nation's primary records were lost during the civil war in 1922 and through other equally tragic means. But in this new book Chris Paton, the Northern Irish born author of the bestselling *Tracing Your Family History on the Internet*, shows that not only has a great deal of information survived, it is also increasingly being made available online. Thanks to the pioneering efforts of the Public Record Office of Northern Ireland, the National Archives of Ireland, organizations such as FindmyPast Ireland, Ancestry.co.uk and RootsIreland, and the massive volunteer genealogical community, more and more of Ireland's historical resources are accessible from afar. As well as exploring the various categories of records that the family historian can turn to, Chris Paton illustrates their use with fascinating case studies. He fully explores the online records available from both the north and the south from the earliest times to the present day. Many overseas collections are also included, and he looks at social networking in an Irish context where many exciting projects are currently underway. His book is an essential introduction and source of reference for anyone who is keen to trace their Irish roots. Chris Paton has produced this much needed book for researchers tracing Irish roots, pulling together all the current online resources and expert advice into one handy guide. **Family Tree Magazine** **Tracing Your Irish Family History on the Internet, Second Edition** Chris Paton, 2020-11-12. A simple, easy-to-use guide to tracing your Irish ancestry via the Internet. In this fully updated second edition of his best-selling guide to researching Irish history using the Internet, Chris Paton shows the extraordinary variety of sources that can now be accessed online. Although Ireland has lost many records that would have been of great interest to family historians, he demonstrates that a great deal of information survived and is now easily available to the researcher. Thanks to the pioneering efforts of the Public Record Office of Northern Ireland, the National Archives of Ireland, organizations such as FindmyPast Ireland, Ancestry.co.uk and RootsIreland, and the volunteer genealogical community, an ever-increasing range of Ireland's historical resources are accessible from afar. As well as exploring the various categories of records that the family historian can turn to, Chris Paton illustrates their use with fascinating case studies. **Empire, Early Photography and Spectacle** Elisa deCourcy, Martyn Jolly, 2020-11-23. James William Newland's 1810-1857 career as a showman, daguerreotypist, began in the United States but expanded into Central and South America, across the Pacific to New Zealand and colonial Australia, and onto India. Newland used the latest developments in photography, theatre, and spectacle to create powerful new visual experiences for audiences in each of these volatile colonial societies. This book assesses his surviving vivid portraits against other visual ephemera and archival records of his time. *Masters of the Post* Duncan Campbell-Smith, 2011-11-03 The origins of the Post Office go back to the early years of the Tudor monarchy Brian Tuke a former King s Bailiff in Sandwich was acknowledged as the first Master of the Posts by Cardinal Wolsey in 1512 and went on to build up a network of postmasters across England for Henry VIII Over the following five hundred years the Royal Mail expanded to an unimaginable degree to become the largest employer in the country and the face of the British state for most people in their everyday lives But it also faced the demands of an increasingly commercial marketplace With the election of Margaret Thatcher in 1979 the possibility of privatising the Royal Mail has prompted passionate arguments and has added immeasurably to the difficulties of running it In charting the whole of this extraordinary story Duncan Campbell Smith recounts a series of remarkable tales including how postal engineers built the first programmable computer for the wartime code breakers of Bletchley Park and how the Royal Mail managed to successfully continue delivering post to the front lines during two world wars but also how they failed to avert the Great Train Robbery of 1963 He brings to life many of the dominant personalities in the Royal Mail s history from Rowland Hill who imposed a uniform penny post and set the great Victorian expansion on its way to Tony Benn who championed the modernisation of the service in the 1960s and Tom Jackson who led the postal workers biggest union through fifteen frequently stormy years up to 1982 This is the first complete history of the Royal Mail up to the present day based on its comprehensive archives and including the first detailed account of the past half century of Britain s postal history made possible by privileged access to confidential records Today s debate over the future of the Royal Mail is shown to be just the latest chapter in a centuries old conflict between its roles raising revenue and serving the public Will its employees remain like Brian Tuke s postmasters servants of the Crown This book could hardly

appear at a more timely moment      The Early Development of Irish Society: the Evidence of Aerial Photography Edward R. Norman, John Kenneth Sinclair Saint Joseph, John Kenneth Sinclair St. Joseph, 1969      *A Secret Map of Ireland* Rosita Boland, 2010-04-17 Thirty two colorful essays by an Irish Times journalist reveal each of the counties on the island offering tales so unusual that they could only be of Ireland This delightful book promises a most unusual and engaging exploration of a mad and marvelous land      **The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries      **Out of the Ashes** Robert White, 2017-04-25 Out of the Ashes is the definitive history of the Provisional Irish Republican movement from its formation at the outset of the modern Troubles up to and after its official disarmament in 2005 Robert White a prolific observer of IRA and Sinn F in activities has amassed an incomparable body of interview material from leading members over a thirty year period In this defining study the interviewees provide extraordinary insights into the complex motivations that provoked their support for armed struggle their eventual reform and the mind set of today s dissidents who refuse to lay down their arms Those interviewed stem from every stage of the Provisionals history from founding figures such as Se n Mac Stiof in Ruair Br daigh and Joe Cahill to the new generation that replaced them Martin McGuinness Danny Morrison and Brendan Hughes among others Out of the Ashes is a pioneering history that breaks new ground in defining how the Provisionals operated caused worldwide condemnation and were transformed by constitutional politics
