The Spanish Labyrinth Gerald Brenan,1990-09-13 Gerald Brenan's *The Spanish Labyrinth* first published in 1990 has become the classic account of the background to the Spanish Civil War

The Labyrinth of Time Anthony Peake,2017-07-19 Time is one of life's great mysteries From sand passing through an hourglass to time's winged chariot hurrying near we often perceive it as an unrelenting force which exists outside of ourselves And yet anyone who remembers the long summers of childhood or has sat watching an agonisingly slow ticking clock feels that time is elastic So which is it Anthony Peake puts forward an incredible hypothesis about the relationship between time and consciousness His theory explains many enigmatic phenomena including déjà vu precognition near death experience and altered states Building upon the ideas of his groundbreaking *Is There Life After Death* and drawing upon a remarkable breadth of science philosophy and literature his utterly compelling theory may change the way you view your life forever Praise for Anthony Peake Peake has the gift to explain complex theories in simple words Evelyn Elsaesser Valarino author of *Lessons from the Light* I found Peake's theory to be as thought provoking an exhilarating as a great film Colin Wilson author of *The Outsider*

Labyrinth of Thought José Ferreirós, 2008-10-04 Labyrinth of Thought discusses the emergence and development of set theory and the set theoretic approach to mathematics during the period 1850 1940 Rather than focusing on the pivotal figure of Georg Cantor it analyzes his work and the emergence of transfinite set theory within the broader context of the rise of modern mathematics The text has a tripartite structure Part 1 The Emergence of Sets within Mathematics surveys the initial motivations for a mathematical notion of a set within several branches of the discipline geometry algebra algebraic number theory real and complex analysis emphasizing the role played by Riemann in fostering acceptance of the set theoretic approach In Part 2 Entering the Labyrinth attention turns to the earliest theories of sets their evolution and their reception by the mathematical community prominent are the epoch making contributions of Cantor and Dedekind and the complex interactions between them Part 3 In Search of an Axiom System studies the four decade period from the discovery of set theoretic paradoxes to Gödel's independence results an era during which set theory gradually became assimilated into mainstream mathematics particular attention is given to the interactions between axiomatic set theory and modern systems of formal logic especially the interplay between set theory and type theory A new Epilogue for this second edition offers further reflections on the foundations of set theory including the dichotomy conception and the well known iterative conception

Labyrinth of Thought Jose Ferreiros, 2001-11-01 Jos Ferreir's has written a magisterial account of the history of set theory which is panoramic balanced and engaging Not only does this book synthesize much previous work and provide fresh insights and points of view but it also features a major innovation a full fledged treatment of the emergence of the set theoretic approach in mathematics from the early nineteenth century This takes up Part One of the book Part Two analyzes the crucial developments in the last quarter of the nineteenth century above all the work of Cantor

but also Dedekind and the interaction between the two Lastly Part Three details the development of set theory up to 1950 taking account of foundational questions and the emergence of the modern axiomatization Bulletin of Symbolic Logic

The Idea of the Labyrinth from Classical Antiquity through the Middle Ages Penelope Reed Doob, 2019-03-15 Ancient and medieval labyrinths embody paradox according to Penelope Reed Doob Their structure allows a double perspective the baffling fragmented prospect confronting the maze treader within and the comprehensive vision available to those without Mazes simultaneously assert order and chaos artistry and confusion articulated clarity and bewildering complexity perfected pattern and hesitant process In this handsomely illustrated book Doob reconstructs from a variety of literary and visual sources the idea of the labyrinth from the classical period through the Middle Ages Doob first examines several complementary traditions of the maze topos showing how ancient historical and geographical writings generate metaphors in which the labyrinth signifies admirable complexity while poetic texts tend to suggest that the labyrinth is a sign of moral duplicity She then describes two common models of the labyrinth and explores their formal implications the unicursal model with no false turnings found almost universally in the visual arts and the multicursal model with blind alleys and dead ends characteristic of literary texts This paradigmatic clash between the labyrinths of art and of literature becomes a key to the metaphorical potential of the maze as Doob's examination of a vast array of materials from the classical period through the Middle Ages suggests She concludes with linked readings of four labyrinths of words Virgil's Aeneid Boethius Consolation of Philosophy Dante's Divine Comedy and Chaucer's House of Fame each of which plays with and transforms received ideas of the labyrinth as well as reflecting and responding to aspects of the texts that influenced it Doob not only provides fresh theoretical and historical perspectives on the labyrinth tradition but also portrays a complex medieval aesthetic that helps us to approach structurally elaborate early works Readers in such fields as Classical literature Medieval Studies Renaissance Studies comparative literature literary theory art history and intellectual history will welcome this wide ranging and illuminating book

The Labyrinth of Universality Hena Maes-Jelinek, 2006-01-01 Wilson Harris many times nominated for the Nobel Prize in Literature is a British writer of Guyanese origin one of the most original novelists and critics of the twentieth century and probably the first to use and interpret the aesthetically fruitful notion of cross culturalism Harris's insights into the profound symbiosis between history culture and artistic expression were initially inspired by his encounters with Amerindians in the Guyanese rainforest interior where he led many surveying expeditions These encounters aroused his interest in pre Columbian peoples who figure prominently in many of his novels and stories His perception of the Guyanese landscape is the source of his unique narrative rhetoric richly metaphoric language and philosophy of existence i.e. the epistemological and phenomenological interrelatedness between man animal life and nature The present study offers magisterial in depth interpretations of Harris's exhilaratingly complex and shape shifting fictional worlds
