## **Lures A Novel:**

*The Book of Lures* Ron Calcutt, Tim Simpson, 2004      *The Philosophical Novel as a Literary Genre* Michael H. Mitias, 2022-03-11 This book examines the conceptual existential and logical conditions under which the philosophical novel can be treated as a literary genre on a par with generally recognized literary genres such as mystery romantic adventure religious or historical novel Michael H Mitias argues that the philosophical novel meets these conditions He advances a detailed analysis of the concept of literary genre and discusses the reasons which justify the claim that philosophical novel is a distinct literary genre This is based on the assumption that philosophical ideas can be communicated metaphorically An analysis of this assumption necessarily leads to a detailed discussion of the concept of metaphor and the extent to which it can be the vehicle of communicating philosophical truth      *Perception and Cognition: Interactions in the Aging Brain* Harriet A. Allen, Katherine L. Roberts, 2016-09-13 Healthy ageing can lead to declines in both perceptual and cognitive functions Impaired perception such as that resulting from hearing loss or reduced visual or tactile resolution increases demands on higher level cognitive functions to cope or compensate It is possible for example to use focused attention to overcome perceptual limitations Unfortunately cognitive functions also decline in old age This can mean that perceptual impairments are exacerbated by cognitive decline and vice versa but also means that interventions aimed at one type of decline can lead to improvements in the other Just as improved cognition can ameliorate perceptual deficits improving the stimulus can help offset cognitive deficits For example making directions and routes easy to follow can help compensate for declines in navigation abilities In this Topic we bring together papers from both auditory and visual researchers that address the interaction between perception and cognition in the ageing brain Many of the studies demonstrate that a broadening of representations or increased reliance on gist underlie perceptual and cognitive age related declines There is also clear evidence that impaired perception is associated with poor cognition although encouragingly it can also be seen that good perception is associated with better cognition Compensatory cognitive strategies were less successful in improving perception than might be expected We also present papers which highlight important methodological considerations that are required when studying the older brain      **The Hippocampus Book** Richard Morris, David G. Amaral, Tim Bliss, Karen Duff, John O'Keefe, 2024-11 Known to be important for memory the hippocampus has long been a prime focus for neuroscience research This second edition of *The Hippocampus Book* is written by experts in a wide range of disciplines with new chapters summarizing how disorders of hippocampal function contribute to neurological and psychiatric conditions The editors draw on their experience in hippocampal anatomy physiology cognitive neuroscience and disease pathobiology to weave together an authoritative book which will interest those working in numerous neuroscientific disciplines      *The Lure* Felice Picano, 2009-04-01 Noel Cummings s life is about to change irrevocably After witnessing a brutal murder Noel is recruited to assist the police by acting as the lure for a killer who has been targeting gay men Undercover Noel moves

deeper and deeper into the dark side of Manhattan's gay life that stirs his own secret desires until he forgets he is only playing a role      *The Lure of Story* Katherine Paterson, 1993      **Lures** Sue Goyette, Susan Goyette, 2002 Seventeen year old Grace contends with a mother who spends endless hours sterilizing the house a brother who deals with life through a haze of drugs and a harsh father who finds gratification in buying gadgets It's no wonder that the warm bright home of her friend Lily is so appealing to her Although both families hardly know each other a secret thread connects them slowly and inexorably unravelling their lives      **A Century of the English Novel** Cornelius Weygandt, 1925      **The Cognitive Neuropsychology of Déjà Vu** Chris Moulin, 2017-09-06 Déjà vu is one of the most complex and subjective of all memory phenomena It is an infrequent and striking mental experience where the feeling of familiarity is combined with the knowledge that this feeling is false While until recently it was an aspect of memory largely overlooked by mainstream cognitive psychology this book brings together the growing scientific literature on déjà vu making the case for it as a metacognitive phenomenon The Cognitive Neuropsychology of Déjà Vu reviews clinical experimental and neuroimaging methods focusing on how memory disorders and neurological dysfunction relate to the experience Examining déjà vu as a memory phenomenon Chris Moulin explores how the experience of déjà vu in special populations such as healthy aging or those with schizophrenia provides new insights into understanding this phenomenon He considers the extensive data on déjà vu in people with epilepsy dementia and other neurological conditions assessing neuropsychological theories of déjà vu formation Essential reading for all students and researchers interested in memory disorders this valuable book presents the case for déjà vu as a healthy phenomenon only experienced by people with sufficient cognitive resources to oppose and detect the false feeling of familiarity      *The Lure of the Pen* Flora Klickmann, 1920      **A Lure of Knowledge** Judith Roof, 1991 Lesbianism in literature has been dealt with rather indirectly in the past Editors have led readers to the artistry of a work containing lesbianism emphasizing instead the literary history and historical context of the work rather than the representations of lesbianism The editor for Colette's *The Pure and the Impure* for instance affirms that Colette has a knowledge of a strange sisterhood but assures readers she has never strayed from the normal In the groundbreaking *A Lure of Knowledge* Judith Roof demonstrates that representations of lesbian sexuality occupy specific locations or positions in the arguments subject matter and rhetoric of Western European and American literary criticism She examines the political context of representations how lesbian sexuality is used as a signifier and why it appears when and where it does Roof argues that attempts to depict or explain lesbian sexuality spur anxieties about knowledge and identity In reaction to and denial of these anxieties lesbian sexuality is represented in film literature theory and criticism as foreplay as simulated heterosexuality as erotic excess as joking inauthenticity as artful compromise or as masculine mask in a specific repertoire of neutralization and evasion Challenging the heterosexism of film theory and feminist theory this book analyzes the rhetorical use of lesbian sexuality Roof explores a range of discourses from the works of such authors as Anais Nin Olga Broumas Julia Kristeva Jane
