SEX – MONEY - LOVE Adrian Gabriel Dumitru, Sex money and love too if you have them all then it s excellent Everyone is looking for the best ingredients of a love story Some even believing they have it all Or that indeed they have the magic formula I thought the same few times And is funny cause I continue writing about the subject but not really coming up with magic tricks in front of the public And you know why Well because i hate continuing writing theory and on the scene of life really acting ridiculous By a such a long time But today i trend to believe that because of the abundance of informations coming from everywhere to us we all know all And still we can t really see so many happy couples on the stage of the real life Why Maybe because we don t know how to mix those ingredients Maybe For example when i have in mind the main ingredients of a love story from today love sex and money i know for example that we could love but not express that love properly We could have sex even everyday but not the intense one We could also have money but not really knowing what to do with them to improve the quality of our relationships And i could continue writing for hours but So we know all but don t know how to play with the proportions All is ok for a while but later on all fades The story becomes just a story and nothing else I am indeed a theoretician or sort of a theoretician but on the stage of life i am actually like all the others Knowing all But failing I can t find the magic formula of those proportions or maybe i am too selfish to bother doing it So i fail Like many others

The Sleeper Must Awaken Jean Erasmus, 2007-09 The

human condition is a strange one at best Finding ourselves in a world nearly void of any profound natural predators with the ability to unconditionally love and solve the most complex problems in the most creative ways we choose to make the world an ever increasingly dangerous place in stead of creating Utopia In our relentless pursuit of happiness and perfection we create the very opposite The Sleeper Must Awaken dives deep into the human psyche exploring from the archetypal dreamscapes of our subconscious minds to the remarkable similarities between Super String Theory and ancient mysticism It opens the door to a journey within ourselves searching for the root of this phenomenon and presenting possible solutions to a world on the edge Author Bio Dr Jean Erasmus is a South African born medical practitioner Before moving to the United Kingdom he has worked mostly with less fortunate souls managing a wide variety of illnesses ranging from Tuberculosis to HIV AIDS He has also been involved in medical legal work as well as lecturing in Primary Health Care The world of medicine where cold evidence based science intermingles with the warm complex emotional and spiritual human being has sparked an interest in Jean leading him to pursue the connection between these two diverse poles of the human condition This pursuit offset by the dramatically changing physical social and spiritual landscape of the world led him into writing this book in an attempt to finding the missing piece of the current human led world puzzle and to present possible solutions Looking for Happiness, Loss of the Big Money and Surviving Ludmila Chorekchan,2010-03-08 It is an exciting story about how the rich family estate was left without any regret by one sister and lost between the fingers without any responsibility by another sister But nothing bad could happened at all if the people from this story would really knew themselves knew their weak points and aware of their psychological problems So I tried to display it through the actions of these people that everybody could not only understand rationally the important psychological problems which push us to our troubles but emotionally also what is very important feeling pain of these people being really upset to their wrong behavior and glad to right one because then we learn better and remember forever It is also very important to know when we want to be happy and when we are not or when we are the victims or when we are attacking others or when we are loosing everything going down or when we are just living today This story is very consonant to our time when we also lost a lot and must fix our life how it was before Even more it is my modern psychological version of the famous play A Streetcar Named Desire Tennessee Williams which was published right after The Second World War was over time close to our days when terrors of the war were staying yet in memory of the people leaving its traces on the ways of the life and where serious psychological problems were expressed especially impressively through pain tears and sufferings But in my story I tried to do moreto display the real reasons of the psychological problems what we are usually missing step by step discovering wrong thoughts and wrong doings which led that people to their troubles And as resultreward to all of us happy ending because the reasons of all troubles were discovered but to discover means to understand and to understand psychological problems is to get rid of them and to be cured I tried to write about all those serious matters in an easy entertainment way that everybody who will read my story
