

My Eternal Flame,

*As the sands of time flow, my love for
you only grows, burning brighter with
each passing moment. I've come to
realize that love isn't just about the
here and now. It's about every shared
yesterday and every hoped-for
tomorrow. With every tick of the clock,
my love for you becomes a part of
eternity, a testament to the power of
two souls entwined in time.*

Forever and always.

Other Septembers, Many Americas Ariel Dorfman, 2004-07-06 Let me tell you America of the hopes I had for you

Dorfman writes after the fall of the Twin Towers remembering back to an earlier September 11 in 1973 when he was on the staff of Salvador Allende then president of Chile the day he was removed from office and murdered in a coup in which the U S government was complicit Beware the plague of victimhood America Nothing is more dangerous than a giant who is afraid Included in Other Septembers Many Americas are major essays about the America south of the border exploring the ambiguous relationship between power and literature and touching on topics as diverse as bilingualism barbarians and video games In the essay A Different Drum Dorfman asks Isn't it time as war approaches yet again to tell each other stories of peace over and over again Over and over in these jewel like essays his best shorter work of the last quarter century Dorfman weaves together sentiment and politics with his sense of the larger historical questions reminding Americans of our unique role in the world so different from the one put forward by the current administration the power to resist and to imagine

Correspondence and American Literature, 1770-1865 Elizabeth Hewitt, 2004-11-25 Elizabeth Hewitt uncovers the centrality of letter writing to antebellum American literature She argues that many canonical American authors turned to the epistolary form as an idealised genre through which to consider the challenges of American democracy before the Civil War The letter was the vital technology of social intercourse in the nineteenth century and was adopted as an exemplary genre in which authors from Crèvecoeur and Adams through Jefferson to Emerson Melville Dickinson and Whitman could theorise the social and political themes that were so crucial to their respective literary projects They interrogated the political possibilities of social intercourse through the practice and analysis of correspondence Hewitt argues that although correspondence is generally only conceived as a biographical archive it must instead be understood as a significant genre through which these early authors made sense of social and political relations in the nation
