The Business of God Sheryl Johnson, Dannis Matteson, 2025-08-14 The theoretical framework of the Industrial Complex explores how institutions established with a purpose external to themselves can become focused on their own self perpetuation pursuing power growth and profits in ways that may well contradict and undermine that original purpose Much theorizing has engaged issues such as the military healthcare and prison industrial complexes

This book explores the framework of the Industrial Complex in relation to churches How do churches intended to in part worship God preach the gospel nurture discipleship and serve those in need become focused on factors such as profit accumulation limitless growth and expansion consolidation of power How do systems like colonialism capitalism white supremacy and patriarchy play a contributing role to these phenomena What are the impacts of the Church Industrial Complex on various facets of church life and parties involved and impacted Finally what can be done to resist these temptations and where are the corners of the church that have and continue to witness to an alternate approach This accessible book is designed for anyone who is concerned about these questions church leaders and members theological students and anyone who is curious about the dynamics at play in contemporary church life Truths Among Us Derrick Jensen,2011-09-01 From Derrick Jensen acclaimed author of Endgame and The Culture of Make Believe comes a prescient thought provoking collection of interviews with ten leading writers philosophers teachers and activists To function in this society we are asked to live by lies that humans have the right to take what they want from the earth without giving back that knowledge is limited to that which can be quantified that corporations and governments know what is best for our future Our instinctive outrage at environmental collapse political conspiracy and corporate corruption is stifled by the double speak of popular opinion telling us that the progress of civilization demands unquestioning allegiance to those in power But the brave voices in Truths Among Us seek to help us acknowledge the values we know in our hearts are right and inspire within us the courage to act on them Among those who share their wisdom here is acclaimed sociologist Stanley Aronowitz who shows us that science is but one lens through which we can discover knowledge Luis Rodriguez poet and peacemaker asks us to embrace gang members as people instead of stereotypes while the brilliant Judith Herman helps us gain a deeper understanding of the psychology of abusers in whatever form they may take Paul Stamets reveals the power of fungi whose intelligence like that of so many nonhumans is often ignored And writer Richard Drinnon reminds us that our spiritual paths need not be narrowed by the limiting mythologies of Western civilization Following How Shall I Live My Life and Resistance Against Empire Jensen s third collection of interviews reinforces a simple premise with which he has long challenged his readers if we shut our ears and eyes to the cacophony of consumption oriented distractions and pause to listen to the wisdom of our own hearts the truths among us will reveal themselves Interviewees include George Gerbner Stanley Aronowitz Luis Rodriguez Judith Herman John Keeble Richard Drinnon Paul Stamets Marc Ian Barasch Mart n Prechtel and Jane Caputi

Integrating Psychodrama and Systemic Constellation Work Ronald Anderson,Karen Carnabucci,2011-10-15

Systemic Constellation Work is a rapidly growing experiential healing process that is being embraced by a variety of helping professionals worldwide This book explores the history principles and methodology of this approach and offers a detailed comparison with psychodrama explaining how each method can enhance the other **The Artist Inside** Tom

Crockett,2009-04-22 A fresh new approach to tapping into our own creativity using the images and artifacts of our dreams

Getting inspired is one of the toughest parts of being an artist whether we're a beginner or a seasoned professional. But as Tom Crockett shows us in this new book, finding ideas for our artwork is easier than we think. By simply exploring the images of our sleeping and waking dream states, we can discover a wealth of ideas and inspiration that are more authentic and powerful because they reveal our underlying spiritual self. Recognizing the importance of allowing our spiritual side to infuse our art and the fulfillment this can bring, Tom Crockett has created a program to teach us all, no matter what level of artistic experience we have, how to bring art and spirit into one. The four different types of creative expression Crockett has identified—Finding, Arranging, Altering, and Making—open up artistic options for everyone, even for those of us who cannot yet imagine that we have the ability to create art. Filled with personal anecdotes from the author's creativity workshops and practical, easy-to-implement advice for tapping into our hidden creativity, *The Artist Inside* teaches us how to access the dreaming world to heighten creativity that we can create in each piece of artwork: a temporary home for the spirit. How creating a spiritual path can energize us and increase our intuitive capacity. When the process of making art is guided by the inner vision of our sleeping and waking dream states, we connect with something larger than ourselves and rediscover that creativity can be both a spiritual path and an important life tool.

The Spiral of Memory and Belonging Frank MacEwen, 2010-10-06 For all those who have felt the tug of memory or a connection to some time and place that came before, this book explores the depths of one's connections to ancestors, to the land, to the mysteries of life. Continuing with themes from his first book, *The Mist Filled Path*, the author brings readers along as he journeys to Ireland for a shamanic conference and shares his experiences and how they tie into the meanings of Celtic traditions. Readers recognize connections to other spiritual traditions and how the Celtic shamanic teachings overlap with those of other indigenous peoples. They also discover ways to reconnect with their own heritage, to cull the good teachings and incorporate them into their personal spiritual practices. Offering evocative writing, a fresh look at ancient ideas, practical exercises, and guided meditations, *The Spiral of Memory and Belonging* makes a perfect entry point for readers seeking shamanic wisdom and guidance.

Nature and the Human Soul Bill Plotkin, 2010-10-04 Addressing the pervasive longing for meaning and fulfillment in this time of crisis, *Nature and the Human Soul* introduces a visionary ecopsychology of human development that reveals how fully and creatively we can mature when soul and wild nature guide us. Depth psychologist and wilderness guide Bill Plotkin presents a model for a human life span rooted in the cycles and qualities of the natural world: a blueprint for individual development that ultimately yields a strategy for cultural transformation. If it is true, as Plotkin and others observe, that we live in a culture dominated by adolescent habits and desires, then the enduring societal changes we so desperately need won't happen until we individually and collectively evolve into an engaged, authentic adulthood. With evocative language and personal stories, including those of elders Thomas Berry and Joanna Macy, this book defines eight stages of human life: Innocent, Explorer, Thespian, Wanderer, Soul Apprentice, Artisan, Master, and Sage, and describes the challenges and benefits of each. Plotkin offers a way of progressing from our

current egocentric aggressively competitive consumer society to an ecocentric soul based one that is sustainable cooperative and compassionate At once a primer on human development and a manifesto for change Nature and the Human Soul fashions a template for a more mature fulfilling and purposeful life and a better world
