

The book cover features a dark, atmospheric photograph of a city at night. In the background, several tall, illuminated skyscrapers rise against a deep blue sky. In the foreground, a bridge or highway is visible, with blurred streaks of red and yellow light from cars, suggesting motion. The title is printed in large, bold, white capital letters in the upper right, while the subtitle is in smaller, orange capital letters below it. The author's name is in white capital letters at the bottom right.

Seduction Of Place The City In The Twenty First Century And Beyond:

Architecture, Ethics, and the Personhood of Place Gregory Caicco, 2007 Architecture and environmental design are among the last professional fields to develop a sustained and nuanced discussion concerning ethics Hemmed in by politics and powerful clients on one side and the often unscrupulous practices of the construction industry on the other environmental designers have been traditionally reluctant to address ethical issues head on And yet the rapid urbanization of the world s population continues to swell into new megacities each less healthy welcoming secure or environmentally sustainable than the next Green carbon reduced and sustainable building practices are important ways architects have recently responded to the symptoms of the crisis but are these efforts really addressing the core issues Taking the Dine Navajo Hogan Song a song used to protect and nourish the personhood of newly constructed dwellings as their inspiration the architects philosophers poets and other contemporary scholars contributing to this volume demonstrate that a deeper more radical change in our relationship to the built world needs to occur While offering a careful critique of modernist corporate or techno enthralled design practices these essays investigate an alternative relational ecology whose wisdom draws from ancient and often marginalized voices if not the whisperings of the earth itself Contributors include Richard Kearney Alberto Perez Gomez Juhani Pallasmaa Karsten Harries Edward Casey Susan Stewart David Abram Stacy Alaimo Jace and Laura Weaver Philip Sheldrake and Sebnem Yucel Young *Repairing the American Metropolis* Douglas S. Kelbaugh, 2015-07-16 *Repairing the American Metropolis* is based on Douglas Kelbaugh s *Common Place Toward Neighborhood and Regional Design* first published in 1997 It is more timely and significant than ever with new text charts and images on architecture sprawl and New Urbanism a movement that he helped pioneer Theory and policies have been revised refined updated and developed as compelling ways to plan and design the built environment This is an indispensable book for architects urban designers and planners landscape architects architecture and urban planning students and scholars government officials developers environmentalists and citizens interested in understanding and shaping the American metropolis *The Territories of Identity* Soumyen Bandyopadhyay, Guillermo Garma Montiel, 2013-11-20 The expedited globalised process of exchange and new forms of cultural production have transformed old established notions of identity calling into question their conceptual foundations This book explores the spatial and representational dimension of this phenomenon by addressing how the reshaping of the key themes of place architecture and memory are altering the nature as well as our understanding of identity Cutting across boundaries the book drives discussion of identity beyond the well worn concern for its loss within a globalised context and importantly provides links between identity place memory and representation in architecture Examining a range of case studies from Australia Germany India Japan Mexico Poland Puerto Rico Turkey and Singapore as well as with contributions cutting across geographical and temporal boundaries this volume addresses such issues as architecture technology place and memory critical issues in the monitoring and mapping of identity

shift within a rapidly globalising context With contributions from renowned authors in the field including Nicholas Temple Patsy Hely Robert Brown Liane Lefavre John Hendrix Ana Souto Fiona MacLaren Stephen Walker Nezar AlSayyad Andrzej Piotrowski Catherine Ettinger Luz Marie Rodriguez and Raymond Quek this book presents fresh insights and diverse perspectives on the evolving question of identity and globalisation

Sociological Wisdom William E. Thompson, Mica L. Thompson, 2019-09-10 Sociological Wisdom is based on applying the basic principles of sociology to the world around us Sociologists study patterns of behavior in order to draw general conclusions about a social issue that transcend the effect of the problem or issue on any particular individual This is not to say that sociologists are unconcerned about individuals and their lives but sociology's emphasis is on the way individuals relate to others people's positions in society and the interdependence between society and individuals This text teaches students that it is more important than ever to study human behavior social groups and society utilizing critical thinking skills and careful analysis associated with sociological wisdom

Beyond Digital Mario Carpo, 2023-04-18 Recasting computational design a new modern agenda for a post industrial post pandemic world Mass production was the core technical logic of industrial modernity for the last hundred years architects and designers have tried to industrialize construction and standardize building materials and processes in the pursuit of economies of scale But this epochal march of modernity is now over In Beyond Digital Mario Carpo reviews the long history of the computational mode of production showing how the merger of robotic automation and artificial intelligence will stop and reverse the modernist quest for scale Today's technologies already allow us to use nonstandard building materials as found or as made and assemble them in as many nonstandard intelligent adaptive ways as needed the microfactories of our imminent future will be automated artisan shops The post industrial logic of computational manufacturing has been known and theorized for some time By tracing its theoretical and technical sources and reviewing the design theories that accompanied its rise Carpo shows how the computational project long under the sway of powerful antimodern ideologies is now being recast by the urgency of the climate crisis which has vindicated its premises and by the global pandemic which has tragically proven its viability Looking at the work of a new generation of designers technologists and producers Beyond Digital offers a new modern agenda for our post industrial future

