in his non fiction had a vital impact on his second phase of short fiction and the part played by realism in the author s short stories and his writings on Charles Dickens added further dimensions to his work as a whole By the final phase of Gissing s remarkable development it is evident that his interest in the concept of causality as the major force in his short work had been replaced by a more challenging preoccupation with the human psyche This introduced philosophical sociological and psychological dimensions to Gissing s work that established him in the field of short fiction as a leading exponent of late nineteenth century realism
