Love And Power In The Peasant Family:

Love and Power in the Peasant Family Martine Segalen, 1983 **A Millennium of Family Change** Wally Seccombe, 1995-10-17 How do changes in family form relate to changes in society as a whole In a work which combines theoretical rigour with historical scope Wally Seccombe provides a powerful study of the changing structure of families from the Middle Ages to the beginning of the Industrial Revolution Responding to feminist critiques of sex blind historical materialism Seccombe argues that family forms must be seen to be at the heart of modes of production He takes issue with the mainstream consensus in family history which argues that capitalism did not fundamentally alter the structure of the nuclear family and makes a controversial intervention in the long standing debate over European marriage patterns and their relation to industrialization Drawing on an astonishing range of studies in family history historical demography and economic history *A Millennium of Family Change* provides an integrated overview of the long transition from feudalism to capitalism illuminating the far reaching changes in familial relations from peasant subsistence to the making of the modern working class

Historical Anthropology of the Family Martine Segalen, 1986-11-28 Over the past decade or so the social scientific sociological analysis of the family has been obliged to reconsider its traditional view that industrialisation triggered a shift within society from the large family which fulfilled all social functions from socialising the children to caring for the sick and the old to the modern nuclear family which was regarded solely as being the locus for emotional relationships Historians have shown that in the past there was a variety of family structures within a range of varying demographic economic and cultural frameworks distinctive for each society At the same time the interaction between sociology and social anthropology has led to a clearer conceptual analysis of that vague polysemic term family and notions of dwelling place descent marriage the relative roles of husband and wife and parent child relations as well as the more general relations between generations have in a variety of past and present social contexts been taken apart and analysed In this book the author synthesises European and North American historical and social anthropological material on the family that shows the reversal of the frequently held view of the family as an institution in decline showing it instead to be both dynamic and resistant

Love, Intimacy and Power Katie Barclay, 2013-07-19 Winner of the 2012 Senior Hume Brown Prize in Scottish History and the 2012 Women's History Network UK Book Prize Through an analysis of the correspondence of over one hundred couples from the Scottish elites across the seventeenth to nineteenth centuries this book explores how ideas around the nature of emotional intimacy love and friendship within marriage adapted to a modernising economy and society Patriarchy continued to be the central model for marriage across the period and as a result women found spaces to hold power within the family but could not translate it to power beyond the household Comparing the Scottish experience to that across Europe and North America Barclay shows that throughout the eighteenth century far from being a side note in European history Scottish ideas about gender and marriage became culturally dominant Now available in paperback this book will be vital to those studying

and teaching Scottish social history and those interested in the history of marriage and gender It will also appeal to feminists interested in the history of patriarchy An important and original study WHN Book Prize 2012 Judges *Women in France Since 1789* Susan Foley, 2017-03-14 This compelling study traces the changes in women's lives in France from 1789 to the present Susan K Foley surveys the patterns of women's experiences in the socially segregated society of the early nineteenth century and then traces the evolution of their lifestyles to the turn of the twenty first century when many of the earlier social distinctions had disappeared Focusing on women's contested place within the political nation *Women in France since 1789* examines The on going strength of notions of sexual difference Recurrent debates over gender The anxiety created by women's perceived departure from ideals of womanhood Major controversies over matters such as reproductive rights significant cultural changes and women's often under estimated political roles By addressing and exploring these key issues Foley demonstrates women's efforts over two centuries to create a place in society on their own terms **Revolutionizing the Family** Neil J. Diamant, 2023-04-28 In 1950 China's new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change marital and family relationships In this comprehensive study of the effects of that law Neil J Diamant draws on newly opened urban and rural archival sources to offer a detailed analysis of how the law was interpreted and implemented throughout the country In sharp contrast to previous studies of the Marriage Law which have argued that it had little effect in rural areas Diamant argues that the law reshaped marriage and family relationships in significant but often unintended ways throughout the Maoist period His evidence reveals a confused and often conflicted state apparatus as well as cases of Chinese men and women taking advantage of the law to justify multiple sexual encounters to marry for beauty to demand expensive gifts for engagement and to divorce on multiple occasions Moreover he finds those who were best placed to use the law's more liberal provisions were not well educated urbanites but rather illiterate peasant women who had never heard of sexual equality and it was poor men not women who were those most betrayed by the peasant based revolution This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 2000 In 1950 China's new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change mari **Marriage Choices and Class Boundaries** Marco H. D. van Leeuwen, Ineke Maas, Andrew Miles, 2005 Endogamy the custom forbidding marriage outside one's social class is central to social history This study considers the factors determining who married whom whether partner selection changed over the past three hundred years and regional differences between Europe and South America The