Regenerative Territories Libera Amenta, Michelangelo Russo, Arjan van Timmeren, 2022-03-11 This open access book provides new perspectives on circular economy and space explored towards the definition of regenerative territories characterised by healthy metabolisms Going beyond the mere reuse recycle of material waste as resources this work aims to understand how to apply circularity principles to among others the regeneration of wastescapes The main focus is the development over time and in particular the way how spatial planning and strategies respond to new unpredictable urgencies and opportunities related with territorial metabolisms The book specifically focuses on living labs environments where it is possible to tackle complex problems through a multidisciplinary and multi stakeholder approach including the use of digital spatial decision support

environment which could be able to include all the involved stakeholders Through a spatial scope of circularity this book describes several examples including among others ideas from different contexts such as Italy The Netherlands Belgium and Vietnam Through including reflections on methodology and representation as well as on solutions for circular and healthy metabolisms the book provides an excellent resource to researchers and students *The Routledge Handbook of Henri Lefebvre, The City and Urban Society* Michael E. Leary-Owhin, John P. McCarthy, 2019-11-21 The Routledge Handbook of Henri Lefebvre The City and Urban Society is the first edited book to focus on Lefebvre's urban theories and ideas from a global perspective making use of recent theoretical and empirical developments with contributions from eminent as well as emergent global scholars The book provides international comparison of Lefebvrian research and theoretical conjecture and aims to engage with and critique Lefebvre's ideas in the context of contemporary urban social and environmental upheavals to use Lefebvre's spatial triad as a research tool as well as a point of departure for the adoption of ideas such as differential space to reassess Lefebvre's ideas in relation to nature and global environmental sustainability and to highlight how a Lefebvrian approach might assist in mobilising resistance to the excesses of globalised neoliberal urbanism The volume draws inspiration from Lefebvre's key texts The Production of Space Critique of Everyday Life and The Urban Revolution and includes a comprehensive introduction and concluding chapter by the editors The conclusions highlight implications in relation to increasing spatial inequalities increasing diversity of needs including those of migrants more authoritarian approaches and asymmetries of access to urban space Above all the book illustrates the continuing relevance of Lefebvre's ideas for contemporary urban issues and shows via global case studies how resistance to spatial domination by powerful interests might be achieved The Handbook helps the reader navigate the complex terrain of spatial research inspired by Lefebvre In particular the Handbook focuses on the series of struggles globally for the right to the city and the collision of debates around the urban age cityism and planetary urbanisation It will be a guide for graduate and advanced undergraduate teaching and a key reference for academics in the fields of Human Geography Sociology Political Science Applied Philosophy Planning Urban Theory and Urban Studies Practitioners and activists in the field will also find the book of relevance

Tragic Views of the Human Condition Lourens Minnema, 2013-06-06 Can tragic views of the human condition as known to Westerners through Greek and Shakespearean tragedy be identified outside European culture in the Indian culture of Hindu epic drama In what respects can the Mahabharata epic's and the Bhagavadgita's views of the human condition be called tragic in the Greek and Shakespearean senses of the word Tragic views of the human condition are primarily embedded in stories Only afterwards are these views expounded in theories of tragedy and in philosophical anthropologies Minnema identifies these embedded views of human nature by discussing the ways in which tragic stories raise a variety of anthropological issues issues such as coping with evil suffering war death values power sacrifice ritual communication gender honour injustice knowledge fate freedom Each chapter represents one cluster of tragic issues that are explored in

terms of their particular Greek English Indian settings before being compared cross culturally In the end the underlying question is are Indian views of the human condition very different from Western views *The Seduction of Place* Joseph Rykwert,2000 Lonely and emotionally impaired everyman Jimmy Corrigan is given the opportunity to meet the father he never had This is the spark for an improvisatory romance which gingerly ignores all sense of plot and drama The reader is transported between 1890 s Chicago and 1980 s small town Michigan helped along by thousands of coloured illustrations and diagrams which provide a startling illusion of life and movement The bulk of the book is supported by fold out instructions an index paper cut outs and brief notes **Global Cities, Governance and Diplomacy** Michele

Acuto,2013-02-11 This book illustrates the importance of global cities for world politics and highlights the diplomatic connections between cities and global governance While there is a growing body of literature concerned with explaining the transformations of the international order little theorisation has taken into account the key metropolises of our time as elements of these revolutions The volume seeks to fill this gap by demonstrating how global cities have a pervasive agency in contemporary global governance The book argues that looking at global cities can bring about three fundamental advantages on traditional IR paradigms First it facilitates an eclectic turn towards more nuanced analyses of world politics Second it widens the horizon of the discipline through a multiscalar image of global governance Third it underscores how global cities have a strategic diplomatic positioning when it comes to core contemporary challenges such as climate change This book will be of much interest to students of urban studies global governance diplomacy and international relations in general
