Lorenzo Ghiberti Richard Krautheimer, 2019-08-06 Volume 2 of 2 Lorenzo Ghiberti sculptor and towering figure of the Renaissance was the creator of the celebrated Bronze Doors of the Baptistery at Florence a work that occupied him for twenty years and became known at Michelangelo's suggestion according to tradition as the Doors of Paradise Here Richard Krautheimer takes what Charles S Seymour Jr describes as a fascinating journey into the mind career and inventiveness of one of the indisputably outstanding sculptors of all the Western tradition This one volume edition includes an extensive new preface and bibliography by the author Richard Krautheimer Professor Emeritus of the Institute of Fine Arts at New York University currently lives in Rome He is the author of numerous works including the Pelican Early Christian and Byzantine Architecture and Rome Profile of a City 312 1308 Princeton Princeton Monographs in Art and Archaeology 31 Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Giotto the Painter. Volume 1-3** Michael Viktor

Schwarz, 2023-04-17 Vol 1 Life Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto's life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto's lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre modern artist Vol 2 Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again Vol 3 Survival Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the

development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies

Giotto the Painter. Volume 2: Works Michael Viktor Schwarz, 2023-04-17 The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again

Lorenzo Ghiberti's Gates of Paradise Amy R. Bloch, 2016-02-09 This book examines the heretofore unsuspected complexity of Lorenzo Ghiberti's sculpted representations of Old Testament narratives in his Gates of Paradise 1425-52 the second set of doors he made for the Florence Baptistery and a masterpiece of Italian Renaissance sculpture One of the most intellectually engaged and well read artists of his age Ghiberti found inspiration in ancient and medieval texts many of which he and his contacts in Florence's humanist community shared read and discussed He was fascinated by the science of vision by the functioning of nature and above all by the origins and history of art These unusually well defined intellectual interests reflected in his famous Commentaries shaped his approach in the Gates Through the selection imaginative interpretation and arrangement of biblical episodes Ghiberti fashioned multi textured narratives that explore the human condition and express his ideas on a range of social political artistic and philosophical issues

Giotto the Painter. Volume 1: Life Michael Viktor Schwarz, Pia Theis, 2023-04-17 Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto's life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto's lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre modern artist

A Documentary History of Art, Volume 1 Elizabeth Gilmore Holt, 2024-05-21 An illuminating one volume compendium of primary documents on the art of medieval and Renaissance Europe This unique collection brings together notebooks letters treatises and contracts dealing with the art of the Middle Ages and Renaissance providing extraordinary insights into the personalities and conditions of the times and

revealing the stylistic and philosophical concerns that evolved during these intensively creative eras. These documents, many of them available here in English for the first time, range from Raoul Glaber's famous 1003 treatise on the synthesis of old and new art forms to Durand's essay on Christian symbolism in art and the writings of Leonardo and Dürer on anatomy, perspective and the recreation of reality. They trace how a medieval conception of life that was inspired, oriented and dominated by the church evolved gradually into the great reawakening of the Renaissance in which humankind itself assumed primary importance in Western art.

Auguste Comte: Volume 2 Mary Pickering, 1993. This volume explores the life and works of Auguste Comte during the last and most controversial part of his career, the period from 1842 to 1857.

Church History, Volume Two: From Pre-Reformation to the Present Day John D. Woodbridge, Frank A. James III, 2013-08-08. Church History Volume Two chronicles the events, the triumphs and the struggles of the Christian movement from the years leading up to the Reformation through the next five centuries to the present day. Looking closely at the integral link between the history of the world and that of the church, Church History paints a portrait of God's people within the context of the times, cultures and developments that both influenced and were influenced by the church.

FEATURES: Maps, charts and illustrations spanning the time from the thirteenth century to today. Explanations of all the major denominational movements, traditions and schisms during and after the Reformation. Overviews of the Christian movement in Africa, eastern Europe, Asia and Latin America to cover the scope of the ecumenical environment of the twenty-first century. Insights into the role and influence of politics, culture and societal norms and technology on the Western church. Unbiased details on the major theological controversies and issues of each period.

