Music and nature inspire my writings so I traveled extensively during the writing process of this book I began writing this philosophy treatise at the heart of America by the banks of the Missouri River where I used to drown myself in the magnificent music of the wilderness when I went on my evening walks I would stroll solo in the woods and emerge to rest on a bench facing an ocean blue sky and abysmal thoughts would come to me of their own accord like d j vus There I would sit and sup on the cool evening breeze and witness our great golden star fall behind the distant red horizon like a sinking ship and the beatific and tragic sight of that dying day would fill me up with emotions In that solitude where a person hears their own thoughts speak loudest I would give into a deep ocean of contemplation and examine the nature of the world like a tyrant beholding an atlas of the world I would ask myself deep philosophical questions like if a seed growing into a tree and a tree growing into a forest is only a brief moment in the history of time then how much shorter is my life in this world And if earth is only a dust particle floating in the desert of space then how infinitesimal am I in the infinite infinities and diversities of nature Who or what put me in this island called earth Am I just another artifact in the museum of the universe or am I something higher than a flower or a bird or a crystal I would compile thoughts until my thoughts thoughts reach the limit and my mind nearly faints from exhaustion I read nature and wrote at the park until the moon rose and stars arrived to light up the heaven like an army of glowing fireflies Portions of the book were written by the snowy mountain tops of Utah and at the beaches of Lake Michigan whose pure blue water ebbs away and flows towards the windy metropolis of Chicago I then traveled abroad to Africa to collect and recollect my thoughts in the primordial Garden of Eden in South Sudan with its billions of birds animals and insect s chirping buzzing squealing screaming and singing in the orchestra of life playing in the theatre of Nature I meditated and contemplated about life by the shores of Lake Victoria which reflects the white clouds of Uganda s clear sky in its surface like a gigantic mirror on the ground Then I went on an intellectual mecca to Europe visiting

intellectualistic sites like the British Library where Marx wrote the most consequential book of modernity I also went to the British Museum and Oxford University to affirm and confirm the contents of this discourse The book was actually edited in London It is called *The Future Affects The Past* because the subject of d j vu is the object the other subjects of the book revolve around It was premeditated by fate before I was even born that I would script this book Prior to taking my first breath of life before my heart beat for the first time in this world I already wrote this book and it was a matter of time before destiny made it occur into actuality Wisely so I do not call this book my own because I know that infinity is its source just like the infinitely ancient and creative Nature is the source of all arts and inventions Nature had copyright on all things This book is an avalanche of past and present knowledge it s a culmination of precedent human wisdom it s a synthesis of the insights of many books and many minds I am just a instrument used by greater Nature Nature is a tremendous bow that shoots arrows from infinite distance away and infinite time ago and I am only one of Nature s arrows of fire who live to illuminate the dark world of ignorance with philosophical knowledge *Free to be Creative at the Piano* , *LOVE Actually* ,2003

unknown to them *Jungian Music Psychotherapy* Joel Kroeker, 2019-04-26 Music is everywhere in our lives and all analysts are witness to musical symbols arising from their patient's psyche. However, there is a common resistance to working directly with musical content. Combining a wide range of clinical vignettes with analytic theory, Kroeker takes an in-depth look at the psychoanalytic process through the lens of musical expression and puts forward an approach to working with musical symbols within analysis which he calls Archetypal Music Psychotherapy (AMP). Kroeker argues that we have lost our connection to the simple vital immediacy that musical expression offers. By distilling music into its basic archetypal elements, he illustrates how to rediscover our place in this confrontation with deep psyche and highlights the role of the enigmatic musical psyche for guiding us through our life. Innovative and interdisciplinary, Kroeker's model for working analytically with musical symbols enables readers to harness the impact of meaningful sound, allowing them to view these experiences through the clarifying lens of depth psychology and the wider work of contemporary psychoanalytic theory. *Jungian Music Psychotherapy* is a groundbreaking introduction to the ideas of Archetypal Music Psychotherapy that interweaves theory with clinical examples. It is essential reading for Jungian analysts, psychotherapists, psychoanalysts, music therapists, academics, and students of Jungian and post-Jungian studies, music studies, consciousness studies, and those interested in the creative arts.
