Radcliffe College Student Directories Radcliffe College, 1919 MI5, the Cold War, and the Rule of Law Keith D. Ewing, Joan Mahoney, Andrew Moretta, 2020 This book is a unique and innovative study of the status powers and activities of

MI5 during the Cold War It contends that MI5 was subject neither to effective political nor legal scrutiny and examines the operations of the Security Service for civil liberties and the contemporary relevance of Cold War practices *Borders and conflict in South Asia* Lucy Chester,2017-03-01 *Borders and conflict in South Asia* is the first full length study of the 1947 drawing of the Indo Pakistani boundary in Punjab Using the Radcliffe commission as a window onto the decolonization and independence of India and Pakistan and examining the competing interests both internal and international that influenced the actions of the various major players it highlights British efforts to maintain a grip on India even as the decolonization process spun out of control Drawing on extensive archival research in India Pakistan and Britain combined with innovative use of cartographic sources the book paints a vivid picture of both the partition process and the Radcliffe line s impact on Punjab This book will be vital reading for scholars and students of colonialism decolonization partition and borderlands studies while providing anyone interested in South Asia s independence with a highly readable account of one of its most controversial episodes **Studies in the History of Tax Law, Volume 11** Peter Harris,Dominic de Cogan,2023-09-21 This book is a continuation of the prestigious series which is drawn from the papers of the biennial Cambridge Tax Law History Conference The authors are a mix of academics and senior tax professionals from the judiciary and practice with representatives from 9 countries The series continues to investigate current tax policy debates in an historical context The papers fall within 3 basic categories 1 UK and Irish tax looking at a variety of topics such as tax administration cases and judges Whitney Singer Viscount Radcliffe the taxation of royal forests the taxation of spirits and income tax transition in the Irish Free State 2 International taxation with chapters on the role of international organisations OECD League of Nations and on South Africa s early attempts to address double taxation tax treaties and 3 Non UK tax systems including chapters on the legacy of colonial influence Dutch East Indies early developments in China New Zealand and the USA an influential Canadian report Carter Commission development of the GAAR in Scandanavia and the receipt of Roman tax law in Europe *Final Judgment* Alan Paterson,2013-11-20 Winner of the Inner Temple book prize 2015 and the Socio Legal Studies Association Book prize 2014 15 The House of Lords for over 300 years the UK s highest court was transformed in 2009 into the UK Supreme Court This book provides a compelling and unrivalled view into the workings of the Court during its final decade and into the formative years of the Supreme Court Drawing on over 100 interviews including more than 40 with Law Lords and Justices and uniquely some of their judicial notebooks this is a landmark study of appellate judging from the inside by an author whose earlier work on the House of Lords has provided a scholarly benchmark for over 30 years The book demonstrates that appellate decision making in the UK s final court remains a social and collective process primarily because of the dialogues which take place between the judges and the key groups with which they interact when reaching their decisions As the book shows the forms of dialogue are now more varied yet the most significant dialogues continue to be with their fellow Law Lords and Justices and with counsel To these new dialogues have been added namely those with foreign

courts especially Strasbourg and with judicial assistants which have subtly altered the tenor and import of their other dialogues The research reveals that unlike the English Court of Appeal the House of Lords in its last decade was only intermittently collegial since Lord Bingham's philosophy of appellate judging left opinion writing concurrences and dissents largely to individual preference In the Supreme Court however there has been a marked shift to team working and collective decision making bringing with it challenges and occasional tensions not seen in the final years of the House of Lords The work shows that effectiveness in group decision making in the final court turns in part on the stages when dialogues occur in part on the geography of the court and in part on the task leadership and social leadership skills of the judges involved in particular cases The passing of the Human Rights Act and the expansion in judicial review over the last 30 years have dramatically altered the two remaining dialogues those with Parliament and with the Executive With the former the dialogue has grown more distant with the latter more problematic than was the case 40 years ago The last chapter rehearses where the changing dialogues have left the UK's final court Ironically despite the oft applauded commitment of the new Court to public visibility the book concludes that even greater transparency in the dialogue with the public may be required The way appellate judges at the highest level behave to each other to counsel with other branches of government and with other courts is brought under closer scrutiny in this book than ever before The remarkable width and depth of his examination has resulted in a work of real scholarship which all those who are interested in how appellate courts work all over the common law world will find especially valuable From the foreword by Lord Hope of Craighead KT Alan Paterson's knowledge and interest in the Supreme Court coupled with his expertise as a lawyer who understands the legal system and the judicial process make him a perfect chronicler and assessor of what the Court's role is and what it should be and how it functions and how it might improve Lord Neuberger President of the Supreme Court

