Today's children live in a culturally diverse and constantly changing digital world. New digital media is created every day but librarians and other educators need help in evaluating cultural content in digital apps, determining whether they send appropriate social messages to children and learning how to use them in library programs that promote cultural competence. *Diversity Programming for Digital Youth: Promoting Cultural Competence in the Children's Library* provides just the help that is needed. This resource is the only one to examine the role of culturally diverse digital media and how it can be used with children's books to promote cultural competence in the library. It provides annotated lists of digital media paired with culturally diverse literature to offer librarians and educators a springboard for creating enriching, engaging and culturally relevant programs for children from diverse backgrounds.
