academic disciplines is increasingly being contested and questioned There is a growing awareness of the cultural economic and genetic entanglement of the peoples of the region This book examines how San and Khoe people are represented by others as well as by those who identify as San or Khoe The book interrogates the ways in which disciplines through their methodologies and ways of authorising knowledge not only discover or reveal knowledge but produce it in ways that involve complex and often ambiguous relationships with power structures and forms of intellectual symbolic and cultural capital One major trend that emerges is that the San and Khoe can no longer be seen as people of the past but have to be acknowledged as contemporary and socially situated individuals and communities who are increasingly contesting the representations which others have imposed on them This book was originally published as a special issue of Critical Arts A Journal of South North Cultural and Media Studies

Sunday School Publishing Board,1929 **The Dakota Hunter** Hans Wiesman,2020-01-10 A tale of a lifelong passion for a WWII aircraft that changed the author s life It is almost like an adventure novel except it is true Air Classics This book tells the story of a Dutch boy who grew up during the 1950s in postwar Borneo where he had frequent encounters with an airplane the Douglas DC 3 a k a the C 47 Skytrain or Dakota of World War II fame For a young boy living in a remote jungle community the aircraft reached the proportions of a romantic icon as the essential lifeline to a bigger world for him the beginning of a special bond In 1957 his family left the island and all its residual wreckage of World War II and he attended college in The Hague After graduation he started a career as a corporate executive and met the aircraft again during business trips to the Americas His childhood passion for the Dakota flared up anew and the fascination pulled like a magnet As if predestined or maybe just looking for an excuse to come closer he began a business to salvage and convert Dakota parts which meant first of all finding them As the demand for these war relic parts and cockpits soared he began to travel the world to track down surplus crashed or derelict Dakotas He ventured deeper and deeper into remote mountains jungles savannas and the seas where the planes are found usually as ghostly wrecks but sometimes still in full commercial operation

In hunting the mythical Dakota he often encountered intimidating or dicey situations in countries plagued by wars or revolts others by arms and narcotics trafficking warlords and conmen The stories of these expeditions take the reader to some of the remotest spots in the world but once there one is often greeted by the comfort of what was once the West's apex in transportation however now haunted by the courageous airmen of the past
