Beyond Belief Hugh Mackay, 2016-04-26 What do people actually mean when they say God Around two thirds of us say we believe in God or some higher power but fewer than one in ten Australians attend church weekly In *Beyond Belief* Hugh Mackay presents this discrepancy as one of the great unexamined topics of our time He argues that while our attachment to a traditional idea of God may be waning our desire for a life of meaning remains as strong as ever Mackay interviews dozens of Australians representing many different points on the spectrum of faith including some who are part of

the emerging spiritual but not religious movement He exposes the deep vein of ambivalence about religion that runs through our society we may not actively worship but we still like to see local churches operating in our midst and we use our church to marry christen our babies educate our children and commemorate our dead He points out some uncomfortable truths such as our tendency to call on God only in a crisis and unpacks our human need for answers even when science can't find them He endorses the Christian ideal of the good life a life lived for others but acknowledges that there are many pathways to that same goal not all of them religious Written with all the insight and compassion we have come to expect of our leading chronicler of Australian life *Beyond Belief* is an engrossing exploration of the ways we find spiritual fulfilment in an avowedly secular age
