Select Passages Illustrating Neoplatonism

William R. Inge

Select Passages Illustrating Neoplatonism:

Select Passages Illustrating Neoplatonism Plotinus, 1923 **Select passages illustrating Neoplatonism**, 1979

Select Passages Illustrative of Neoplatonism Eric Robertson Dodds, 1924 **Select Passages Illustrating Mithraism**

Alfred Shenington Geden, 1925 Selected Passages Illustrating Neoplatonism, 1923 Builders of My Soul Brian Arkins, 1990-01-01 To Yeats as well as to Eliot Pound Joyce and other major writers as Erich Auerbach put it in Mimesis Antiquity means liberation and a broadening of horizons not in any sense a new limitation or servitude That is why Greco Roman themes can be endlessly stimulating why Yeats could call the Greek and Roman writers the builders of my soul Brian Arkin s thematic consideration of Yeat s subject matter under philosophy myth religion history literature visual art and Byzantium allows us to see coherently how Yeats exploited this material and how especially in his middle and later periods he transformed and metamorphosed subject matter from Homer Phidias Plato Plotinus and Sophocles and from the myths of Dionysus Helen of Troy Leda and Zeus to exemplify his central preoccupations Irish Literary Studies Series No 32 **The Philosophy of Plotinus** William R. Inge, 2003-07-08 History of the Gifford Lectures The educator and historian Jacques Barzun described the Gifford Lectures as virtuoso performances and the highest honor in a philosopher s career For over a hundred years the Gifford Lecture series has been one of the foremost lecture series dealing with religion science and philosophy In his 1885 will the jurist Adam Lord Gifford convinced that true felt knowledge of God when acted upon generated human well being and progress bequeathed 80 000 to the four Scottish universities Universities of Edinburgh Aberdeen Glasgow and St Andrews for the establishment of a series of lectures dealing with the topic of natural religion In dealing with their particular area of interest and expertise lecturers are to discuss natural theology as a science that is without reference to or reliance upon any supposed special exceptional or so called miraculous revelation The lectures began in 1888 and with the exception of the years during World War II 1942 1945 have been delivered continuously since that time Presenters were to be appointed for a period of two years and could be reappointed for two additional periods of two years each but for no more than six years in a given city In this manner the subject was to be examined and promoted by different minds *Ceremony and Civility in English Renaissance Prose* Anne Drury Hall, 2010-11-01 A History of Philosophy Frederick Charles Copleston, 1946 Progress of philosophical thinking among the Greeks leading to a dual climax in the work of Plato and Aristotle demanding a synthesis by the Neo Platonists **History of Philosophy Volume 1** Frederick Copleston, 2003-06-01 Copleston an Oxford Jesuit and specialist in the history of philosophy created his history as an introduction for Catholic ecclesiastical seminaries The 11 volume series gives an accessible account of each philosopher s work and explains their relationship to the work of other philosophers **Literary Criticism: A Short History** William K. Wimsatt, Jr., Cleanth Brooks, 2021-03-23 First published in 1957 Literary Criticism A Short History traces our aesthetic heritage from its classical origins up to the contemporary state of criticism in the English speaking world Divided into four

volumes each book adopts a fair and objective position in the presentation of various critical positions and each critical theory is considered not only in competition with other critical theories but also in vital dialectic with the creative literature of its own time Volume One focuses on Classical criticism exploring Socrates and the Rhapsode poetry as structure tragedy and comedy Roman classicism and some Medieval themes *The Collected Works of W.B. Yeats Volume XIII: A Vision* William Butler Yeats,1989

The Scientific & the Divine James A. Arieti,Patrick A. Wilson,2004-09-01 There have been many too many attempts over the centuries to bring science and religion into harmony James A Arieti and Patrick A Wilson survey and assess these various efforts from Plato to Aquinas to present day philosophers and theologians The Scientific The Divine examines the perennial issues that keep science and religion at arm s length clarify those issues and fit them into an historical framework This book is ideal for use as a textbook in any course that discusses the interplay between science and faith Arieti and Wilson do not push an agenda they take a critical analytical look at the theories that started when the ancient Greeks realized the religious implications of scientific discovery The Scientific The Divine shows the historical continuity of both the central issues and the many potential solutions and demonstrates which of these theories comes closest to saving the marriage between science and religion

Hellenic Tantra Gregory Shaw,2024-02-13 Hellenic Tantra argues that scholarship on later Platonism has been misled by a dualist worldview The theurgic Platonists in the school of Iamblichus 4th century CE did not ascend out of their bodies to be united with the gods as is the common belief but allowed the gods to descend into their bodies By comparing embodied deification in theurgy to Tantric traditions of embodied deification Gregory Shaw allows us to understand the power and charisma of the last Platonic teachers Hellenic Tantra reveals a living Platonism that has been hidden from us

