When True Love Came to China Lynn Pan, 2015-11-01 The Guardian's Best Books of 2015 Most people suppose that the whole world knows what it is to love that romantic love is universal quintessentially human Such a supposition has to be able to meet three challenges It has to justify its underlying assumption that all cultures mean the same thing by the word love regardless of language It has to engage with the scholarly debate on whether or not romantic love was invented in Europe and is uniquely Western And it must be able to explain why early twentieth century Chinese writers claimed that they had never known true love or love by modern Western standards By addressing these three challenges through a literary historical philosophical biographical and above all comparative approach this highly original work shows how love's profile in China shifted with the rejection of arranged marriages and concubinage in favour of free individual

choice monogamy and a Western model of romantic love This book Lynn Pan s best to date adds a wonderful new angle by encouraging us via comparison to better appreciate how unusual even in some ways exotic a part of the Western past we take for granted as though it were natural actually is While the reader will learn a great deal about Chinese literary and cultural traditions from this book if read with an open mind the Western reader may end up rethinking things about his or her tradition just as deeply Jeffrey N Wasserstrom Chancellor s Professor of History University of California at Irvine Nobody writes about China quite as brilliantly as Lynn Pan who in this new illuminating work on love showcases her trademark erudition entwined with a novelist s sensibility Pan s rare skill makes the book a treat from start to finish a sumptuous deft and moving analysis of China s relationship with love Mishi Saran author of Chasing the Monk s Shadow A Journey in the Footsteps of Xuanzang and The Other Side of Light

Christian Values in Communist China Gerda Wielander,2013-10-08 This book argues that as new political and social values are formed in post socialist China Christian values are becoming increasingly embedded in the new post socialist Chinese outlook It shows how although Christianity is viewed in China as a foreign religion promoted by Christian missionaries and as such at odds with the official position of the state Christianity as a source of social and political values rather than a faith requiring adherence to a church is in fact having a huge impact The book shows how these values inform both official and dissident ideology and provide a key underpinning of morality and ethics in the post socialist moral landscape Adopting a variety of different angles the book investigates the role Christian thought plays in the official discourse on morality and love and what contribution Chinese Christians make to charitable projects It analyses key Christian publications and dedicates two chapters to Christian intellectuals and their impact on political liberal thinking in China The concluding chapter highlights gender roles the role of the Chinese diaspora and the overlap of the government

and Christian agenda in China today The book challenges commonly held views on contemporary Chinese Christianity as a movement in opposition to the state by showing the diversity and complexity of Christian thinking and the many factors influencing it

Masculinity, Marriage and Rural Men in Urban China Sarah Gosper, 2024-12-31 This book explores the conjuncture and interrelationship between three so called crises facing Chinese society a crisis of marriage a crisis of masculinity and a crisis of mobility Based on sustained ethnographic research on unmarried lower class rural men from two distinct social and class categories namely migrant workers employed in the food delivery and express mail delivery industries and tertiary educated white collar professionals the book reveals how the increasing socio economic precarity of rural men and their largely unrealised desires to marry and have children demonstrates a fundamental reconfiguration of Chinese masculinity and mobility in urban China and the social impact on central Chinese institutions The book also reveals the futile efforts to fulfil hegemonic models of masculinity in contemporary China and addresses the heterogeneity of unmarried lower class rural men as they navigate marriage manhood and mobility Exploring gender relations in China and contributing to global studies of heterosexual masculinities this book will appeal to students and scholars of Chinese culture and society gender studies and social anthropology
