Engaging with contemporary Anglican theology of the Eucharist through the concept of anamnesis this book seeks to enrich the Church's understanding of transformation and mission Eucharistic theology finds its place in the midst of much contemporary Anglican theology but little attention has been given to the interrelationship between mission and the Eucharist Julie Gittoes engages with the work of David Ford Rowan Williams and Catherine Pickstock who share a common concern to engage with the way in which the Eucharist shapes the life of the worshipping community as the body of Christ Focusing on the concept of anamnesis remembrance or memorial Gittoes highlights a language of connection in the way in which anamnesis describes the integration of historical sacramental and ecclesial embodiments of Christ The Eucharist looks back to the saving events of Christ's life death and resurrection through it the Church is nourished with the body of Christ participating in it anticipates the eschatological fulfilment of the Kingdom This book explores the connection between the source event of the Church's life and the transformative encounter with Christ in the Eucharist the effects of which are seen in social ethical political action and the Church's mission      **Iconoclastic Sex** Henry Walter Spaulding III, 2024-03-13

Christian sexual ethics operates from a place of privilege when it does not consider those impacted by its moral prescriptions A large majority of publications on Christian sexual ethics consider choices and images abstracted from lived conditions of the people called to make these decisions As such it leaves out many for whom sex is neither welcome nor a choice As such these same texts present images of sexual subjects that marginalize those that do not fit As the book presents sexuality both Christian and otherwise prioritizes a language of purity that strangles the life of those imaged impure The present book remedies this emphasis through the language of iconoclasm that blasphemes these images and opens theological reflection beyond the boundary of image based approaches Utilizing a qualitative study of survivors of trafficking and those who grew up under evangelical purity teachings Spaulding narrates sexual ethics in light of their testimonies and the theological resources of iconoclasm to articulate a more just and loving sexuality The new emphasis on sexual ethics not only resists the prescriptions that create the conditions of sex trafficking but the creation of new communities capable of solidarity and mutuality with those caught in the web of trafficking      **Recovering the Icon** Patrick Doolan, 2008 Leonid Ouspensky 1902-1987 settled in France following the Russian Revolution and worked as a talented but struggling commercial painter prior to discovering the icon which became his life's work Orthodox iconography had been in full decline since the seventeenth century and Ouspensky set out to recover the genuine sources of Eastern Christian art and to recover the Tradition that had spawned them In this work Schemamonk Patrick Doolan a pupil of Ouspensky has chosen and commented on more than 100 of Ouspensky's representative works Icons and sculptures and wood and stone as well as pressed metal are included giving us a broad range of the talent of this masterful teacher **BOOK JACKET**      *Compassionate Christ, Compassionate People* Bob Hurd, 2019-02-11 2020 Association of Catholic Publishers first place award resources for liturgy 2020 Catholic Press

*Rowan's Rule* Rupert Shortt,2009-02-24 A fascinating fair minded depiction of Archbishop Rowan Williams Rowan Williams is a complex and controversial figure Widely revered for his personal qualities he is also an intellectual giant who towers over almost all his predecessors as Archbishop of Canterbury Among other achievements he has trounced the atheist Richard Dawkins and published over twenty well regarded books including several volumes of poetry and a major study of Dostoevsky Yet he is also one of the most reviled church leaders in modern history Long before facing calls to step down after his lecture on sharia law in early 2008 he had been accused of heresy on account of his pro gay views He has disappointed many of his own supporters as well So how has high office changed Rowan Williams Has he been bullied and manipulated Or is he perhaps playing a long game obliged to rate church unity above the pursuit of his own vision at a time when the Anglican Communion has never looked more unstable Rupert Shortt already the author of an acclaimed

introduction to the Archbishop's thought offers answers to these and other questions in this authoritative biography. He explores how the events of the Archbishop's remarkable life have shaped his beliefs and practices today. Of particular interest is the riveting account of Williams's experience near the World Trade Center towers on the morning of September 11, 2001. Written with Williams's cooperation, Rowan's Rule not only elucidates his ideas but gives a compelling portrait of a private and in some ways surprisingly vulnerable man.

**Making See** C. M. A. van Ekris, 2018-06-20 What is theologically and homiletically happening in prophetic sermons? This empirical theological study offers an analysis of the prophetic dimension in contemporary practices of preaching, including sermons from Bonhoeffer, King, and Tutu, and from Dutch local contexts. After a phenomenological opening, five theological concepts are extracted from the studied sermons, exposing destructive, interrupting dominant discourses, recognising the Word overcoming destructive and edifying the congregation. In this study, prophetic speech is reconstructed as an illuminative interplay between epiphanic and inductive aspects.

**Moving beyond Theoria toward Theosis** Justin A. Davis, 2024-06-10 Moving Beyond Theoria Towards Theosis focuses on the telos of man as understood in Plato's theoria envisioned in the allegory of the cave and early Christian reinterpretation of theoria as theosis. In his famed allegory of the cave, Plato maintains that real life exists beyond our base perceptions of reality and is found in the realm of ideas. Theoria is eternal rest in this realm and is understood as the telos of mankind. Plato's theoria underwent change as it was reinterpreted under middle Platonic and neo-Platonic thought. These systems incorporated a more mature idea of the divine than Plato but still minimized the material world. This book explores how early Christianity inherited Plato's cosmology and terminology. Theoria was also reinterpreted within the Christian context. Eventually, the term was abandoned for theosis. Theosis is beyond theoria as it includes contemplation of the forms as well as union with the source of the forms and the affirmation of the material realm. In this volume, Justin A. Davis shows how the Orthodox use of icons can be key to understanding theosis. The icon is a material object that connects to a higher reality and ultimately toward union with the divine. Plato's cosmology is collapsed and transfigured in union with the uncreated energy of God. Icons are the depiction of spiritual ascesis and the new telos of man: theosis.
