sailors & Submarines in the Pacific (Scholastic Focus) Deborah Hopkinson, 2016-09-27 Sibert Honor author Deborah Hopkinson paints a vivid portrait of the deadly battles that raged in the Pacific during WWII and the remarkable courage of the US submarine sailors who fought them Dive World War II Stories of Sailors Submarines in the Pacific tells the incredible story of America's little known war within a war US submarine warfare during World War II Following the attack on Pearl Harbor the US entered World War II in December 1941 with only 44 Naval submarines many of them dating from the 1920s With the Pacific battleship fleet decimated after Pearl Harbor it was up to the feisty and heroic sailors aboard the US submarines to stop the Japanese invasion across the Pacific Including breakouts highlighting submarine life and unsung African American and female war heroes award winning author Deborah Hopkinson uses first person accounts archival materials official Naval documents and photographs to bring the voices and exploits of these brave service members to life

Deep Sound Channel Joe Buff, 2008-12-10 An electrifying new voice in military fiction Joe Buff has written a riveting and totally realistic tale of military adventure a spectacular novel that is sure to establish this outstanding author as the new master of the genre Vividly authentic and impeccably researched it takes readers into the not too distant future when the United States is embroiled in a tactical nuclear war that will mark a new era of weapons and tactics geopolitical alignments and human courage Deep Sound Channel The year is 2011 and in South Africa a reactionary coup has established a military government that has begun sinking U S and British merchant ships NATO quickly responds with only Germany holding back until Germany starts nuking Poland and eviscerating the French Now the South Atlantic is a battleground where nuclear tipped missiles rule and the only gun worth using is one that seeks and fires from deep beneath the sea In response Lieutenant Commander Jeffrey Fuller and the crew of the nuclear submarine USS Challenger are called in to help Ceramic hulled and designed for maximum stealth the Challenger is being sent to South Africa for a mission critical to stopping the war Together with a team of Navy SEALs and assisted by Boer freedom fighter Ilse Reebeck Commander Fuller must infiltrate the enemy coast and attack a compound where scientists are putting together the ultimate biological weapon a violent deadly microbe that has the potential to wreak global devastation For Jeffrey Fuller the operation will take him back to his former life as a SEAL It's his job to steer the team of operatives to shore penetrate concentric arcs of armaments minefields and sensors and destroy the death lab If the mission works the bioweapon will be destroyed and shock waves will cripple the South African government If it goes wrong fallout will kill thousands of innocent people Deep Sound Channel provides a rare and telling look into the future of our

military's weapons and into the horrific violence of tactical nuclear war. It is a cutting edge masterpiece that takes readers on a wild and unforgettable ride of suspense, nuclear warfare, and underwater adventure. *Generals and Admirals, Criminals and Crooks* Jeffrey J. Matthews, 2023-10-01. U.S. flag officers are intended to be exemplary defenders of duty, honor, and country, but what can we learn by exposing the bad leaders lurking within these venerable ranks? There is an ugly strain of criminal and unethical leadership in the upper ranks of the American military. Despite the exemplary service of most American military members, a persistent minority of U.S. flag officers, Navy admirals, and Army, Air Force, and Marine generals have embroiled the profession in scandal since the Revolutionary War. In *Generals and Admirals, Criminals and Crooks*, award-winning author Jeffrey J. Matthews examines bad leadership in American military history over the past one hundred years, beginning with war crimes in the Philippine American War and ending with the recent F. Lee Leonard corruption scandal. Scrutinizing a range of leadership failures, including moral cowardice, sex crimes, insubordination, toxic leadership, and obstruction of justice, Matthews offers a fascinating analysis of the bases and motives leading to these missteps and explores what could be done to curtail future misconduct of generals and admirals. The book also includes an up-to-date examination of President Trump's term in office that highlights the vital role honorable military leadership plays in our democracy. Confronting the dark side of criminal and unethical conduct among U.S. flag officers, this frank and historically grounded book offers valuable lessons in leadership that will stimulate further debate and critical self-assessment within the U.S. military.

"*Execute against Japan*" Joel Ira Holwitt, 2009-04-01. Until now, how the Navy managed to instantaneously move from the overt legal restrictions of the naval arms treaties that bound submarines to the cruiser rules of the eighteenth century to a declaration of unrestricted submarine warfare against Japan immediately after the attack on Pearl Harbor has never been explained. Lieutenant Holwitt has dissected this process and has created a compelling story of who did what, when, and to whom. The Submarine Review, *Execute against Japan*, should be required reading for naval officers, especially in submarine wardrooms, as well as for anyone interested in history, policy, or international law. Adm. James P. Wisecup, President, US Naval War College for Naval War College Review. Although the policy of unrestricted air and submarine warfare proved critical to the Pacific war's course, this splendid work is the first comprehensive account of its origins, illustrating that historians have by no means exhausted questions about this conflict. World War II Magazine. US Navy submarine officer Joel Ira Holwitt has performed an impressive feat with this book. Holwitt is to be commended for not shying away from moral judgments. This is a superb book that fully explains how the United States came to adopt a strategy regarded by many as illegal and tantamount to terror. Military Review. [America's Fighting Admirals](#) William Tuohy, 2007. American naval actions of World War II comprise the most widespread, complex, and dramatic battles in the history of sea warfare. The fighting took place over vast distances in the Atlantic and Pacific oceans, as well as in the constricted spaces of the Mediterranean and Solomon Seas. Each of the major actions had an admiral, the commander in charge, who led the battle. In combat, the abilities and determination of

these commanders at sea were put to the most severe test Americas Fighting Admirals describes the course of U S sea action in World War II It examines the skills strengths weaknesses and personalities of the American admirals who fought the battles at sea It examines the effect that stress tension and responsibility have on commanders making vital decisions in the red hot crucible of battle And it reveals the changing nature of the responsibilities of flag officers as the war progressed and became enormously complex

Fremantle's Submarines Michael Sturma,2015-09-15 From unpromising beginnings in March 1942 the Allied submarine base at Fremantle on the west coast of Australia became a vital part of the Allied offensive against Japan Pushed back from the Philippines and the Netherlands East Indies American submariners accompanied by a small group of Dutch forces retreated to Fremantle as a last resort The location was chosen for its good harbor and the fact that it was outside the range of land based Japanese aircraft Unfortunately the base was also far from their patrol areas and supply lines and it was difficult to reinforce should the enemy attack Thanks largely to a welcoming civilian population morale quickly improved The hospitality and sense of belonging fostered by Western Australians became legendary among Allied submariners and remains central to their wartime memories Perhaps as a result of such a positive experience the Allied forces became much more successful in combat Intertwining social and military history Fremantle s Submarines relates how courage cooperation and community made Fremantle arguably the most successful military outpost of World War II from the standpoint of troop morale
