Von Ende,1980 No descriptive material is available for this title **Music** Russell Kuhtz,2016-07-15 Throughout history music has been an important accompaniment to other art forms most notably drama and to traditional rituals Today music dominates the arts It is broadcast to the farthest corners of the globe by means of radio film television musical theatre and the Internet Live performances meanwhile have never ceased to entertain inform and impact contemporary society This comprehensive volume examines music notation sound and structure musical composition and form the various characteristics of instruments as well as their classification and history including electronic instruments musical performance and expression and styles and genres of music in Western cultures *Imogen Hoist* Christopher Grogan,2010 Extensively revised with new material the book also includes a study of Imogen Hoist's music and a chronological list of her works revealing her as a composer of tremendous talent whose music deserves to be much more familiar *Current Musicology* Austin Clarkson,1967 **Playing Bach on the Keyboard** Richard Troeger,2003-10 Amadeus In this concise and accessible volume a noted keyboard artist and Bach specialist takes a fresh look at the performance of J S Bach's keyboard music Addressing the nonspecialist player Richard Troeger presents a wide range of historical information and discusses its musical applications The author shares accounts of the musical styles Bach employed and the instruments he knew In direct and pragmatic terms he clarifies the importance of notational and style details as guides to the composer's intentions particularly emphasizing changes in notational norms between Bach's time and the present Troeger offers core information on dynamics articulation tempo rhythm ornamentation and accompaniment He considers controversial issues as well establishing the importance of the clavichord in Bach's milieu and examining the link between baroque music and rhetoric a dramatic relationship that can bring great vitality to performance *Baroque Woodwind Instruments* Paul Carroll,2017-07-05 The late 17th century through to the end of the 18th century saw rapid

progress in the development of woodwind instruments and the composition of a vast body of music for those instruments During this period a large amount of music for domestic consumption was written for a growing amateur market a market which has regrown in the latter part of the 20th century The last 30 years has also seen the standard of performance by professionals on these instruments rise enormously This book provides a guide to the history of the four main woodwind instruments of the Baroque the flute oboe recorder and bassoon and this is complemented by a repertoire list for each instrument It also guides those interested towards a basic technique for playing these instruments a certain level of musical literacy is assumed and it can be used by students professionals and amateurs Advice is also given on buying a suitable reproduction instrument from a market where now virtually any Baroque instrument can be obtained as a faithful copy This is the first book of its kind and has its origins in the wind tutors of the 18th century **Handel's Messiah** Amanda Babington,2024-06-07 The soundtrack of the Christmas season for many music lovers Messiah is performed annually by choral societies across the world And so perhaps unsurprisingly many aspects of it have been explored by scholars over the years The work is the subject of several listeners guides and there are a number of books and articles of various lengths that describe the biographical circumstances of the work s formation and details of its many performances many including lists of singers for each performance an area that has itself spawned a whole field of research There has been no extensive study of the creative process of Messiah however since 1969 This book seeks to redress this imbalance by providing a thorough investigation of the work s creative process Beginning with the creative process of the libretto it examines the earliest sketches Handel s use of pre existent material alterations made to the autograph score and the latest versions of movements Each stage of composition is examined via primary source material with particular reference to the autograph score and conducting score Each chapter is formed as a case study and contains related discussion points for use in teaching or study settings Bach Performance Practice, 1945-1975 Dorottya Fabian,2017-07-05 Analysing over 100 recordings from 1945 1975 this book examines twentieth century baroque performance practice as evinced in all the commercially available recordings of J S Bach s Passions Brandenburg Concertos and Goldberg Variations Dorottya Fabian presents a qualitative style orientated history of the early music movement in its formative years through a comparison of the performance style heard in these recordings with the scholarly literature on Bach performance practice Issues explored in the book include the availability of resources balance tempo dynamics ornamentation rhythm and articulation During the decades following the Second World War the early music movement was more concerned with the revival of repertoire than with the revival of performance style which meant that its characteristics and achievements differed essentially from those of the later 1970s and 1980s Period practice techniques were not practised even by ensembles using eighteenth century instruments Yet as this survey reveals several recordings of the period provide unexpectedly stylish interpretations using metre and pulse to punctuate the music Such metric performance and appropriate articulation helped to clarify structure and texture and

assisted in the creation of a musical discourse the pre eminent goal of baroque compositions
