Seeds Of The Sixties:

Seeds of the Sixties Andrew Jamison, Ron Eyerman, 1995-10-11 The Sixties The powerful images conveyed by those two words have become an enduring part of American cultural and political history But where did Sixties radicalism come from Who planted the intellectual seeds that brought it into being These questions are answered with striking clarity in Andrew Jamison and Ron Eyerman's book The result is a combination of history and biography that vividly portrays an entire culture in transition The authors focus on specific individuals each of whom in his or her distinctive way carried the ideas of the 1930s into the decades after World War II and each of whom shared in inventing a new kind of intellectual partisanship They begin with C Wright Mills Hannah Arendt and Erich Fromm and show how their work linked the old left of the Thirties to the new left of the Sixties Lewis Mumford Rachel Carson and Fairfield Osborn laid the groundwork for environmental activism Herbert Marcuse Margaret Mead and Leo Szilard articulated opposition to the postwar scientific technological state Alternatives to mass culture were proposed by Allen Ginsberg James Baldwin and Mary McCarthy and Saul Alinsky Dorothy Day and Martin Luther King Jr made politics personal This is an unusual book written with an intimacy that brings to life both intellect and emotion The portraits featured here clearly demonstrate that the transforming radicalism of the Sixties grew from the legacy of an earlier generation of thinkers With a deep awareness of the historical trends in American culture the authors show us the continuing relevance these partisan intellectuals have for our own age In a time colored by political correctness and the ascendancy of market liberalism it is well to remember the partisan intellectuals of the 1950s They took sides and dissented without becoming dogmatic May we be able to say the same about ourselves from Chapter 7

Dandaneau, 2001-01-24 For use as a primary or supplemental text for Introductory Sociology Social Theory and senior capstone courses An unabashedly critical text for those who want to connect their students' personal experiences with what is happening at the societal/global level today The emphasis is on teaching the sociological imagination i.e. to instill in students a unique and radical form of consciousness that will allow them to conceptualize today's chief global and individual problems and the relations between them Dandaneau adopts a perspective like that of C Wright Mills and argues that the sociological imagination is the most needed type of consciousness in the world today The author encourages students to think through a wide variety of topics from ecological crises to panic disorder from hyperreality to the sociology of disability from Generation X to Generation Next As Dandaneau says The point is not so much to learn the truth but to learn how to think about essential issues and troubles as sociologists themselves try to do to become a participant with others in facing down the challenges of our present epoch It is an elegant and profound meditation on thinking sociologically Written with a rare panache one seldom finds in sociology it's the product of a view of contemporary social life that is profoundly troubling What this adds up to is a distinctive sociological and moral voice Peter Kivisto Augustana College Rock Island Illinois **The Conquest of Cool** Thomas Frank, 1997 Looks at advertising during the 1960s focusing on the relationship between the counterculture movement and commerce **Leaders from the 1960s** David De Leon, 1994-06-22 The throngs at Woodstock Jane Fonda in Hanoi I Have a Dream burning draft cards fire in the streets these images of the 1960s are still very much alive today What happened to the people and principles that dominated that decade Which leaders from those turbulent years had the most lasting effect on our lives today How well have the principles for which those leaders fought so strongly withstood the test of time This thought provoking biographical dictionary allows the reader to study the leaders both conservative and liberal their ideals and their enduring influence With major sections on racial democracy peace and freedom sexuality and gender the environment radical culture and visions of alternative societies Leaders from the 1960s includes entries on a wide
