*Divining the Future* Kurt C. Koehler,2008-07-30 What is Human Intellectual Evolution Could Darwins concept of evolution be incomplete Darwins theory just might be insufficient mainly because Darwin didnt apply his theory to the most complex organism of all the human intellect There is no question that in the past numerous civilizations have ascended and then receded in terms of military power influence and economic clout Why Will it happen to us Human Intellectual Evolution accurately explains the past and greatly enhances the odds of successfully predicting the future Human Intellectual Evolution drives the process of history forward and illuminates the path ahead Understanding the three variables that affect the rate of intellectual development is critical to predicting the future and more profitably directing our time energy and money The future of the United States what happens next in China and the stability of the Middle East are all critical questions with global consequences Profit and success will accrue to individuals who best grasp the concept of Human Intellectual Evolution and have the courage and fortitude to act upon their convictions

**Faces** Milton E. Brener, 2000 Scientists have emphasized the innate genetically based nature of our fascination with the human face and its almost limitless expressive capacity all of which is represented in the art of the last six centuries But little attention has been paid to the anomaly of the vacuous expressions of earlier facial representations Brener attributes this change to a change in the functioning of the human brain as well as the role of cultural factors It is the evolution of both genes and culture that has resulted in a marked increase in the human ability to create and interpret facial expressions The result of this has impacted human behavior

, 2018-11-30 The Apocalypse of Enoch and Bhu unda The Apocalypse of

Enoch and Bhu unda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology In this second volume of *A Chronology of the Primeval Gods and the Western Sunrise* ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120 000 years as documented in ice core data The chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the Galactic Center associated with Sgr A The Dragon Sgr West The Beast and Sgr East Hirany ksha and Hiranyakas ipu with secondary supernova seen as the birth of new destructive gods Ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo polar migrations which has resulted in a shift of the earth s equator on at least one occasion Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region Multiple versions of the myths of Orion are analyzed showing clear linkages between the Vedic myth of Trisanku the Book of Genesis Senmut s Tomb and the myths of Prajapati Daksa representing the oldest version of the Orion myth older than Trishanku and Genesis by 20 000 years The stunning conclusion explains how the Watchers of Enoch were the Vedic descendants of Ila and Ikshvaku These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to Enoch thus allowing Enoch to prophesize a new heaven That prophecy became the foundation for St John s Book of Revelations which is shown to be a description of a series of cataclysms attributed to Sgr West The book offers a new theory for explaining geo polar migration That theory suggests small shifts in the location of the earth s center of gravity underlie each migration but that there are multiple causes for the shifts