Voices of the People in Nineteenth-Century France David Hopkin, 2012-04-26 This innovative study of the lives of ordinary people peasants fishermen textile workers in nineteenth century France demonstrates how folklore collections can be used to shed new light on the socially marginalized David Hopkin explores the ways in which people used traditional genres such as stories songs and riddles to highlight problems in their daily lives and give vent to their desires without undermining the two key institutions of their social world the family and the community The book addresses recognized problems in social history such as the division of power within the peasant family the maintenance of communal bonds in competitive environments and marriage strategies in unequal societies showing how social and cultural history can be reconnected through the study of individual voices recorded by folklorists Above all it reveals how oral culture provided mechanisms for the poor to assert some control over their own destinies

Revolution in the House Margaret H. Darrow, 2014-07-14 To what extent did the French Revolution revolutionize the French family In examining the changes in inheritance laws brought on by the Revolution Margaret Darrow gives a lively account of the mixed effects legislation had on families of this period As a test case she has chosen the southern city of Montauban whose Roman based law enabling testators to appoint their heirs was contradicted by the new laws instituting equal inheritance Filled with vivid anecdotes this book shows how Montauban families in varying social classes adapted their financial strategies to cope with rapidly shifting circumstances often creating solutions not envisioned by the legislators With family history as its focus *Revolution in the House* also provides a detailed social history of Montauban during the French Revolution Its sources are archival and its argument rests upon a statistical study of the making and unmaking of family fortunes across several generations Darrow shows that in the eighteenth and nineteenth centuries the transmission of wealth expressed a way of life on the social political religious and economic levels not only at the top of society but throughout the entire social order Originally

Wolchik, Alfred G. Meyer, 2013-07-22 These essays by American Canadian and East European scholars provide a comprehensive look at the status of women in Eastern Europe with particular emphasis on the postwar situation Family, Gender, and Law in Early Modern France Suzanne Desan, Jeffrey Merrick, 2010-11-01 Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p **Finding the Family in Medieval and Early Modern Scotland** Elizabeth Ewan, Janay Nugent, 2017-03-02 In this interdisciplinary collaboration an international group of scholars have come together to suggest new directions for the study of the family in Scotland circa 1300 1750 Contributors apply tools from across a range of disciplines including art history literature music gender studies anthropology history and religious studies to assess creatively the broad range of sources which inform our understanding of the pre modern Scottish family A central purpose of this volume is to encourage further studies in this area by highlighting the types of sources available as well as actively engaging in broader historiographical debates to demonstrate how important and effective family studies are to advancing our understanding of the past Articles in the first section demonstrate the richness and variety of sources that exist for studies of the Scottish family These essays clearly highlight the uniqueness feasibility and value of family studies for pre industrial Scotland The second and third sections expand upon the arguments made in part one to demonstrate the

importance of family studies for engaging in broader historiographical issues The focus of section two is internal to the family These articles assess specific family roles and how they interact with broader social forces issues In the final section the authors explore issues of kinship ties an issue particularly associated with popular images of Scotland to examine how family networks are used as a vehicle for social organization

The Origins of Modern Feminism Jane Rendall, 1985-01-24 This comparative study analyses the emergence of feminist movements and their differing characters in Britain France and the United States Jane Rendall examines the social economic and cultural factors which affected women's status in society and led some women to act individually and collectively to seek to change it The Enlightenment emphasis on women's nature and the evangelical stress on the moral potential of women contributed to a framework of ideas which could be used by conservatives and by feminists Among the middle classes discussion focused on the need to improve women's education and on the strengths and limitations of domesticity Patterns of paid employment for women were shifting and Jane Rendall suggests that the weak position of women in the labor market during the early stages of industrialisation restricted their ability to associate together Yet involvement in religious political and philanthropic movements could provide a means by which women might come together to identify their common concerns and learn the necessary political skills Jane Rendall places the origins of feminism in the broader context of social and political change in the nineteenth century looking both at the changing relationship between paid work and domestic life and at the links between feminism and class and political conflict in three different societies

Women and Power in the Middle Ages Mary Erler, Maryanne Kowaleski, 1988 Power in medieval society has traditionally been ascribed to figures of public authority violent knights and conflicting sovereigns who altered the surface of civic life through the exercise of law and force The wives and consorts of these powerful men have generally been viewed as decorative attendants while common women were presumed to have had no power or consequence Reassessing the conventional definition of power that has shaped such portrayals *Women and Power in the Middle Ages* reveals the varied manifestations of female power in the medieval household and community from the cultural power wielded by the wives of Venetian patriarchs to the economic power of English peasant women and the religious power of female saints Among the specific topics addresses are Griselda's manipulation of silence as power in Chaucer's *The Clerk's Tale* the extensive networks of influence devised by Lady Honor Lisle and the role of medieval women book owners as arbiters of lay piety and ambassadors of culture In every case the essays seek to transcend simple polarities of public and private male and female in order to provide a more realistic analysis of the workings of power in feudal society

Global Lynching and Collective Violence Michael J. Pfeifer, 2017-09-22 In this second volume of the groundbreaking survey Michael J Pfeifer edits a collection of essays that illuminates lynching and other extrajudicial rough justice as a transnational phenomenon responding to cultural and legal issues The volume's European themed topics explore why three communities of medieval people turned to mob violence and the ways exclusion from formal institutions
