Los Sistemas Comerciales Y Monetarios En:

Los sistemas comerciales y monetarios en la tríada excluyente Juan Castaingts Teillery, 2000-01-01 Libro donde se aborda el proceso de trilateralización desde la perspectiva de los países atrasados principalmente los de América Latina y emergentes en la obra se presentan tres temas fundamentales región empresa y dinero Se utiliza la palabra trilateralización ya que todo se concentra en tres regiones América del norte Europa y sureste de Asia Cada una con un país como centro y con un conjunto de países que giran a su alrededor Se trata de una tríada que no configura un sistema mundial ya que se excluyen de ella al resto de los países del mundo Con relación a la región se puede decir que no son los países los que se encuentran integrados en este sistema tridico sino las micro regiones localizadas en el interior de dichos países Son estas micro regiones de alto desarrollo de cada país que se relacionan no con otro país sino con otras micro regiones que se encuentran en los otros países las que configuran el sistema triadico En lo referente a la empresa se presentan las especificidades de las empresas latinoamericanas y sus problemas de financiamiento y competencia frente a las grandes empresas mundiales Con respecto al dinero es necesario analizarlo en virtud de que la finanza se ha convertido en el centro neurálgico del mundo actual El dinero es el nervio que impregna a todas las instituciones contemporáneas incluido en Estado por eso es vital estudiar lo que sucede en Latinoamérica y conocer cuáles son las especificidades de sus monedas y los factores que las hacen inestables
