The Lure of Authoritarianism Stephen J. King, Abdeslam M. Maghraoui, 2021-12-22 The works collected in The Lure of Authoritarianism consider the normative appeal of authoritarianism in light of the 2011 popular uprisings in the Middle East

Despite what seemed to be a popular revolution in favor of more democratic politics there has instead been a slide back toward authoritarian regimes that merely gesture toward notions of democracy In the chaos that followed the Arab Spring societies were lured by the prospect of strong leaders with firm guiding hands The shift toward normalizing these regimes seems sudden but the works collected in this volume document a gradual shift toward support for authoritarianism over democracy that stretches back decades in North Africa Contributors consider the ideological socioeconomic and security based justifications of authoritarianism as well as the surprising and vigorous reestablishment of authoritarianism in these regions With careful attention to local variations and differences in political strategies the volume provides a nuanced and sweeping consideration of the changes in the Middle East in the past and what they mean for the future Siren's Lure Renee Pace,2021-07-10 Siren s Lure A Mermaid s Tale of Secrets High School and the Chilling Depths of the Unknown Unravel a web of mystery as a teenage mermaid battles sinister forces confronts her siren heritage and races against time to save her kidnapped parents from the clutches of an evil Sea Witch In a twist of fate I drowned and everything changed From the abyss I emerged not as a victim but as a mermaid My parents hush about the incident drowning my confusion in anti psychotic pills But I can t forget High school is a torment and my newfound ability to sense thoughts pushes everyone away except Ash a heartthrob hallucination turned real who claims I m a long lost siren princess As strange events unfold my parents are kidnapped and Ash becomes my protector though doubt lingers The hockey team s captain seeks more than friendship and my life spirals out of control I am determined to free my parents even if it means returning to the ocean depths Juggling high school and unraveling my mysterious powers I discover a sinister Sea Witch threatening my family and the entire ocean realm Time races against me I ll fight even if it means confronting the chilling Atlantic Amidst the chaos I cling to the hope that this isn t a psychotic episode praying to wake up with legs instead of a tail In this thrilling race against destiny I must learn to control my powers before evil prevails and my family is lost forever *Field & Stream* ,1971-06 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations

**No-Body Homicides** Mark Stobbe,2023-05-05 No Body Homicides The Evolution of Investigation and Prosecution examines how police and prosecutors have become more successful in obtaining convictions for homicide when the remains of the victim are unavailable as evidence Based on an examination of over 600 cases in the United States and Canada this book shows the length some killers will go to avoid punishment and the determination of police and prosecutors to bring them to justice For over 300 years murderers in the United States and Canada could avoid prosecution by successfully disposing of the body of their victim No Body Homicides provides the reader with a historical overview of prosecutions in which a killer destroyed or hid the body of the victim It explains why prosecutions were once extremely rare and how legal attitudinal and technical changes have made them more common The book also explores how the logic of no body homicide

prosecutions differs from body present homicides It allows police and prosecutors to draw on the accumulated experience of hundreds of prosecutions For criminology students it provides fascinating insights into the process of investigating and prosecuting homicides as well as a glimpse into the motivations and practices of killers who are so determined to avoid punishment that they remove the bodies of their victims No Body Homicides will be of practical interest to police or prosecutors confronted with a missing person s case that could be sinister It is also written to be appropriate as a supplementary text in an undergraduate criminology class or for an aficionado of True Crime
