Wesseling,2015-10-23 The nineteenth century was Europe s colonial century At the beginning of the period the only colonial empire that existed was the British Empire By the end of the century the situation was completely different and Europe s colonial possessions had come to constitute a large part of the world The French had acquired an immense colonial empire and the Dutch had extended their control over Indonesia Germany and Italy unified only in the latter half of the century had claimed their place under the sun Even the tiny Kingdom of Belgium had acquired a huge colonial territory in Africa the Belgian Congo This is the first book to describe the whole process of colonization from conquest to pacification and to analyze it in the light of administrative cultural and economic developments The European Colonial Empires discusses a uniquely long period instead of merely focussing on the shorter accepted age of classical imperialism Wesseling argues that European colonial expansion can be understood only by putting it into this long term perspective and by comparing the differences between the colonies in Africa Asia Oceania and the Caribbean This book redresses the balance that privileges the British colonial and imperial experience It emphasizes the continental European experience while relating developments to the British enterprise

*Illusion Of Victory* Ian Bickerton,2011-04-01 The Illusion of Victory demonstrates that most of the rewards of victory in modern warfare are either exaggerated or false When the ostensible benefits of victory are examined a generation after a war it becomes inescapably evident that the defeated belligerent rarely conforms to the demands and expectations of the victor Consequently long term political and military stability is denied to both the victorious power and to the defeated one As a result neither victory nor defeat deter further outbreaks of war This sobering reality is increasingly the case in the twentieth and twenty first centuries Ian Bickerton persuasively argues that as the rhetoric of victory becomes more hollow all countries must adopt creative new approaches to resolving disputes
