Berkeley This is a welcome addition to the literature that addresses the growing scholarly and popular interest in design and design history Drawing on an impressive array of examples the authors explore how class gender and cultural context shaped the reception of architecture interior design costume and the decorative arts at various moments in the modern era The collection is noteworthy for the way each of the contributors draws upon literary sources for insights into design and material culture that transcend the specific examples under review Models of methodological rigor these essays should appeal to scholars in multiple disciplines Dennis P Doordan University of Notre Dame [Encyclopedia of the Gilded Age and Progressive Era](#) John D.
