the US and Soviet Union had 50 000 nuclear weapons between them she found herself surrounded by politicians who wanted to build even more Hundreds of dreams and the voice of Spirit led Caroline ever deeper into the political arena urging her to build relationships based on love and respect with members of Congress and the Supreme Soviet defense analysts peace activists scientists and vice presidents of both the United States and the USSR Love Changes Things is a David and Goliath story where David included millions of people working to end nuclear test explosions worldwide In this extraordinary story what tamed the dragon was lovean ingredient that is often missing in social change work but essential to creating a world at peace The premise is simple and the tools are easy to use *Morality - Nature's Crowning Achievement* Bill

Wilson,2022-12-06 In his previous book Faith Refractioned the author suggested that faith needs to be periodically refracted by looking at it through the lens of our prevailing understanding of the world For our fathers this was the world of supernatural beings and mystical powers For us today it is the world of science and reason and faith will only reveal its true beauty when refracted through this prism In this book the author addresses an argument made by religious traditionalists which says that without God or gods there can be no morality He outlines how morality can be explained as a natural phenomenon how it helps humanity survive and thrive and how it can be encapsulated within the framework of a moral compass The author observes that for our forefathers morality was obedience to the laws of God But with the belief in God in sharp decline in most of the Western world morality either doesn't exist or it is somehow part of our evolved nature Accordingly through much trial and error an almost global consensus has been achieved about the elements of a moral code But this consensus is fragile and demands constant nurturing if it is to withstand the pressures of modern high speed living
