Rai,2013-10-18 Ceremony and Ritual in Parliament breaks new ground in the study of legislatures It combines mainstream historical and social science approaches with cultural theory to consider how parliamentary ritual is constructed through ceremony space and socialisation The focus is on the marginalised groups especially women and members of ethnic minorities who seek inclusion as representatives in democratic legislatures This book assesses aspects of the role that ceremony and ritual in legislatures play especially but not exclusively in their gendered and racialised dimensions Within this broad frame it considers the impact of space identity ritual and or ceremony on the institutional form of parliament how power is shaped within it how the behaviour of members is facilitated constrained and shaped how power and rituals interact to and how they impinge upon the relationships between representative institutions and citizens Contributions are theoretical and empirical comparative or single country studies of national or sub national legislatures They have interdisciplinary historical or postcolonial perspectives that contribute to this emerging field in the study of parliaments This book was previously published as a special issue of the Journal of Legislative Studies

*Diplomacy and lobbying during Turkey's Europeanisation* Bilge Firat,2019-09-26 This book presents intricate backstage negotiations of interests and compromises between diplomats and lobbyists through the corridors of power which drove Turkey both closer to and farther apart from the EU

*Strategic Imaginations* Anke Gilleir,Aude Defurne,2020-12-15 Imaginations of female rule and the imaginative strategies of women rulers What is the gender of political power What happens to the history of sovereignty when we reconsider it from a gender perspective Political sovereignty has been a major theme in European thought from the very beginning of intellectual reflection on community Philosophy and political theory historiography theology and literature and the arts have often in dialogue with one another sought to represent or recalibrate notions of rule Yet whatever covenant was imagined sovereign rule has consistently been figured as a male prerogative While in depth studies of historical women rulers have proliferated in the past decades these have not systematically explored how all women rulers throughout the entirety of European culture have had to operate in a context that could not think power as female except in grotesque terms Strategic Imaginations demonstrates that this constitutive tension can only be brought out

by studying women's political rule in a comparative and long-term manner. The book offers a collection of essays that brings together studies of female sovereignty from the Polish-Lithuanian to the British Commonwealth and from the Middle Ages to the genesis of modern democracy. It addresses historical figures and takes stock of the rich yet unsettling imagination of female rule in philosophy, literature, and art history. For all the variety of geographical, social, and historical contexts, it engages the book reveals surprising resonances between the strategies women rulers used and the images and practices they adopted in the context of an all-pervasive skepticism toward female rule.

**Norms, Storytelling and International Institutions in China** Xiaoyu Lu, 2021-02-15. This book is a political ethnography of norm diffusion and storytelling through international institutions in China. It is driven by intellectual puzzles and realpolitik questions: are we converging or diverging on values? Do emerging powers reinforce or reshape the existing international order? Are international institutions socialising emerging powers or being used to promote alternative norms? This book addresses these questions through fieldwork research over three years at the United Nations Development Programme in China, the first international development agency to enter post-reform China in 1979. It provides a crucial case to study the everyday practices of norm diffusion in emerging powers and highlights the central role of storytelling in translating and contesting normative scripts. The book selects norms in human rights, rule of law, and development cooperation to analyse how translators and brokers innovatively use stories to advocate and how these normative stories move back and forth between local/global spaces and orders. A fascinating ethnography that tells us much about international institutions and China's changing role in the world of interest both to China specialists and theorists of international relations. Rana Mitter, Director of the University of Oxford China Centre, University of Oxford, UK. Through pioneering ethnographic research, Xiaoyu Lu's outstanding book makes a major contribution to our understanding of norm diffusion and the ways in which China is shaping and is shaped by international development norms. Lu's richly textured analysis shows how norm translators use case studies, personal stories, and other narratives to negotiate between global and local normative orders and to facilitate the day-to-day processes of norm diffusion. Amy King, Associate Professor, Strategic and Defence Studies Centre, Australian National University, Australia. An intricate account of the everyday politics in international development institutions that will enrich our understanding of emerging powers and their roles in global development. Emma Mawdsley, Director of the Margaret Anstee Centre for Global Studies, University of Cambridge, UK.