AUTHORS' PERSPECTIVE: Authors John D. Woodbridge and Frank A. James III wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known, as imperfect as it still is. It's a human story of a divinely called people who want to live by a divine revelation. It's a story of how they succeeded and how they failed and of how they are still trying to live out their calling. From the Reformation theologians in Europe to the revivalists, apologists and Christian thinkers all over the world, the historical figures detailed are people who have struggled with the meaning of the greatest event in history: the coming of the Son of God and with their role in that event and in the lives of God's people.

Art and Architecture in Naples, 1266 - 1713 Cordelia Warr, Janis Elliott, 2010-05-11. Often overshadowed by the cities of Florence and Rome in art historical literature, this volume argues for the importance of Naples as an artistic and cultural centre, demonstrating the breadth and wealth of artistic experience within the city. Generously illustrated with some illustrations specifically commissioned for this book, it questions the traditional definitions of cultural centres which have led to the neglect of Naples as a centre of artistic importance. A significant addition to the English language scholarship on art in Naples.

Problems of Empiricism: Volume 2 Paul Feyerabend, 1985-06-30. Volume 1 presents papers on the interpretation of scientific theories together with papers applying

the views developed to particular problems in philosophy and physics The essays in volume 2 examine the origin and history of an abstract rationalism as well as its consequences for the philosophy of science and methods of scientific research

Romanesque Renaissance Konrad Adriaan Ottenheim, 2021-01-11 In early modern times scholars and architects investigated age old buildings in order to look for useful sources of inspiration They too occasionally misinterpreted younger

buildings as proofs of majestic Roman or other ancient glory such as the buildings of the Carolingian Ottonian and Stauffer emperors But even if the correct age of a certain building was known buildings from c 800 1200 were sometimes regarded as Antique architecture since the concept of Antiquity was far more stretched than our modern periodisation allows This was a Europe wide phenomenon The results are rather diverse in style but they all share an intellectual and artistic strategy a conscious revival of an ancient architecture whatever the date and origin of these models Contributors Barbara Arciszewska Lex Bosman Ian Campbell Eliana Carrara Bianca de Divitiis Krista De Jonge Emanuela Ferretti Emanuela Garofalo Stefaan Grieten Hubertus G nther Stephan Hoppe Sanne Maekelberg Kristoffer Neville Marco Rosario Nobile Konrad Ottenheym Stefano Piazza and Richard Schofield *Reading the Middle Ages, Volume II* Barbara H. From Village Boy to Global Citizen (Volume 2): The Travels of a Journalist Shelton A. Gunaratne, 2012 The author describes and dramatizes the most memorable places visited often with accompanied family members since leaving the country of his birth in 1966 Author notes After my retirement in 2007 I found the time to compile this travelogue using the notes in my diaries and updating the material through online research with particular help from the constantly revised Wikipedia entries In this process I learned to make each travel essay an evergreen that would not perish soon after its publication as in the case of newspaper travel pieces Travel has shaped my personality Global travel to get to know culturally diverse people was one of my childhood ambitions Moreover travel is an essential aspect of a journalists life Therefore my travels constitute a very important part of my autobiography I included detail in the hope that the reader would keep this volume for long term reference My explorations of U S national parks and my camping expeditions should be of particular interest to family oriented travelers

Giotto the Painter. Volume 3: Survival Michael Viktor Schwarz, 2023-04-17 Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto s impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual

opening of Western societies **The Intellectual Struggle for Florence** Arthur Field, 2017-07-21 The Intellectual Struggle for Florence is an analysis of the ideology that developed in Florence with the rise of the Medici during the early fifteenth century the period long recognized as the most formative of the early Renaissance Instead of simply describing early Renaissance ideas this volume attempts to relate these ideas to specific social and political conflicts of the fifteenth century and specifically to the development of the Medici regime It first shows how the Medici party came to be viewed as fundamentally different from their opponents the oligarchs then explores the intellectual world of these oligarchs the traditional culture As political conflicts sharpened some humanists Leonardo Bruni and Francesco Filelfo with close ties to oligarchy still attempted to enrich traditional culture with classical learning while others such as Niccol Niccoli and Poggio Bracciolini rejected tradition outright and created a new ideology for the Medici party What is striking is the extent to which Niccoli and Poggio were able to turn a Latin or classical culture into a popular culture and how the culture of the vernacular remained traditional and oligarchic
