Seeing God Everywhere Essays On Nature And The Sacred Perennial Philosophy:

Seeing God Everywhere: Essays On Nature Barry McDonald, 2010-08-01 How do people sense God's presence in created things? *Seeing God Everywhere* is an anthology of essays on nature and the sacred which address that question. Written by an impressive list of spiritual leaders and thinkers, these essays explore the question from many different perspectives. Reading these essays enriches our inner lives and enlivens our contemplative imaginations. Surely this is the deepest ecology possible. As a special bonus, at the end of each essay is a short poem on nature and the sacred taken from various traditions.

Seeing God Everywhere Barry McDonald, 2003-07-30 This anthology combining articles by Buddhist, Christian, Islamic, Jewish, and Native American scholars looks at the environmental crisis through a spiritual lens.

Frithjof Schuon and the Perennial Philosophy Harry Oldmeadow, 2010-08-19 This introduction to the writings of Frithjof Schuon (1907-1998), the pre-eminent spokesman of the Perennialist or Traditionalist school of comparative religious thought, is the first book to present a comprehensive study of his intellectual and spiritual message. In addition to a clear explanation of Schuon's message of metaphysics and the great religions, Oldmeadow includes an overview of Schuon's paintings and poetry and insights on prayer and virtue in the spiritual life.

Journeys East Harry Oldmeadow, 2004-04-28 This is the first book to treat the impact of religious, philosophical, and psychological traditions of the East on Western intellectuals, artists, travellers, and spiritual seekers in the twentieth century. Addressed to both general readers and scholars of religion, it is especially valuable for its penetrating and inter-religious analysis of two of the most compelling themes now facing the world: the emergence of cross-cultural religious understanding of the natural order and ecological crisis, and the metaphysical basis for both the formal diversity and essential unity of religious traditions of both East and West. The West has long romanticized the mysterious East, but it has also judged its traditions as uncivilized. Our notions about Eastern spirituality have been formed by a succession of travellers, scientists, artists, intellectuals, poets, philosophers, and missionaries, as well as by Eastern travellers who have spent time in the West. This book helps us to recognize the influence of Eastern ideas upon modern Western thought by tracing the history of engagements between East and West up until the present day. It concludes with a section that helps us to perceive the timeless value of the many Eastern contributions to the West's current intellectual and spiritual state.

The Sacred Foundations of Justice in Islam Ali M. Lakhani, Reza Shah-Kazemi, Leonard Lewisohn, 2006-08-23 This is the definitive introduction to the writings of Ali, who was the son-in-law to the Prophet Muhammad, the fourth caliph to Sunni Muslims, and the central figure in Shi'a Islam. Two essays in this anthology won awards at the International Congress on Iman Ali, Tehran, 2001. Seyyed Hossein Nasr pronounced them among the best writings on this extraordinary figure in Western languages and are obligatory reading for anyone interested in Ali.

Seyyed Hossein Nasr's Ecological Ethics Muzzamel Hussain Imran, 2023-12-02 The book explores the profound insights of Seyyed Hossein Nasr, an Islamic scholar, on the ecological crisis and its underlying causes. Nasr argues that the dominance of scientism, which prioritizes contemporary

science as the sole source of knowledge has led to a destructive relationship between humans and nature He proposes that restoring the religious perspective is crucial for finding a lasting solution to the ecological problem The book delves into Nasr's comprehensive body of work covering diverse subjects such as Islamic philosophy Islamic art Islamic science Sufism and the ecological crisis Nasr's approach advocates for a holistic and inclusive philosophy that draws inspiration from the perennial philosophy and the principles of Islam He emphasizes the importance of reconnecting with our spiritual heritage and rediscovering reverence for the natural world The book also discusses the relevance and applicability of Nasr's ideas to non-Islamic cultures and societies This is a unique study into the work of an important Islamic scholar and ecologist The key audience includes scholars and researchers interested in Islamic philosophy environmental ethics and the intersection of religion and ecology Forthcoming Books Rose Arny,2003-12 Ye Shall Know the Truth Mateus Soares de

Traditional Islamic Environmentalism Tarik M. Quadir,2013-09-16 This work examines the relevance of traditional Islamic thought and practices for a lasting solution to the current environmental crisis Quadir describes how Seyyed Hossein Nasr challenges Muslims to reclaim their traditional intellectual and Sufi heritage as powerful means toward a most thoughtful approach to the crisis In so doing Nasr urges us to take a critical look at the consequences of the worldviews generated by modern science and technology and offers bold solutions for a more caring relationship between man and nature The book argues that only a revival of the traditional worldview which perceives all entities of nature as signs of God can effectively respond to the crisis our planet faces On the Origin of Beauty John Griffin,2011-10-01 In the light of the

looming ecological crisis facing the world today much of the stunning beauty of the natural world is being lost forever On the Origin of Beauty seeks to confront this crisis through a philosophical enquiry into our perception of natural beauty Through discussions of numerous fields including the philosophy of science environmental ethics rationalism and Eastern and Western religion Griffin asserts that Beauty itself may be the catalyst needed to save the globe from destruction **The Essential**