*Exploring Parliament* Cristin Leston-Bandeira, 2025. **The Oxford Handbook of Politics and Performance** Shirin Rai, Milija Gluhovic, Silvija Jestrovic, Michael Saward, 2021. While political scientists and political theorists have long been interested in social and political performance, and theatre and performance researchers have often focused on the political dimensions of the live arts, the interdisciplinary nature of this labor has typically been assumed rather than rigorously explored. This volume brings together leading scholars in the fields of Politics and Performance, drawing on experts across the fields of literature, law, anthropology, sociology, psychology, and media and communication, as well as politics.

and theatre and performance to map out and deepen the evolving interdisciplinary engagement Organized into seven thematic sections the volume investigates the relationship between politics and performance to show that certain features of political transactions shared by performances are fundamental to both disciplines and that to a large extent they also share a common communicational base and language

**Organizational Ethnography** Sierk Ybema,Dvora Yanow,Harry Wels,Frans H Kamsteeg,2009-08-20 Just as newspapers do not typically engage with the ordinary experiences of people s daily lives so organizational studies has also tended largely to ignore the humdrum everyday experiences of people working in organizations However ethnographic approaches provide in depth and up close understandings of how the everyday ness of work is organized and how in turn work itself organizes people and the societies they inhabit Organizational Ethnography brings contributions from leading scholars in organizational studies that serve to unpack an ethnographic perspective on organizations and organizational research The authors explore the particular problems faced by organizational ethnographers including questions of gaining access to research sites within organizations the many styles of writing organizational ethnography the role of friendship relations in the field problems of distance and closeness the doing of at home ethnography ethical issues standards for evaluating ethnographic work This book is a vital resource for organizational scholars and students doing or writing ethnography in the fields of business and management public administration education health care social work or any related field in which organizations play a role

**The Grammar of Politics and Performance** Shirin M Rai,Janelle Reinelt,2014-12-05 This volume brings together important work at the intersection of politics and performance studies While the languages of theatre and performance have long been deployed by other disciplines these are seldom deployed seriously and pursued systematically to discover the actual nature of the relationship between performance as a set of behavioural practices and the forms and the transactions of these other disciplines This book investigates the structural similarities and features of politics and performance which are referred to here as grammar a concept which also emphasizes the common communicational base or language of these fields In each of the chapters included in this collection key processes of both politics and performance are identified and analyzed

demonstrating the critical and indivisible links between the fields The book also underlines that neither politics nor performance can take place without actors who perform and spectators who receive evaluate and react to these actions At the heart of the project is the ambition to bring about a paradigm change such that politics cannot be analyzed seriously without a sophisticated understanding of its performance All the chapters here display a concrete set of events practices and contexts within which politics and performance are inseparable elements This work will be of great interest to students and scholars in both International Relations and Performance Studies

The Anthropology of Parliaments Emma Crewe, 2021-05-13 The Anthropology of Parliaments offers a fresh comparative approach to analysing parliaments and democratic politics drawing together rare ethnographic work by anthropologists and politics scholars from around the world Crewe's insights deepen our understanding of the complexity of political institutions She reveals how elected politicians navigate relationships by forging alliances and thwarting opponents how parliamentary buildings are constructed as sites of work debate and the nation in miniature and how politicians and officials engage with hierarchies continuity and change This book also proposes how to study parliaments through an anthropological lens while in conversation with other disciplines The dive into ethnographies from across Africa the Americas Asia Europe the Middle East and the Pacific Region demolishes hackneyed geo political categories and culminates in a new comparative theory about the contradictions in everyday political work This important book will be of interest to anyone studying parliaments but especially those in the disciplines of anthropology and sociology politics legal and development studies and international relations

