Renaissance? Perceptions of Continuity and Discontinuity in Europe, c.1300- c.1550, 2010-09-24 At least since the publication of Burckhardt's seminal study the Renaissance has commonly been understood in terms of discontinuities Seen as a radical departure from the intellectual and cultural norms of the Middle Ages it has often been associated with the revival of classical Antiquity and the transformation of the arts and has been viewed primarily as an Italian phenomenon In keeping with recent revisionist trends however the essays in this volume explore moments of profound intellectual artistic and geographical continuity which challenge preconceptions of the Renaissance Examining themes such as Shakespearian tragedy Michelangelo's mythologies Johannes Tinctoris' view of music the advent of printing Burgundian book collections and Bohemian renovatio this volume casts a revealing new light on the Renaissance Contributors include Klara Benešová Robert Black Stephen Bowd Matteo Burioni Ingrid Ciulisov Johannes Grave Luke Houghton Robin Kirkpatrick Alexander Lee Diotima Liantini Andrew Pettegree Rhys W Roark Maria Ruvoldt Jeffrey Chipps Smith Robin Sowerby George Steiris Rob C Wegman and Hanno Wijsman *The Great War* John Terraine, 1997 On War - Completed Carl von Clausewitz, 2016-11-09 The Germans interpret their new national colours black red and white by the saying *Durch Nacht und Blut zur Licht* Through night and blood to light and no work yet written conveys to the thinker a clearer conception of all that the red streak in their flag stands for than this deep and philosophical analysis of War by Clausewitz It reveals War stripped of all accessories as the exercise of force for the attainment of a political object unrestrained by any law save that of expediency and thus gives the key to the interpretation of German political aims past present and future which is unconditionally necessary for every student of the modern conditions of Europe Step by step every event since Waterloo follows with logical consistency from the

teachings of Napoleon formulated for the first time some twenty years afterwards by this remarkable thinker What Darwin accomplished for Biology generally Clausewitz did for the Life History of Nations nearly half a century before him for both have proved the existence of the same law in each case viz The survival of the fittest the fittest as Huxley long since pointed out not being necessarily synonymous with the ethically best Neither of these thinkers was concerned with the ethics of the struggle which each studied so exhaustively but to both men the phase or condition presented itself neither as moral nor immoral any more than vi are famine disease or other natural phenomena but as emanating from a force inherent in all living organisms which can only be mastered by understanding its nature It is in that spirit that one after the other all the Nations of the Continent taught by such drastic lessons as Koniggratz and Sedan have accepted the lesson with the result that to day Europe is an armed camp and peace is maintained by the equilibrium of forces and will continue just as long as this equilibrium exists and no longer

Waterfall Brendan Simms,Steven McGregor,2022-05-17 Eighty years after the stunning and decisive battle a revelatory new history of Midway The Battle of Midway was on paper an improbable victory for the smaller less experienced American navy and air force so much so that it was quickly described as a miracle Yet fortune favored the Americans at Midway and the conventional wisdom has it that the Americans lucky streak continued as the war in the Pacific turned against the Japanese This new history demonstrates that luck let alone miracles had little to do with it In The Silver Waterfall Brendan Simms and Steven McGregor show how the efforts of America s peacetime navy combined with creative innovations made by designers and industrialists were largely responsible for the victory The Douglas Dauntless Dive Bomber a uniquely conceived fighting weapon delivered a brutally accurate attack the Japanese quickly came to dread Told through a vivid narrative Simms and

McGregor show how the course of the war in the Pacific was dramatically altered emphasizing the crucial combination of a culture of innovation a brilliant contribution from immigrants and a vital intelligence coup that allowed the navy to orchestrate the devastating attack on the Japanese and dominate the Pacific for good

Mackinnon,2010-08-13 An intrepid investigation into the pro democracy movements that have reshaped the Eastern bloc since 2000 reopening the Kremlin s wounds from the Cold War When the Berlin Wall fell in 1989 and the Soviet Union collapsed two years later liberal democracy was supposed to fill the void left by Soviet communism Poland and Czechoslovakia made the best of reforms but the citizens of the Evil Empire itself saw little of the promised freedom and more of the same old despots and corruption A a second wave of reforms Serbia in 2000 Georgia in 2003 and Ukraine in 2004 as well as Kyrgyzstan s regime change in 2005 have proven almost as monumental as those in Berlin and Moscow The people

of the Eastern bloc aided in no small part by Western money and advice are again rising up and demanding an end to autocracy And once more the Kremlin is battling the White House every step of the way Mark MacKinnon spent these years working in Moscow and his view of the story and access to those involved remains unparalleled With The New Cold War he reveals the links between these democratic revolutions and the idealistic American billionaire behind them in a major investigation into the forces that are quietly reshaping the post Soviet world