Sourcebook on Trusts Law 2/e Ramjohn, 1998-10 The purpose of this book is to provide easy access to a collection of essential source materials in order to simplify the principles of trust law and stimulate critical thought The bulk of the material is selected from the conventional legal sources such as statutes and judicial decisions but

some of the materials are drawn from articles and official reports Each chapter commences with an exposition of the fundamental principles of trusts law in a readable and intelligible form followed by extracts from judgments of leading cases References to other relevant cases statutes articles and official reports are incorporated where appropriate The Scourge of Monetarism Nicholas Kaldor,1985 Now thoroughly revised and updated this edition also includes a new introduction which places Britain s experience of monetarism into a world context Law and the Spirit of Inquiry Charles Blake,Gavin Drewry,2023-12-04 This rich and fascinating collection of essays in honour of Sir Louis Blom Cooper reflects the high regard in which he is held throughout the world In his Foreword to the book Lord Woolf the Master of the Rolls emphasises the contribution which Sir Louis has made in so many capacities Of course as an advocate and an eminent Queen s Counsel both in England and Wales and Northern Ireland he frequently appeared for those who are disadvantaged against the establishment Louis commitment has been on an international scale and in many of the out of the way parts of the world he has a near hero status Not many Queen s Counsel will for example have been prepared to make the near 6 week journey to St Helena to defend a client His extraordinary range of writing should not be forgotten Besides his numerous articles for legal journals he was the author of many books His writing demonstrates not only his erudition but also the breadth of his interests Alas not many lawyers or judges share Sir Louis concern about the literary quality of their writing As part of his contribution to justice I include his Chairmanship of the Press Council One of the most difficult and sensitive areas in which to achieve justice arises where the freedom of media and the press come into conflict with the rights of the individual to have his privacy respected not only was Sir Louis a distinguished last Chairman of the Press Council he was responsible for the issue of a Code of Practice which was in some ways the precursor of the Code of the New Press Complaints Commission Louis has also been a great campaigner for law reform He has many achievements to his credit but I suspect that the cause which was closest to his heart was penal reform A number of extremely authoritative contributions to this Festschrift therefore focus on some of the areas of reform for which Sir Louis campaigned However it is in connection with the Inquiries that he has conducted that Sir Louis has found the most important outlet for his abundant talents His creativity his powers of analysis his understanding and ability to relate to the public have again and again been called on by the government of the day and other institutions both in this country and abroad when matters of great public concern have arisen All the distinguished contributors to this Festschrift have known and esteemed Sir Louis in one or more of his multifarious capacities They and the editors dedicate this volume to this remarkable man with their admiration and warm affection Studies in the History of Tax Law, Volume 7 Peter Harris,Dominic de Cogan,2015-09-24 These are the papers from the 2014 Cambridge Tax Law History Conference revised and reviewed for publication The papers fall within six basic themes Two papers focus on colonialism and empire dealing with early taxation in colonial New Zealand and New South Wales Two papers deal with fiscal federalism one on Australia in the first half of the twentieth century and the other with goods and services taxation in China

Landmark Cases in the Law of Tort Charles Mitchell, Paul Mitchell, 2010-02-18 Landmark Cases in the Law of Tort contains thirteen original essays on leading tort cases ranging from the early nineteenth century to the present day It is the third volume in a series of collected essays on landmark cases the previous two volumes having dealt with restitution and contract The cases examined raise a broad range of important issues across the law of tort including such diverse areas as acts of state and public nuisance as well as central questions relating to the tort of negligence Several of the essays place cases in their historical context in ways that change our understanding of the case's significance Sometimes the focus is on drawing out previously neglected aspects of cases which have been undeservedly assigned minor importance Other essays explore the judicial methodologies and techniques that worked to shape leading principles of tort law So much of tort law turns on cases and there are so many cases that all but the most recent decisions have a tendency to become reduced to terse propositions of law so as to keep the subject manageable This collection shows how important it is despite the constant temptation to compression not to lose sight of the contexts and nuances which qualify and illuminate so many leading authorities

Reason and Fairness Ulrike Müßig, 2019-07-08 Throughout Europe the exercise of justice rests on judicial independence by impartiality In Reason and Fairness Ulrike Müßig reveals the combination of ordinary judicial competences with procedural rationality together with the complementarity of procedural and substantive justice as the foundation for the rule of law in court constitution far earlier than the advent of liberal constitutionalism The ECHR fair trial guarantee reads as the historically grown consensus of the functional judicial independence Both before historical and contemporary courts justice is done and seen to be done by means of judgements whose legal requirements combine the equation of fair and legal with that of legal and rational This legal determinability of the judge's fair attitude amounts to the specific rational European idea of justice