**Europe, Discourse, and Institutions** Cristian Nitoiu, Nikola Tomic, 2014-07-25 This book focuses on how discourse and various narratives contribute to the construction of the European Union as a political actor thus seeking to challenge the more established approaches to the study of the Union It sheds light on the way discourses about the European Union are created perpetuated and then translated into policy outcomes Most of the contributions attempt to account for the differences that usually arise between discourse and policy practices The methods employed range from more traditional variants of discourse analysis to other more radical versions that emphasize power or to critical or differential reading of policy narratives and ethnography Policy areas such as trade enlargement foreign policy and the European Neighbourhood Policy ENP are discussed while a particular interest is awarded to the European Parliament and the Commission In doing so the contributions shed light on the role discourse plays in relation to policies institutional practices and value representations at the European level Moreover the authors analyse the different actors and structures that create and perpetuate discourses within the EU highlighting new insights that a focus on discourse can bring to the field of European Union studies This book was published as a special issue of Perspectives on European Politics and Society

*The Collaborative Constitution* Aileen Kavanagh, 2023-10-26 In this book Aileen Kavanagh offers a fresh account of how we should protect rights in a democracy Departing from leading theoretical accounts which present the courts and legislature as rivals for constitutional supremacy Kavanagh argues that protecting rights is a collaborative enterprise between all three branches of government the Executive the legislature and the courts On a collaborative vision of constitutionalism protecting rights is neither the solitary task of a Herculean super judge nor the dignified pronouncements of an enlightened legislature Instead it is a complex dynamic and collaborative endeavour where each branch has a distinct but complementary role to play whilst engaging with each other in a spirit of comity and mutual respect Connecting constitutional theory with the practice of protecting rights in a democracy this book offers an innovative understanding of the separation of powers grounded in the values and virtues of constitutional collaboration

*Deliberation Naturalized* Ana Tanasoca, 2020-08-13 Democratic theory's deliberative turn has hit a dead end It is unable to find a good way to scale up its small scale formally organized deliberative mini publics to embrace the entire community Some turn to deliberative systems for a way out but none have found in that a credible way of deliberatively involving the citizenry at large *Deliberation Naturalized* offers an alternative way out one we have been using all along The key sites of democratic deliberation are citizens everyday political conversations networked across the community Informal networked deliberation is how all citizens actually deliberate together directly or indirectly That is how public opinion emerges in civil society Networked deliberation satisfies the classic deliberative desiderata of inclusion equality and reciprocity albeit differently than standard mini publics Reconceptualizing democratic deliberation in those terms highlights some real threats to the networked mode of deliberative democracy such as polarization message repetition and pluralistic ignorance *Deliberation Naturalized* assesses the extent of each of those threats and proposes ways of protecting real existing deliberative democracy against them By focusing on the

mechanisms underpinning everyday democratic deliberation among ordinary citizens *Deliberation Naturalized* offers a truly novel approach to deliberative democracy

**Reform and Its Complexities in Modern Britain** Bruce L. Kinzer, Molly Baer Kramer, Richard Trainor, 2022 The essays in this volume taken together span the era of British history from 1780 to the present that has engrossed the attention of Brian Harrison in a career of more than fifty years In keeping with his diverse interests they vary widely in subject matter Yet each contributes in some fashion to an appreciation of the complexities of reform in modern Britain Throughout his career Harrison has demonstrated an unwavering interest in social movements and pressure groups He has analysed the organisation of reform movements and their bases of support explored the aspirations and beliefs motivating individuals to start or join such movements and examined the ideas and ideals shaping their conception of human improvement No one has done more to show that the significance of a reform movement's triumphs and disappointments can be grasped only in relation to the forces amassed to resist its claims The essays gathered here on the Harrisonian theme of reform and its complexities form an acknowledgment of the massive mark their honouree has made on the study of modern British history They are preceded by a Foreword composed by Keith Thomas and an editorial Introduction tracing the course of Harrison's scholarship and connecting that scholarship to the substance of the essays The volume encompasses both wide ranging analytical investigations and telling case studies All have new things to say on the subject of reform and its complexities in modern Britain
