Seeing Eye And Other Selected Essays From Christian Reflections:

The Seeing Eye C. S. Lewis, 1986-02-12 C S Lewis presents an eloquent and colorful defense of Christianity for both devotees and critics in a collection of essays composed over the last twenty years of his life On Christianity and culture On religion is it reality or substitute On ethics On the Psalms On the language of religion On petitionary prayer And more An excellent introduction to the thought and personality of this engaging Christian writer Christianity Today **C. S. Lewis on Politics and the Natural Law** Justin Buckley Dyer, Micah J. Watson, 2016-08-08 Conventional wisdom holds that C S Lewis was uninterested in politics and public affairs The conventional wisdom is wrong As Justin Buckley Dyer and Micah J Watson show in this groundbreaking work Lewis was deeply interested in the fundamental truths and falsehoods about human nature and how these conceptions manifest themselves in the contested and turbulent public square Ranging from the depths of Lewis philosophical treatments of epistemology and moral pedagogy to practical considerations of morals legislation and responsible citizenship this book explores the contours of Lewis multi faceted Christian engagement with political philosophy generally and the natural law tradition in particular Drawing from the full range of Lewis corpus and situating his thought in relationship to both ancient and modern seminal thinkers C S Lewis on Politics and the Natural Law offers an unprecedented look at politics and political thought from the perspective of one of the twentieth century s most influential writers C. S. Lewis's Christian Apologetics Gregory Bassham, 2015-06-29 Are C S Lewis s major arguments in defense of Christian belief sound In C S Lewis s Christian Apologetics Pro and Con defenders and critics of Lewis s apologetics square off and debate the merits of Lewis s arguments from desire from reason from morality the trilemma argument for the divinity of Christ as well as Lewis s response to the problem of evil By means of these lively in depth debates readers will emerge with a deeper understanding and appreciation of today s most influential Christian apologist If with All Your Heart Richard O'Ffill, 2004 The author discusses problems that short circuit our prayers and shows how God wants to do even more than we ask This primer in the art of contrition will whet your appetite for God and revitalize your prayer life Faith Comes from What Is Heard: An Introduction to Fundamental Theology Lawrence Feingold, 2016-07-01 Faith Comes from What Is Heard An Introduction to Fundamental Theology informs both the heart and mind as it brings together dogmatic and biblical theology the Thomistic tradition the teachings of the Fathers of the Church and the contemporary Magisterium Drawing heavily upon the works of St Thomas Aquinas Bl John Henry Newman Joseph Ratzinger and St John Paul II the author examines the foundations of Catholic theology or Fundamental Theology which is theology s reflection on itself as a discipline its method and its foundation in God s Revelation transmitted to us through Scripture and Tradition Although Faith Comes from What Is Heard is useful for all Catholics who want to understand the foundations of their faith it is specifically designed to serve as a textbook for courses in Fundamental Theology in seminaries and in graduate and undergraduate programs in theology It can also serve as a textbook for introductory theology and Scripture courses The topics covered in Faith Comes from What Is

Greenway,2009-05-01 While plenty of books related to the conversations as well as controversies surrounding the emergent church have surfaced in recent years no comprehensive evangelical assessment of the movement has been published until now Evangelicals Engaging Emergent draws from a broad spectrum of conservative evangelicalism to serve as a clear informative fair and respectful guide for those desiring to know what emergent means why it originated where the movement is going what issues concern emergent believers and where they sometimes go wrong theologically Among the dozen contributors are Norman Geisler A Postmodern View of Scripture Darrell Bock Emergent Emerging Christologies Ed Stetzer The Emergent Emerging Church A Missiological Perspective and Daniel Akin The Emerging Church and Ethical Choices The Corinthian Matrix The Last Romantic Jeffrey W. Unbelievable Michael Newton Keas, 2019-01-08 Unbelievable explodes seven of the most popular and pernicious myths about science and religion Michael Newton Keas a historian of science lays out the facts to show how far the conventional wisdom departs from reality He also shows how these myths have proliferated over the past four centuries and exert so much influence today infiltrating science textbooks and popular culture The seven myths Keas shows amount to little more than religion bashing especially Christianity bashing Unbelievable reveals Why the Dark Ages never happened Why we didn't need Christopher Columbus to prove the earth was round Why Copernicus would be shocked to learn that he supposedly demoted humans from the center of the universe What everyone gets wrong about Galileo's clash with the Church and why it matters today Why the vastness of the universe does not deal a blow to religious belief in human significance How the popular account of Giordano Bruno as a martyr for science ignores the fact that he was executed for theological reasons not scientific ones How a new myth is being positioned to replace religion a futuristic myth that sounds scientific but isn't In debunking these myths Keas shows that the real history is much more interesting than the common narrative of religion at war with science This accessible and entertaining book offers an invaluable resource to students scholars teachers homeschoolers and religious believers tired of being portrayed as anti intellectual and anti science