Aesthetics from Classical Greece to the Present Monroe C. Beardsley,1975-10-30 Seeks to bring present day philosophy principles into the history of aesthetics Before the publication of Aesthetics from Classical Greece to the Present there were three histories of aesthetics in English Bosanquet s pioneering work the second part of Croce s Aesthetic in the Ainslie translation and the comprehensive volume by Gilbert and Kuhn While each of these is interesting in its own ways and together they cover a good deal of ground none of them is very new Thus none could take advantage of recent work on many important philosophers and periods and bring into a consideration of the past the best concepts and principles that have been developed by present day philosophy

Louis MacNeice and the Irish Poetry of His Time Tom Walker,2015 Louis MacNeice and the Irish Poetry of his Time draws on new archival research to suggest ways in which MacNeice s poetry is closely linked to contemporaneous developments in Irish literature and culture

Levinas and the Greek Heritage Jean-Marc Narbonne,2006 Levinas and the Greek Heritage shows that throughout his career Emmanuel Levinas always admired and recognized his profound debt to Plato and to the philosophical tradition he initiated which have been largely transmitted to us by the Neoplatonists most notably Plotinus and Proclus How can we read Otherwise than Being or Beyond Essence in any other way than as some sort of Neoplatonic programme prolonging Plato s Good beyond

being of the Republic VI 509b in the direction of the other man the one which in his nudity and fragility opens for us the horizon of a new humanism There are many ways by which one can attempt to go over and above Being not only a Greek way primordially metaphysical but also a Biblical way mainly ethical One of the interests of Levinas philosophy is to show us the hidden community and perhaps unavoidable interdependency of these two approaches One Hundred Years of Neoplatonism in France shows that during the Twentieth century a retrieval of Neoplatonism is a powerful hidden feature of French philosophy and theology of spiritual and institutional life Beginning with Henri Bergson it passes by way of figures like Maurice Blondel A J Festugiere Henri de Lubac Jean Trouillard Henry Dumery and culminates with Michel Henry Pierre Hadot and Jean Luc Marion The book examines the particular character Neoplatonism takes in this retrieval and traces connections between leading figures within the French and Anglophone worlds The Weather in Proust Eve Kosofsky Sedgwick, 2011-12-20 At the time of her death in after a long battle with cancer Eve Sedgwick had been working on a book on affect and Proust and on the psychoanalyst Melanie Klein This volume edited by Jonathan Goldberg brings together a collection of her last work Rediscovering E. R. Dodds Christopher Stray, Christopher Pelling, Stephen Harrison, 2019-09-26 Rediscovering E R Dodds offers the first comprehensive assessment of a remarkable classical scholar who was also a poet with extensive links to twentieth century English and Irish literary culture the friend of Auden and MacNeice Dodds was born in Northern Ireland but made his name as Regius Professor of Greek at Oxford from 1936 to 1960 succeeding Gilbert Murray Before this he taught at Reading and Birmingham was active in the Association of University Teachers or AUT of which he became president and brought an outsider's perspective to the comfortable and introspective world of Oxford His famous book *The Greeks and the Irrational* 1951 remains one of the most distinguished and visionary works of scholarship of its time though much less well known is his long and influential involvement with psychic research and his work for the reconstruction of German education after the Second World War The contributions to this volume seek to shed light on these less explored areas of Dodds life and his significance as perhaps the last classicist to play a significant role in British literary culture as well as examining his work across different areas of scholarship notably Greek tragedy A group of memoirs one by his pupil and former literary executor Donald Russell and three by younger friends who knew visited and looked after Dodds in his last years complement this portrait of the influential scholar and poet offering a glimpse of the man behind the legacy

Philosophy in Late Antiquity Charles Vergeer, 2019-04-25 Late Antiquity seems to retreat in silence However Nietzsche drew attention to the fact that what we know about antique philosophy are not the voices of Plato or Aristotle that once sounded in Athens nor those of Cicero or Seneca in Rome They have come to us as perceived by the authors of the waning of the classical world the world of Late Antiquity This was a world about to perish characterised by the decline of the Roman Empire and its legal system and the tensions between the philosophy and paganism of Antiquity and Christianity The medieval and our contemporary world are based on the works of Late Antiquity This book discusses the disappearance of the

foundation of philosophy the knowledge and use of the Greek language the birth of time as being merely temporary the fall of the flesh the role of women in the period and the growing awareness of the approach of death The boundaries of being become more emphatic and closer

The Engaging World of E-book Books: A Thorough Guide Revealing the Advantages of Kindle Books: A Realm of Ease and Flexibility E-book books, with their inherent portability and ease of availability, have liberated readers from the constraints of physical books.
