*Nontimber Forest Products in the United States* Eric T. Jones,Rebecca Jean McLain,James F. Weigand,2002 A quiet revolution is taking place in America s forests Once seen primarily as stands of timber our woodlands are now prized as a

rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As the first extensive national overview of NTFP policy and management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests

**Laurie Pippen's All Natural Colorants for Cosmetic, Culinary, and Textile Dyeing** Laurie Pippen, 2015-06-17 Colorants are everywhere You can find dyes in your decor cosmetics food and in nearly every fabric in the home from your socks to your furniture Many of these dyes are made using chemical alternatives to the abundant selection of all natural colorants you can find cheaply and easily in your own backyard Whether you are hoping to make life more natural by creating your own homemade colorants or hoping to replace one or two synthetic colorants with all natural plant dyes you will find that coloring with natural choices is easy fun and yields amazing results A natural colorant is a colorant that comes from minerals plants or invertebrates The most common natural colorants come from plant sources like bark berries flowers leaves and roots Potential dyeing options are everywhere and this book only illustrates the most traditionally used colorants and the methods I have employed to obtain my desired results My favorite forms of natural dyes come from plant parts like berries flowers leaves nuts and roots After reading this guide and gaining some skill with natural dyes you should look around and experiment to see what new and creative natural colorants might be available in your own back yard Remember

that natural colorants are not just for dyeing fabric You can use natural colorants to create homemade ink paint or even to dye Easter eggs Some of our countries oldest documents were written with ink made from natural colorants You can also use natural colorants to make meals more healthy and appealing Sometimes I like to use unusual colors to make mealtime fun for the whole family Purple mashed potatoes or glowing orange rice is always a fun surprise You can even use plant products when you make personal care products like make up soaps and hair colorant Many commercial cosmetics you purchase have their color roots in natural product dyes and with a little knowledge and a bit of practice you can become a master at making pleasing looking and smelling products for your family that actually have benefits to go with their attractiveness Nearly anything you work with that needs color is a potential choice for natural plant dyes Natural colorants come in every shade you might want You can even blend or tone the colors up and down to achieve the exact result you need for your project

Chiricahua Apache Women and Children H. Henrietta Stockel, 2000 WHITE PAINTED WOMAN appears in ancient myths of the Chiricahua Apaches as the virgin mother of the people and the origin of women s ceremonies Such Chiricahua myths and traditions have closely prescribed the roles of women in relation to their husbands and children to relatives and extended families and to the band or tribe One of those roles is to safeguard and hand on to the next generation the lore and customs of the people In this way Chiricahua women have served as safekeepers of a heritage that is now endangered For more than a decade H Henrietta Stockel has moved with remarkable freedom and intimacy among the Chiricahuas especially in the women s friendship circles With their permission and even blessing she has observed and recorded aspects of their traditional culture that otherwise might be lost to history Chiricahua Apache Women and Children written in a familiar personal style focuses on the duties and experiences of historical Chiricahua Apache women and the significant influences they have exerted within the family and the tribe at large After beginning with a look at creation myths Stockel turns to family patterns and roles She describes in detail the puberty ceremony she has repeatedly witnessed a ceremony little known by those outside the band Stockel looks also at the alternative lifestyle also culturally prescribed of four women warriors She concludes with Mildred Cleghorn a contemporary woman warrior who was chairperson of the Fort Sill Chiricahua Warm Springs Apache Tribe in Oklahoma for nearly twenty years and who was also Stockel s close friend and Apache mother Beautifully complemented with thirty two black and white illustrations of women children and family life Chiricahua Apache Women and Children offers a vivid glimpse into traditional Chiricahua Apache women s lifestyles *American Indian and Alaskan Native Health* ,1996 **Current Bibliographies in Medicine** ,1988 Curandero Conversations Antonio

**Flora of the Voynich Codex** Arthur O. Tucker, Jules Janick, 2019-09-06 The Voynich Codex is one the most fascinating and bizarre manuscripts in the world The manuscript potentially equivalent to 232 pages or more properly a codex consists of many foldout pages It has been divided by previous researchers into sections known as Herbal Botanical Pharmacology Balenological Biological Cosmology one page known as The Rosette and a final Recipe section All the sections contain text in an unknown writing system yet to be deciphered Cryptological analyses by modern computer programs nevertheless have determined that the language is real and not a hoax as has been suggested by some Despite the fact that this codex is largely an herbal the interpreters of this manuscript with two exceptions have not been botanists To this end our recent research suggests that the Voynich is a 16th century codex associated with indigenous Indians of Nueva España educated in schools established by the Spanish This is a breakthrough in Voynich studies We are convinced that the Voynich codex is a document produced by Aztec descendants that has been unfiltered through Spanish editors The flora of New Spain is vast and the medicinal and culinary herbs used by the Aztecs were equally as copious Even though it is our hypothesis that the Voynich Codex was written as a private herbal in 16th century New Spain many of these herbs have relevance today because they or closely related species have been noted to be medicinal or have culinary value The Voynich Codex has an estimated 359 illustration of plants phytomorphs 131 in the Herbal Section large images and 228 in the Pharmaceutical Section small images of plant parts In our book Unraveling of the Voynich Codex to be published by Springer this summer Tucker and Janick have partially identified species in the Herbal Section In this proposed work all of the plants of the Herbal Section will be identified along with those plants of the Pharmacology Section where identification is feasible Each plant identification

will include subdivisions to include descriptors formal botanical identification names in English Spanish and Mesoamerican names where known ecology and range and properties medicinal and culinary of these and related species Photographs of the phytomorphs and contemporary plants will be included These identifications represent hard evidence that the Voynich Codex is a 16th Century Mexican manuscript Exploring the herbs of the Aztecs through the Voynich Codex will be a seminal work for all Voynich researchers and also of interest to a wider audience in medicinal and culinary herbs artists and historians In summary our new book project Flora of the Voynich Codex will provide a photo illustrated guide to complete the botanical evidence related to the Voynich Codex one of the most valuable historic texts of the 16th century     Herbal Remedies Asa Hershoff,2001-03-05 An essential reference to herbal remedies for the most common ailments Sharing twenty five years of clinical expertise Dr Asa Hershoff has written a highly accessible and useful guide to hundreds of herbs and their uses for specific conditions The book s unique format helps readers quickly assess health conditions Margins on each page depict icons of body parts for very easy reference An alphabetical listing of ailments provides information on each herb s source dosage and possible contraindications Integrating the best of herbal tradition and science this authoritative book is an essential guide for tapping the healing power of herbs     They All Want Magic Elizabeth de la Portilla,2009 Elizabeth de la Portilla writes of the world and practices of San Antonio curanderas As a scholar an ethnographer and a curandera in training her parallel perspectives uniquely aid readers in understanding this subordinated culture Retelling the stories various healers have shared interpreting their answers to her probing questions and describing the herbs and recipes they use in their arts the author vividly illuminates the borderland context of San Antonio
